Notice of Inventory Completion: The University of Kansas, Lawrence, KS

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the University of Kansas has completed an inventory of human remains and has determined that there is a cultural affiliation between the human remains and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the human remains in this notice may occur on or after September 17, 2025.

ADDRESSES: Send written requests for repatriation of the human remains in this notice to Dr. Thomas Torma, Repatriation Program Manager, The University of Kansas, Office of Audit, Risk, and Compliance, 1450 Jayhawk Boulevard, 351 Strong Hall, Lawrence, KS 66045, email t-torma@ku.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the University of Kansas, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Human remains representing at least nine individuals have been identified. No associated funerary objects are present. These individuals were excavated from the Woodruff Ossuary Site (14PH4) located in Phillips County, Kansas. This site was excavated in 1946 by Marvin Kivett as part of the River Basin Surveys by the Smithsonian Institute in preparation for the development of Harlan County Reservoir in Nebraska. The donor and exact date of acquisition by the University of Kansas are unknown. Based on records, this site is affiliated with the Keith Phase of the Late Woodland with a single radiocarbon date of 694 ± 240 CE. There is no record of toxic substances having been used to treat these remains.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains described in this notice.

Determinations

The University of Kansas has determined that:

- The human remains described in this notice represent the physical remains of nine individuals of Native American ancestry.
- There is a connection between the human remains described in this notice and the Cheyenne River Sioux Tribe of the Cheyenne River Reservation, South Dakota; Kaw Nation, Oklahoma; and the Pawnee Nation of Oklahoma.

Abstract of Information Available

Human remains representing, at least, 21 individuals have been identified from three separate sites in Kansas. The three associated funerary objects include three lots of artifacts.

An unnamed site (14BO20) is located in Bourbon County, Kansas. Human remains representing, at least, one individual has been identified. The one associated funerary object is one lot of artifacts. This site was excavated in 1968 as part of surveys in preparation for the development of Fort Scott Reservoir by the Kansas City District of the United States Army Corps of Engineers.

The Kesl Site is located in Republic County, Kansas with no known trinomial. Human remains representing, at least, one individual has been identified. The one associated funerary object includes one lot of artifacts. This site was excavated in the 1920s on the property of J. Kesl by Floyd Schultz who donated his collection to the University of Kansas in 1948. Records do not correspond with any other known sites in the area described.

A site in an undescribed location is from Wyandotte County, Kansas. Human remains representing at least 19 individuals have been identified. The site was excavated in May 1973 on the property of Frank Calovich. Writing on the bag containing remains includes the name "P. Lin," who was a graduate student at the University of Kansas at the time of excavation.

In addition, one lot of artifacts associated with human remains that were previously listed in a Notice of Inventory Completion published in the

Federal Register on September 29, 2023 (88 FR 67351) have been identified. The one lot of associated funerary objects are artifacts. The items, which come from Cochran Mound (23PL86), was initially excavated in 1971 by staff and students of the Kansas Archaeological Field School, directed by Patricia J. O'Brien of Kansas State University (KSU). During their excavation, they noted previous looting of the mound. In 2024, the children of R. B. Aker donated additional items collected by their family to accompany collections which were donated to KU in 1988 and 2022.

There is no record of toxic substances being used to treat any of the items described in this notice.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

Determinations

The University of Kansas has determined that:

- The human remains described in this notice represent the physical remains of at least 21 individuals of Native American ancestry.
- The three objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary objects described in this notice and the Pawnee Nation of Oklahoma.
