

inspection, which requires a steam locomotive's "entire boiler" to be inspected after 1,472 service days or 15 years, whichever is earlier. MRSR, a tourist railroad, seeks to extend for 62 operating days the deadline for its 15-year inspection, from September 7, 2025, to December 31, 2025, which would allow locomotive Polson No. 70 to continue operations during the fall and winter months, which MRSR states comprise more than 50% of its annual ridership. In its petition, MRSR explains that Polson No. 70 is "safe and structurally sound for continued operation," citing its annual inspection and hydrostatic test in April 2025, which was witnessed by FRA. MRSR further states that its tourist service is a "major regional driver of tourism and economic development" in its community, and, as MRSR's two other steam locomotives are not currently available for use, without this relief, MRSR faces "the real risk of closure."

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by September 2, 2025 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Privacy Act

Anyone can search the electronic form of any written communications and comments received into any of FRA's dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Pipeline Safety: 2025 Pipeline Data Public Meeting

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), Department of Transportation (DOT).

ACTION: Notice of public meeting.

SUMMARY: This notice announces a public meeting to discuss how data collected from pipeline operators can be used to improve pipeline and public safety. Discussion topics include how data collected by PHMSA is currently used by stakeholders, displayed on the PHMSA website, and used to generate pipeline safety performance measures. PHMSA is also interested in identifying data that is collected but not used by any stakeholders, as well as data that should be collected but is not. The meeting will be recorded but there will not be a live webcast.

DATES: The public meeting on pipeline data will be held on Thursday, September 18, 2025, from 8:00 a.m. to 5:00 p.m. CST, and Friday, September 19, 2025, from 8:00 a.m. to 5:00 p.m. CST. Name badge pickup and onsite registration will be available starting at 7:30 a.m. on both days.

Registration: Please register at "2025 Pipeline Data Public Meeting"—PHMSA Public Meetings. Please note that the meeting will be recorded but will not be webcast. After the meeting, a link to the recording will be posted on the registration page. Anyone who would like to attend the meeting should register by September 11, 2025. Individuals requiring accommodations, such as sign language interpretation or other ancillary aids, should notify Janice Morgan by phone at 202-815-4507 or by email at janice.morgan@dot.gov by no later than August 24, 2025. For additional information, see the **ADDRESSES** section of this notice.

ADDRESSES: The public meeting will be held in Houston, Texas. Additional details about the location and an agenda will be posted to the registration page, "2025 Pipeline Data Public Meeting"—PHMSA Public Meetings, by August 17, 2025.

FOR FURTHER INFORMATION CONTACT:

Blaine Keener by phone at 202-366-0970 or by email at blaine.keener@dot.gov.

SUPPLEMENTARY INFORMATION: PHMSA will hold this public meeting to provide an open forum for exchanging information about how pipeline data can be used to improve pipeline and public safety. Discussion topics include what data is collected and how it is used by stakeholders as well as how performance measures could be improved. Various stakeholders—including Federal and state regulatory agencies, industry, advocacy groups, and the media—often use data collected and made public by PHMSA to describe the integrity of pipeline infrastructure, portray safety trends, or identify emerging safety concerns. This data is also often used to evaluate the safety performance of individual companies and the overall industry, as well as the effectiveness of the regulatory process. PHMSA uses operator submitted data to identify which pipeline systems will be inspected in a given year, and to develop inspection plans based on the system's and the company's apparent safety strengths and weaknesses. Operators use data to improve safety by identifying and mitigating threats and risks on their systems.

PHMSA regulations require integrity management program performance measures for gas distribution pipelines (49 Code of Federal Regulations (CFR) § 192.1007(e)), gas transmission pipelines (49 CFR 192.945), and hazardous liquids pipelines (49 CFR 195.452(k)). The information exchanged at this public meeting will help inform PHMSA as it considers improvements to integrity management performance measures. Information on potential key performance indicators for use within pipeline safety management systems (PSMSs) will also be presented.

The overall meeting objectives, subject to modification based on stakeholder input, are to:

1. Share with participants the types of data PHMSA collects and uses for inspection planning, rulemaking, and other activities.
2. Determine how stakeholders—including industry and the public—use the data.
3. Identify what data is not used by any stakeholders.
4. Identify data not currently collected that, if shared with PHMSA and other stakeholders, could improve safety.
5. Determine how industry and PHMSA measure performance and how these performance measures can be improved.

6. Identify opportunities to enhance the data PHMSA displays on its website.

7. Identify key performance indicators that could be used within a PSMS.

All presentations made during the meeting will be available on the registration page after the meeting.

Public Participation: The meeting will be open to the public. Members of the public who wish to attend must register on the meeting website, including their names and organizational affiliation. PHMSA is committed to providing all participants with equal access to these meetings. If you need disability accommodations, please contact Janice Morgan by email at janice.morgan@dot.gov.

PHMSA is not always able to publish a notice in the **Federal Register** quickly enough to provide timely notification of last-minute changes that impact scheduled meetings. Therefore, individuals should check the meeting registration page, “2025 Pipeline Data Public Meeting”—PHMSA Public Meetings, for any possible changes.

Issued in Washington, DC, on July 30, 2025, under authority delegated in 49 CFR 1.97.

Linda Daugherty,

Acting Associate Administrator for Pipeline Safety.

SUPPLEMENTARY INFORMATION:

Alcohol and Tobacco Tax and Trade Bureau (TTB)

1. *Title:* Bond for Drawback Under 26 U.S.C. 5111.

OMB Control Number: 1513–0116.

TTB Form Number: TTB F 5154.3.

Abstract: The IRC authorizes drawback (refund) of all but \$1.00 per gallon of the Federal excise tax paid on distilled spirits subsequently used in the manufacture of certain nonbeverage products such as medicines, food products, flavors, and perfumes. Manufacturers making such products must file claims proving their eligibility for drawback, and respondents may file such claims either on a monthly or a quarterly basis. The IRC also authorizes the Secretary to require persons filing monthly nonbeverage product drawback claims to provide a bond. See 26 U.S.C. 5111–5114. The TTB regulations in 27 CFR parts 17 and 26 require monthly nonbeverage drawback claimants to file such a bond using form TTB F 5154.3. The required bond ensures repayment of paid claims later found to be ineligible for nonbeverage drawback in cases when the claimant is unable to repay the taxes due.

Current Actions: There are no program changes or adjustments associated with this information collection, and TTB is submitting it for extension purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses or other for-profits.

Estimated Number of Respondents: 10.

Estimated Average Responses per Respondent: 1 (one).

Estimated Number of Responses: 10.

Estimated Average per Response Burden: 24 minutes.

Estimated Total Burden: 4 hours.
