FEDERAL TRADE COMMISSION

16 CFR Part 310

RIN 3084–AA98

Telemarketing Sales Rule Fees

AGENCY: Federal Trade Commission.

ACTION: Final rule.

SUMMARY: The Federal Trade Commission (“Commission”) is amending its Telemarketing Sales Rule (“TSR”) by updating the fees charged to entities accessing the National Do Not Call Registry (“Registry”) as required by the Do-Not-Call Registry Fee Extension Act of 2007.

DATES: The revised fees will become effective October 1, 2024.

ADDRESSES: Copies of this document are available on the internet at the

Commission’s website: <https://www.ftc.gov>.

FOR FURTHER INFORMATION CONTACT: Ami Joy Dziekan, (202) 326–2648, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington, DC 20580.

SUPPLEMENTARY INFORMATION: To comply with the Do-Not-Call Registry Fee Extension Act of 2007 (Pub. L. 110–188, 122 Stat. 635, codified at 15 U.S.C. 6152) (“Act”), the Commission is amending the TSR, which is contained in 16 CFR part 310, by updating the fees entities are charged for accessing the Registry. Specifically, the revised rule increases (1) the annual fee for access to the Registry for each area code of data from \$80 to \$82 per area code, and (2) the maximum amount that will be charged to any single entity for accessing area codes of data from \$22,038 to \$22,626. Entities may add area codes during the second six months of their annual subscription period, and the fee for those additional area codes increases from \$40 to \$41.

These increases are in accordance with the Act, which specifies that beginning after fiscal year 2009, the dollar amounts charged shall be increased by an amount equal to the amounts specified in the Act, multiplied by the percentage (if any) by which the

average of the monthly consumer price index (for all urban consumers published by the Department of Labor) (“CPI”) for the most recently ended 12-month period ending on June 30 exceeds the CPI for the 12-month period ending June 30, 2008. The Act also states that any increase shall be rounded to the nearest dollar and that there shall be no increase in the dollar amounts if the change in the CPI since the last fee increase is less than one percent. For fiscal year 2009, the Act specified that the original annual fee for access to the Registry for each area code of data was \$54 per area code, or \$27 per area code of data during the second six months of an entity’s annual subscription period, and that the maximum amount that would be charged to any single entity for accessing area codes of data would be \$14,850.

The determination of whether a fee change is required and the amount of the fee changes involves a two-step process. First, to determine whether a fee change is required, we measure the change in the CPI from the time of the previous increase in fees. There was an increase in the fees for fiscal year 2025. Accordingly, we calculated the change in the CPI since last year, and the increase was 2.7 percent. Because this change is over the one percent

threshold, the fees will change for fiscal year 2026.

Second, to determine how much the fees should increase this fiscal year, we use the calculation specified by the Act set forth above: the percentage change in the baseline CPI applied to the original fees for fiscal year 2009. The average value of the CPI for July 1, 2007, to June 30, 2008, was 211.702; the average value for July 1, 2024, to June 30, 2025, was 322.561, an increase of 52.37 percent. Applying the 52.37 percent increase to the base amount from fiscal year 2009, leads to a \$82 fee for access to a single area code of data for a full year for fiscal year 2026, an increase of \$2 from last year. The actual amount is \$82.28 but when rounded, pursuant to the Act, \$82 is the appropriate fee. The fee for accessing an additional area code for a half year increases by one dollar to \$41 (rounded from \$41.14. The maximum amount charged increases to \$22,626 (rounded from \$22,626.29).

Administrative Procedure Act; Regulatory Flexibility Act; Paperwork Reduction Act

Under the Administrative Procedure Act (5 U.S.C. 553(b)), an agency may waive the normal notice and comment requirements if it finds, for good cause, that they are impracticable, unnecessary, or contrary to the public interest. The fee adjustments set forth in this final rule are mandated by the Do-Not-Call Registry Fee Extension Act of 2007. Accordingly, the amendments to the TSR are merely technical in nature, making notice and comment unnecessary and contrary to the public interest. See 5 U.S.C. 553(b). For this reason, the requirements of the Regulatory Flexibility Act also do not apply. See 5 U.S.C. 603, 604.

Pursuant to the Paperwork Reduction Act, 44 U.S.C. 3501–3521, the Office of Management and Budget (“OMB”) approved the information collection requirements in the TSR and assigned the following existing OMB Control Number: 3084–0169. The amendments outlined in this final rule pertain only to the fee provision (§ 310.8) of the TSR and will not establish or alter any record keeping, reporting, or third-party disclosure requirements elsewhere in the TSR.

List of Subjects in 16 CFR Part 310

Advertising, Consumer protection, Reporting and recordkeeping requirements, Telephone, Trade practices.

Accordingly, the Federal Trade Commission amends part 310 of title 16 of the Code of Federal Regulations as follows:

PART 310—TELEMARKETING SALES RULE

■ 1. The authority citation for part 310 continues to read as follows:

Authority: 15 U.S.C. 6101–6108.

§ 310.8 [Amended]

■ 2. In § 310.8:

- a. Revise paragraph (c) by:
 - i. Removing “\$80” and adding “\$82” in its place; and
 - ii. Removing “\$22,038” and adding “\$22,626” in its place;
- b. Revise paragraph (d) by:
 - i. Removing “\$80” and adding “\$82” in its place; and
 - ii. Removing “\$40” and adding “\$41” in its place.

By direction of the Commission.

Joel Christie,

Acting Secretary.

International Traffic in Arms Regulations: U.S. Munitions List Targeted Revisions

AGENCY: Department of State.

ACTION: Final rule; interim final rule adopted with changes.

SUMMARY: The Department of State (the Department) amends the International Traffic in Arms Regulations (ITAR) to remove from the U.S. Munitions List (USML) items that no longer warrant inclusion, add to the USML items that warrant inclusion, and clarify certain entries. With these amendments, the Department also updates the interim final rule it published on January 17, 2025. In addition, the Department is adding a new license exemption for certain activities related to unmanned underwater vehicles described in the exemption.

DATES: As of August 27, 2025, amendatory instruction number three in the interim final rule published at 90 FR 5594 on January 17, 2025, is withdrawn.

Effective date: This rule is effective September 15, 2025.

FOR FURTHER INFORMATION CONTACT: Mr. Chris Weil, Office of Defense Trade Controls Policy, Department of State, email DDTCCustomerService@state.gov; SUBJECT: ITAR Amendment—RIN 1400–AF42.

SUPPLEMENTARY INFORMATION: The Department of State’s Directorate of Defense Trade Controls (DDTC) administers the ITAR (22 CFR parts 120 through 130) to, among other things, regulate the export, reexport, retransfer, and temporary import of defense articles and defense services described on the USML at ITAR § 121.1. Items not subject to the ITAR or to the exclusive licensing jurisdiction of any other department or agency of the U.S. Government are subject to the Export Administration Regulations (EAR; 15 CFR parts 730 through 774), which include the Commerce Control List (CCL) in Supplement No. 1 to part 774. The EAR is administered by the Bureau of Industry and Security (BIS), U.S. Department of Commerce. This rule does not modify the list of defense articles and defense services controlled for purposes of permanent import by the Attorney General, as enumerated on the U.S. Munitions Import List (USMIL) at 27 CFR 447.21.

Section 38 of the Arms Export Control Act (AECA; 22 U.S.C. 2778), the authority from which the ITAR is derived, requires periodic review to determine what articles and services, if any, no longer warrant designation on the USML at ITAR § 121.1. In maintaining the USML, DDTC’s Office of Defense Trade Controls Policy (DTCP) identifies articles and services for review for addition to or removal from the USML, or for clarification on how they are described on the USML, through a variety of methods, including public feedback and interagency consultations, commodity jurisdiction reviews, advisory opinions, and technology monitoring. The Department maintains the USML such that it comprises those defense articles or defense services that provide a critical military or intelligence advantage or, in the case of weapons, have an inherently military function. The Department, informed by consultations with its interagency partners, determined that the additional items this rule designates on the USML warrant ITAR control and those articles it removes from the USML no longer do. This rule also amends certain language that describes items on the USML to provide additional clarity to the regulatory text. Although it is not seeking public comment in this final rule, the Department nonetheless welcomes submissions from members of the public identifying specific descriptions of items that, in their view, the Department should consider revising, removing, or adding to the USML in future rulemaking. As members of the public are often
