

Project is at river mile 49.3 and the Gorge Project is at river mile 10.6) and that there was no post-1935 construction at either project.⁵ Commission staff's prior finding regarding navigability relied primarily on the lack of evidence of running logs above Winooski Falls. Vermont DEC requests that the Commission reexamine navigability of the Winooski River and look specifically at the river's use or suitability for commercial use. A stream's suitability for commercial use can be demonstrated based on its physical characteristics, as well as its actual use or suitability for use for recreational boating, if this information shows the river is suitable for the simpler types of commercial navigation.⁶

In response to Vermont DEC's requests, Commission staff is investigating the jurisdictional status of the Middlesex Hydroelectric Project (UL25-2-000) and the Gorge Hydroelectric Project (UL25-4-000). A copy of Vermont DEC's requests may be viewed on the Commission's website at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number, UL25-2-000 or UL25-4-000. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects.
