BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 52-009; NRC-2025-0973]

Entergy Operations, Inc.; Grand Gulf Early Site Permit

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has issued an exemption in response to a May 2, 2025, request from Entergy Operations, Inc., to allow the submittal of a renewal application for ESP-002 no later than 45 days prior to the expiration of the existing permit and still place the permit in timely renewal under NRC regulations.

DATES: The exemption was issued on August 18, 2025.

ADDRESSES: Please refer to Docket ID NRC-2025-0973 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2025-0973. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301-415-1003; email: Bridget.Curran@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin ADAMS Public Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Jordan Glisan, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-415-3478, email: Jordan.Glisan@nrc.gov.

SUPPLEMENTARY INFORMATION: The text of the exemption is attached.

Dated: August 25, 2025.

For the Nuclear Regulatory Commission.

Jordan Glisan,

Project Manager, Licensing and Regulatory Infrastructure Branch, Division of New and Renewed Licenses, Office of Nuclear Reactor Regulation.

Attachment—Exemption

NUCLEAR REGULATORY COMMISSION

Docket No. 52-009; Entergy Operations, Inc.; Grand Gulf Early Site Permit; Exemption

I. Background

System Energy Resources Inc. (SERI), a subsidiary of the Entergy Corporation, is the holder of early site permit (ESP) ESP-002. Entergy Operations, Inc. (Entergy), also a subsidiary of Entergy Corporation, on behalf of SERI, is the requestor of this exemption. The ESP was issued for a site located approximately 25 miles south of the city of Vicksburg, Mississippi and adjacent to the existing Grand Gulf nuclear power station. The ESP approves the site for additional nuclear power plants, which may be modular and designed to operate collectively at no more than 8600 megawatts thermal, independent of a specific nuclear plant design or an application for a construction permit or combined license. The permit also provides, among other things, that the site is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (NRC, Commission) now or hereafter in effect. The Grand Gulf ESP became effective on April 5, 2007, and expires on April 5, 2027.

II. Request/Action

By letter dated May 2, 2025 (Agencywide Documents Access and Management System Accession No. ML25122A082), Entergy requested an exemption from 10 CFR 2.109, "Effect of timely renewal application," section (c), and 10 CFR 52.29, "Application for renewal," to allow the renewal application for ESP-002 to be submitted no later than 45 days prior to the expiration of the existing permit and still receive timely renewal protection under 10 CFR 2.109(c) and 10 CFR 52.29.

The regulation at 10 CFR 2.109(c) requires that the permit holder file a sufficient

application for renewal no less than 12 months before the expiration of the existing ESP. The regulation at 10 CFR 52.29 requires that the permit holder file a sufficient application for renewal no more than 36 months prior to the expiration of the permit in order to be in timely renewal. Specifically, 10 CFR 2.109(c) states "If the holder of an early site permit licensed under subpart A of Part 52 of this chapter files a sufficient application for renewal under § 52.29 of this chapter at least 12 months before the expiration of the existing early site permit, the existing permit will not be deemed to have expired until the application has been finally determined." Additionally, 10 CFR 52.29(a) states, "Not less than 12, nor more than 36 months before the expiration date stated in the early site permit, or any later renewal period, the permit holder may apply for a renewal of the permit." Lastly, 10 CFR 52.29(c) states, "An early site permit, either original or renewed, for which a timely application for renewal has been filed, remains in effect until the Commission has determined whether to renew the permit."

III. Discussion

Exemptions from the requirements of Part 52 are governed by 10 CFR 52.7, which states that an exemption under that Part must meet the exemption requirements in 10 CFR 50.12. Pursuant to 10 CFR 50.12, the Commission may, upon application by any interested person or upon its own initiative, grant exemptions from the requirements of 10 CFR part 52 when (1) the exemptions are authorized by law, will not present an undue risk to public health or safety, and are consistent with the common defense and security; and (2) special circumstances are present, as defined in 10 CFR 50.12(a)(2). In its application, Entergy stated that two special circumstances apply to its request. The two special circumstances that Entergy included in its request are:

(1) Application of the regulation would not serve the underlying purpose of the rule or is not necessary to achieve the underlying purpose of the rule.

(2) There is present any other material circumstance not considered when the regulation was adopted for which it would be in the public interest to grant an exemption.

A. The Exemption Is Authorized by Law

This exemption would allow Entergy to submit a sufficient renewal application for ESP-002 no later than 45 days prior to the expiration of its existing permit and the permit would still be in timely renewal under 10 CFR 2.109(c) and 10 CFR 52.29. The Administrative Procedure Act (APA), 5 U.S.C. 558(c), states:

When the licensee has made timely and sufficient application for a renewal or a new license in accordance with agency rules, a license with reference to an activity of a continuing nature does not expire until the application has been finally determined by the agency.

The APA does not require a specific time period within which an application for a renewal must be filed; the 12-month time period specified in 10 CFR 2.109(c) and 10 CFR 52.29 is specific to NRC regulations,

pursuant to the Atomic Energy Act of 1954 (AEA). Because the regulation at 10 CFR 52.7 allows the NRC to grant exemptions from its regulations and because the APA does not require a specific time period for timely renewal of the ESP, the NRC has determined that granting this exemption will not result in a violation of the AEA or the APA. Therefore, the exemption is authorized by law.

B. The Exemption Presents No Undue Risk to Public Health and Safety

The requested exemption to allow a 45-day time period, rather than the 12 months specified in 10 CFR 2.109(c) and 10 CFR 52.29(a), for Entergy to submit a sufficient renewal application and place the permit in timely renewal is a scheduling change. The action does not change the manner in which the permit maintains public health and safety because no additional changes are made as a result of the action. The NRC finds that a period of 45 days provides sufficient time for the NRC to begin to perform an acceptance review, and that review time beyond the expiration date of the permit does not pose an undue risk to public health and safety due to a lack of activity at the site. Based on the above, the NRC finds that the action does not cause undue risk to public health and safety.

C. The Exemption Is Consistent With the Common Defense and Security

The requested exemption to allow a 45-day time period, rather than the 12 months specified in 10 CFR 2.109(c) and 10 CFR 52.29, for Entergy to submit a sufficient renewal application and place the permit in timely renewal is a scheduling change. This exemption would not change the permit and therefore would not impact the security of the site. Therefore, the NRC finds that the action is consistent with the common defense and security because the scheduling change would have no impact on site security.

D. Special Circumstances

The purpose of 10 CFR 2.109(c), as it is applied to nuclear power reactors licensed by the NRC, is to implement the “timely renewal” provision of Section 9(b) of the APA, 5 U.S.C. 558(c), which states:

When the licensee has made timely and sufficient application for a renewal or a new license in accordance with agency rules, a license with reference to an activity of a continuing nature does not expire until the application has been finally determined by the agency.

The underlying purpose of this “timely renewal” provision in the APA is to protect a licensee who is engaged in an ongoing licensed activity and who has complied with agency rules in applying for a renewed or new license from facing license expiration as the result of delays in the administrative process.¹

Application of the 12-month period in 10 CFR 2.109(c) and 10 CFR 52.29 is not necessary to achieve the underlying purpose of the timely renewal provision in the regulation if Entergy files a sufficient renewal

application no later than 45 days prior to expiration of the permit. The NRC acknowledges that receipt of a renewal application for ESP-002 would result in an NRC review that would take place beyond the expiration date of the ESP. The NRC staff has determined this will not pose any issues to public health and safety or common defense and security or cause an undue hardship in the regulatory processes surrounding the ESP as a result of the additional time that the ESP is active because no construction or operation activities are taking place on site. Therefore, the NRC finds that the special circumstance requirement in 10 CFR 50.12(a)(2)(ii) has been met here.

E. Environmental Considerations

The NRC has determined that the issuance of the requested exemption meets the provisions of categorical exclusion specified in 10 CFR 51.22(c)(25). Under 10 CFR 51.22(c)(25), the granting of an exemption from the requirements of any regulation in Chapter 10 of the Code of Federal Regulations qualifies as a categorical exclusion if (i) there is no significant hazards consideration; (ii) there is no significant change in the types or significant increase in the amounts of any effluents that may be released offsite; (iii) there is no significant increase in individual or cumulative public or occupational radiation exposure; (iv) there is no significant construction impact; (v) there is no significant increase in the potential for or consequences from radiological accidents; and (vi) the requirements from which an exemption is sought involves one of several matters, which includes scheduling requirements under 10 CFR 51.22(c)(25)(vi)(G). The basis for NRC's determination is provided below.

Requirements in 10 CFR 51.22(c)(25)(i)

The regulation at 10 CFR 51.22(c)(25)(i) requires an exemption to involve a no significant hazards consideration if it is to qualify for a categorical exclusion. The criteria for making a no significant hazards consideration determination are found in 10 CFR 50.92(c). Because there is no existing operating nuclear facility associated with ESP-002, and the exemption only affects the timeframe for submitting the ESP-002 renewal application, the exemption would not involve changes to accident analyses source term parameters, the possibility for new or different kinds of accidents, or associated margins of safety. Therefore, the NRC has determined that the granting of this exemption request involves no significant hazards consideration because allowing the submittal of the ESP renewal application less than 12 months before expiration of the existing permit while maintaining the protection of the timely renewal provision in 10 CFR 2.109(c) does not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. Therefore, the requirements of 10 CFR 51.22(c)(25)(i) are met.

Requirements in 10 CFR 51.22(c)(25)(ii) and (iii)

The regulation at 10 CFR 51.22(c)(25)(ii) requires the exemption to involve no significant change in the types or significant increase in the amounts of any effluents that may be released offsite. In addition, the regulation at 10 CFR 51.22(c)(25)(iii) requires the exemption to involve no significant increase in individual or cumulative public or occupational radiation exposure. The requested exemption constitutes a change to the schedule by which Entergy must submit its ESP renewal application while still maintaining timely renewal, which is administrative in nature. Therefore, the exemption does not involve any change in the types or significant increase in the amounts of effluents that may be released offsite and also does not contribute to any significant increase in individual or cumulative public or occupational radiation exposure. Therefore, the requirements of 10 CFR 51.22(c)(25)(ii) and (iii) are met.

Requirements in 10 CFR 51.22(c)(25)(iv)

The regulation at 10 CFR 51.22(c)(25)(iv) requires the exemption to involve no significant construction impact. The requested exemption is not associated with construction, and the exemption does not propose any changes or alterations to the site. Therefore, the requirements of 10 CFR 51.22(c)(25)(iv) are met because there is no significant construction impact.

Requirements in 10 CFR 51.22(c)(25)(v)

The regulation at 10 CFR 51.22(c)(25)(v) requires the exemption to involve no significant increase in the potential for or consequences from radiological accidents. The requested exemption constitutes a change to the schedule by which Entergy must submit its ESP renewal application while still maintaining timely renewal. This exemption is administrative in nature and does not impact the probability or consequences of accidents. Thus, there is no significant increase in the potential for, or consequences of, a radiological accident. Therefore, the requirements of 10 CFR 51.22(c)(25)(v) are met.

Requirements in 10 CFR 51.22(c)(25)(vi)

The regulations at 10 CFR 51.22(c)(25)(vi)(A–I) list the specific types of requirements from which an exemption may be sought. These include 10 CFR 51.22(c)(25)(vi)(G), which involves scheduling requirements. This exemption, which allows Entergy to submit the ESP renewal application no later than 45 days prior to expiration of the permit, involves scheduling requirements. Therefore, the requirement in 10 CFR 51.22(c)(25)(vi)(G) is met.

Based on the above, the NRC concludes that the proposed exemption meets the eligibility criteria for a categorical exclusion set forth in 10 CFR 51.22(c)(25). Therefore, pursuant to 10 CFR 51.22(b), no environmental assessment or environmental impact statement need be prepared in connection with the approval of this exemption request.

¹ *Kay v. FCC*, 525 F.3d 1277 (D.C. Cir. 2008) (citing *Miami MDS Co. v. FCC*, 14 F.3d 658, 659–60 (D.C. Cir. 1994)).

IV. Conclusions

Accordingly, the NRC has determined that, pursuant to 10 CFR 50.12 and 10 CFR 52.7, the requested exemption is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security. Additionally, special circumstances, as defined in 10 CFR 50.12(a)(2), are present. Therefore, the NRC hereby grants Entergy a one-time exemption from 10 CFR 2.109(c) and 10 CFR 52.29 for the Grand Gulf Early Site Permit ESP-002 to allow the submittal of the Grand Gulf Early Site Permit ESP-002 renewal application no later than 45 days prior to expiration of the permit while still receiving the protections of timely renewal.

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 18th day of August 2025.

For the Nuclear Regulatory Commission.

OFFICE OF PERSONNEL MANAGEMENT

Submission for Review: 3206-0230, Life Insurance Election, Standard Form (SF) 2817

AGENCY: Office of Personnel
Management.

ACTION: 60-Day notice and request for
comments.

SUMMARY: Federal Employee Insurance
Operations (FEIO), Healthcare &
Insurance (HI), Office of Personnel
Management (OPM) offers the general
public and other Federal agencies the
opportunity to comment on the
reinstatement of an expired information
collection SF 2817—Life Insurance
Election.

DATES: Comments are encouraged and
will be accepted until October 27, 2025.

ADDRESSES: You may submit comments
using the Federal Rulemaking Portal:
<http://www.regulations.gov>. Follow the
instructions for submitting comments.

All submissions received must
include the OMB Control Number or
title for this document. The general
policy for comments and other
submissions from members of the public
is to make these submissions available
for public viewing at <http://www.regulations.gov> as they are
received without change, including any
personal identifiers or contact
information.

FOR FURTHER INFORMATION CONTACT: A
copy of this information collection

request with applicable supporting
documentation may be obtained by
contacting the Retirement Services
Publications Team, Office of Personnel
Management, 1900 E Street NW, Room
3316-BD, Washington, DC 20415,
Attention: Cyrus S. Benson, or via
electronic mail to
RSPublicationsTeam@opm.gov, by fax
at (202) 606-1995, or telephone at (202)
936-0401.

SUPPLEMENTARY INFORMATION: As
required by the Paperwork Reduction
Act of 1995 (44 U.S.C. chapter 35), OPM
is soliciting comments for this
collection (OMB No. 3206-0230). OPM
is particularly interested in comments
that:

1. Evaluate whether the proposed
collection of information is necessary
for the proper performance of functions
of the agency, including whether the
information will have practical utility;
2. Evaluate the accuracy of the
agency's estimate of the burden of the
proposed collection of information,
including the validity of the
methodology and assumptions used;
3. Enhance the quality, utility, and
clarity of the information to be
collected; and
4. Minimize the burden of the
collection of information on those who
are to respond, including through the
use of appropriate automated,
electronic, mechanical, or other
technological collection techniques or
other forms of information technology,
e.g., permitting electronic submissions
of responses.

Standard Form 2817 is used by
employees and federal assignees (those
who have acquired control of an
employee/annuitant's coverage through
an assignment or "transfer" of the
ownership of the life insurance) to elect
or make changes to a life insurance
election under the Federal Employees'
Group Life Insurance (FEGLI) Program.
Clearance of this form as used by active
employees is not required according to
the Paperwork Reduction Act.
Therefore, only the use of this form by
assignees, *i.e.* members of the public, is
subject to the Paperwork Reduction Act.

AGENCY: Securities and Exchange
Commission ("Commission" or "SEC").

ACTION: Notice.

Notice of an application under
Section 6(c) of the Investment Company
Act of 1940 ("Act") for an exemption
from Sections 18(a)(2), 18(c), 18(i), and
61(a) of the Act.

Summary of Application: Applicants
request an order to permit certain
registered closed-end investment
companies that intend to elect to be
regulated as business development
companies to issue multiple classes of
shares with varying sales loads and
asset-based distribution and/or service
fees.

Applicants: Third Point Private Capital
LLC and Third Point Private Capital
Partners

Filing Dates: The application was filed
on June 4, 2025.

Hearing or Notification of Hearing: An
order granting the requested relief will
be issued unless the Commission orders
a hearing. Interested persons may
request a hearing on any application by
emailing the SEC's Secretary at
Secretarys-Office@sec.gov and serving
the Applicants with a copy of the
request by email, if an email address is
listed for the relevant Applicant below,
or personally or by mail, if a physical
address is listed for the relevant
Applicant below. Hearing requests
should be received by the Commission
by 5:30 p.m. on September 19, 2025,
and should be accompanied by proof of
service on applicants, in the form of an
affidavit or, for lawyers, a certificate of
service. Pursuant to rule 0-5 under the
Act, hearing requests should state the
nature of the writer's interest, any facts
bearing upon the desirability of a
hearing on the matter, the reason for the
request, and the issues contested.
Persons who wish to be notified of a
hearing may request notification by
emailing the Commission's Secretary at
Secretarys-Office@sec.gov.
