

Abstract of Information Available

Based on the information available, human remains representing, at least, one individual have been reasonably identified. No associated funerary objects are present. In 1960, human remains representing a minimum of one individual were removed from an unspecified mound site on Richardson Bay, Marin County, CA. The remains were discovered in the home of a private citizen who had passed away in Dubuque, IA, and were transferred to the OSA BP in 2014. An older adult male is represented by an incomplete cranium (Burial Project 3083). The overall condition of the bone suggests antiquity and cranio-facial morphology is indicative of Native American ancestry. No hazardous substances are present.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location and acquisition history of the human remains described in this notice.

Determinations

The OSA BP has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- There is a reasonable connection between the human remains described in this notice and the Federated Indians of Graton Rancheria, California.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains in this notice to a requestor may occur on or after September 22, 2025. If competing requests for repatriation are received, the OSA BP must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The OSA BP is responsible for sending a copy of this

notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.
