This notice allows for an additional 30 days for public comments. **Abstract:** In accordance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this information collection request documents the PRA burden for the labeling requirements for certain minimum risk pesticide products exempt from Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) registration under 40 CFR 152.25(f). These requirements were updated in the final rule entitled: Pesticides; Revisions to Minimum Risk Exemption (80 FR 80653, December 28, 2015). Under 40 CFR 152.25(f), EPA has exempted from the requirement of FIFRA registration certain pesticide products if they are composed of specified ingredients and labeled accordingly. EPA created the exemption for minimum risk pesticides to eliminate the need for industry or business to expend significant resources to apply for and maintain regulated products that are deemed to be of minimum risk to human health and the environment. In addition, exempting such products freed Agency resources to focus on evaluating formulations whose toxicity was less well characterized, or was of higher toxicity. The labeling requirements are the key component of the minimum risk exemption since this is the only information that enforcement authorities have to assess whether or not the product meets the exemption requirements. While EPA does not

review these products, and therefore a Federal label review is not conducted, to maintain exemption status, an exempt product's label must meet certain criteria.

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

*Form number(s):* None.

*Respondents/affected entities:* Entities potentially affected by this ICR include engaged in activities related to the registration of pesticide products including manufacturers, distributors, retailers, and users of minimum risk pesticides.

*Respondent's obligation to respond:* Required to obtain or retain a benefit (FIFRA sections 3 and 25; 40 CFR 152.25(f)).

*Estimated number of respondents:* 234 (total).

*Frequency of response:* Once.

*Total estimated burden:* 752 hours (per year). Burden is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$109,361 (per year), which includes \$0 annualized capital or operation & maintenance costs.

*Changes in the estimates:* There is an increase of 273 annual hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to EPA's estimation of new products entering the market, which has increased from 87 to 137 per year, and updated wage rates. These changes are an adjustment.
