#### Overview of This Information Collection

*Title:* e-Allegations Submission.

*OMB Number:* 1651–0131.

*Form Number:* N/A.

*Current Actions:* Extension without change.

*Type of Review:* Extension without change.

*Affected Public:* Businesses.

*Abstract:* The information collected through the EAPA allegation submissions portal, the Case Management System (CMS) (also known as the EAPA portal), includes the following: filer category, name of individual filing the allegation and their contact information, the name and address of the company they represent, and their interested party designation; information related to the alleged evasion scheme, including type of products, type of scheme and antidumping (AD)/countervailing duty (CVD) Order information; the name and address of the company engaging in the alleged evasion scheme; and various certifications regarding the truthfulness of the allegation and how notifications about how the information will be used during the investigation. Additionally, CBP requests information to include alleged and violating importer email and phone number, optional representing attorney contact information, and the type of violation and the corresponding details. Interested parties will upload documents with the appropriate confidentiality status (*e.g.*, business confidential (BC) version, public version, or public document).

New users will need to create an account with their name and email address before accessing the EAPA portal, filing allegations, uploading documents for cases to which they are assigned to participate, and communicating with EAPA staff.

*Previously Approved Revisions:* Collection of information for an EAPA investigation is authorized by the Tariff Act of 1930, as amended (19 U.S.C. 1517), Section 421 of the TFTEA (Pub. L. 114–125, Feb. 24, 2016), and 19 CFR 165. The EAPA portal is accessed through the e-Allegations website at: <https://eallegations.cbp.gov/Home/Index2>.

The EAPA Allegation form has been modified from the original version to provide clarifying information which validates that the allegation qualifies as an EAPA allegation. Additions to the form include alleged name and phone number and the alleged violating importer's email and phone number, the contact information for the representing attorney contact information which was an optional data element, and a requirement to select the type of violation and provide the corresponding details. The updated form also requires users to upload at least one document to the allegation submission and select a document category in addition to the existing classification for confidentiality status. Users will have the option to select additional categories including document date and if a document has been served after upload. Harmonized Tariff Schedule product categories and questions that would make an allegation non-qualifying for an EAPA allegation have been removed and replaced by system validations or additional instructions.

In July 2023, the U.S. Court of Appeals for the Federal Circuit mandated that CBP implement a mechanism called an Administrative Protective Order (APO), providing authorized representatives of parties to the investigation access business confidential (BC) information on the administrative record in EAPA investigations, administrative reviews, and court remands subject to the APO.

To comply with court's mandate, CBP collects additional information related to the new APO process that grants authorized persons access to BC information in an EAPA investigation, administrative review, or court remand.

Specifically, U.S.-licensed attorneys, or other individuals and personnel employed and/or retained by and working under the direction and supervision of a U.S.-licensed attorney, need to provide the following additional information, not previously collected:

(1) a written request to view BC information;

(2) the names of all individuals, U.S.-licensed attorneys, and personnel and other individuals working under the direct control of U.S.-licensed attorneys, who will have access to the BC information;

(3) the bar license number(s) and relevant United States jurisdiction(s) for the responsible U.S.-licensed attorneys who access or who oversee personnel accessing the BC information;

(4) certifications that the individuals viewing the BC information do not, and will not, have any decision-making authority or official business

relationship with the party they are representing in the EAPA proceeding or competitors of the party submitting BC information;

(5) certifications agreeing to protect and not disclose any BC information to unauthorized persons;

(6) certifications to only use the BC information for the specific EAPA proceeding for which access is approved;

(7) certifications that the statements they are providing are true and accurate; and

(8) certifications that the authorized representatives have destroyed all BC information received under the APO within 45 business days after the final disposition of the EAPA proceeding, including any related judicial proceeding.

CBP published a Final Rule March 18th, 2024, establishing the APO implementation, formally announcing the EAPA Portal, and, as of the effective date of the Final Rule, allegeders, including Federal Agencies, can withdraw an allegation request for an investigation via the EAPA Portal.
