

*FEMA Forms:* FEMA Form FF–206–FY–21–121, Ask the Advocate Web Form.

*Abstract:* OFIA advocates for the fair treatment of NFIP policyholders and property owners by providing education and guidance, identify trends that affect the public, and making recommendations for NFIP program improvements. OFIA uses the Ask the Advocate Web Form as an electronic intake instrument to gather the required data for each case.

*Affected Public:* Individuals or Households; Businesses or other For-Profit.

*Estimated Number of Respondents:* 1,000.

*Estimated Number of Responses:* 1,000.

*Estimated Total Annual Burden Hours:* 83.

*Estimated Total Annual Respondent Cost:* \$3,931.

*Estimated Respondents' Operation and Maintenance Costs:* \$0.

*Estimated Respondents' Capital and Start-Up Costs:* \$0.

*Estimated Total Annual Cost to the Federal Government:* \$39,631.

## Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the Agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**Russell R. Bard,**

*Acting Senior Director for Information Management, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.*

## DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA–2025–0007]

### Request for Comment on 2025 Minimum Elements for a Software Bill of Materials

**AGENCY:** Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

**ACTION:** Request for Information (RFI).

**SUMMARY:** The Cybersecurity and Infrastructure Security Agency (CISA) announces the publication and request for public comment on draft guidance entitled, “2025 Minimum Elements for a Software Bill of Materials (SBOM)” (2025 CISA SBOM Minimum Elements), which updates the elements of an SBOM to reflect improvements in SBOM tooling and increased maturity of SBOM implementation. CISA requests input on the clarifications and enhancements in the proposed voluntary guidance.

**DATES:** Comments are encouraged and will be accepted until October 3, 2025. Submissions received after the deadline for receiving comments may not be considered.

**ADDRESSES:** You may submit comments, identified by docket number CISA–2025–0007, by following the instructions below for submitting comments via the Federal eRulemaking Portal at <http://www.regulations.gov>.

*Instructions:* All comments received must include the agency name and docket number Docket # CISA–2025–0007. All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.

*Docket:* For access to the docket to read background documents or comments received, go to <http://www.regulations.gov>.

Commenters may access the 2025 CISA SBOM Minimum Elements on CISA's website at: <https://cisa.gov/resources-tools/resources/2025-minimum-elements-software-bill-materials-sbom>.

### SUPPLEMENTARY INFORMATION:

#### I. Public Participation

Interested persons are invited to comment on this notice by submitting written data, views, or arguments using the method identified in the **ADDRESSES** section. All members of the public, including, but not limited to, specialists

in the field, academic experts, industry, public interest groups, and those with relevant economic expertise, are invited to comment.

#### II. Background

An SBOM is a nested inventory, a list of ingredients that make up software components. The National Telecommunications and Information Administration (NTIA) published “Minimum Elements for a Software Bill of Materials (SBOM)” on July 12, 2021 (2021 NTIA SBOM Minimum Elements), as directed by Executive Order (E.O.) 14028. These minimum elements marked an important milestone for the NTIA's SBOM advancement efforts and established basic specifications for software producers and tool developers. This 2021 document was designed to establish a baseline of what the U.S. Government considered an SBOM to minimize variation in what was submitted.

In 2021, software producers and consumers alike were largely unfamiliar with SBOM. SBOM implementation practices were only just emerging and options for tools to create and manage SBOMs were limited. The 2021 NTIA SBOM Minimum Elements reflected the state of practice at the time. On September 14, 2022, the Office of Management and Budget issued memorandum M–22–18, “Enhancing the Security of the Software Supply Chain through Secure Software Development Practices,” which indicates that CISA would produce successor guidance to the 2021 NTIA SBOM Minimum Elements.

For instance, the SBOM tooling landscape has expanded beyond SBOM generation to include, among other capabilities, sharing, analyzing, and managing SBOMs. The SBOM community has also grown to include stakeholders from an even greater number of industries and sectors. Open source software communities have also been active in driving forward the development of machine-processable SBOM operations. Experts from across the software ecosystem identified new use cases and applications for SBOM data. Cybersecurity organizations around the world have issued their own guidance on SBOM. As a result of these developments, the overall maturity of SBOM implementation has grown significantly since 2021.

The 2025 CISA SBOM Minimum Elements reflect the expanded capabilities and functionalities of SBOM tooling, the increased maturity of SBOM implementation, and the value of software supply chain data. Although statutes, regulations, and binding

government-wide policies currently do not require that agencies obtain SBOMs from their software vendors; stakeholder experience with consuming and comparing data highlights the benefits of further clarity and more common and more precise specifications. By updating the 2021 NTIA SBOM Minimum Elements and adding new minimum elements, CISA aims to continue to promote SBOMs as a way to provide relevant and available data to software users to illuminate their software supply chains, better inform their risk management processes, and drive their software security decisions.

### III. List of Topics for Commenters

CISA seeks comments on the 2025 CISA SBOM Minimum Elements and the following topics:

(1) Should any elements be removed from the 2025 CISA SBOM Minimum Elements, meaning the element should not be required for all SBOMs? Which elements, and why?

(2) Should CISA include any additional elements in the 2025 CISA SBOM Minimum Elements, meaning the element should be a requirement for all SBOMs? Which elements, and why?

(3) Are the definitions and defined processes and practices in the 2025 CISA SBOM Minimum Elements, including new definitions, updated definitions, and the definitions carried over from the 2021 NTIA SBOM Minimum Elements, sufficiently clear to support automated creation and consumption? How can these definitions be improved?

(4) Are there specific contexts, technologies, or sectors where these proposed minimum elements are not feasible? Please provide as much detail as possible.

CISA also welcomes comments on other areas or approaches currently absent from the guidance.

This notice is issued under the authority of 6 U.S.C. 652(c)(10)–(11) and 6 U.S.C. 659(c)(7).

#### Christopher Butera,

*Acting Executive Assistant Director for Cybersecurity, Cybersecurity and Infrastructure Security Agency, Department of Homeland Security.*

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–7092–N 24; OMB Control No.: 2510–0006]

### 30-Day Notice of Proposed Information Collection: Legal Instructions Concerning Applications for Full Insurance Benefits—Assignment of Multifamily and Healthcare Mortgages to the Secretary

**AGENCY:** Office of Policy Development and Research, Chief Data Officer, HUD.

**ACTION:** Notice.

**SUMMARY:** HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comments from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 30 days of public comment.

**DATES:** *Comments Due Date:* September 22, 2025.

**ADDRESSES:** Interested persons are invited to submit comments regarding this proposal. Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

#### FOR FURTHER INFORMATION CONTACT:

Anna Guido, Clearance Officer, Paperwork Reduction Act Division, PRAD, Department of Housing and Urban Development, 451 7th Street SW, Room 8210, Washington, DC 20410; email at [Anna.P.Guido@hud.gov](mailto:Anna.P.Guido@hud.gov), telephone (202) 402–5535. This is not a toll-free number. HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, please visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Copies of available documents submitted to OMB may be obtained from Ms. Guido.

**SUPPLEMENTARY INFORMATION:** This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on April 29, 2025 at 90 FR 17830.

#### A. Overview of Information Collection

*Title of Information Collection:* Legal Instructions Concerning Applications for Full Insurance Benefits—Assignment of Multifamily and Healthcare Mortgages to the Secretary.

*OMB Approval Number:* 2510–0006.

*Type of Request:* Extension of a currently approved collection.

*Form Number:* HUD form 2510.

*Description of the need for the information and proposed use:* Mortgagees of FHA-insured mortgages may receive mortgage insurance benefits upon assignment of mortgages to the Secretary. In connection with the assignment, legal documents (*e.g.*, mortgage, mortgage note, security agreement, title insurance policy) must be submitted to HUD. The instructions contained in the Legal Instructions describe the documents to be submitted and the procedures for submission.

The Legal Instructions, in its current form and structure, can be found at <https://www.hud.gov/stat/ogc-legal-instructions-full-insurance-benefits>.

HUD proposes to revise this document with clarifying changes and updates to reflect current HUD requirements and policies, including requiring electronic submission for legal review, as well as current practices in real estate, title insurance, hazard insurance and mortgage financing transactions. Requiring electronic submission reflects the current practices and preferences of respondents. Since HUD began accepting electronic submission, HUD has not received any physical submissions from respondents.

In addition, sample documents reflecting existing HUD requirements and policies are being provided to assist with compliance with the Legal Instructions.
