II. Background

The NRC’s mission is to protect public health and safety and advance the Nation’s common defense and security by enabling the safe and secure use and deployment of civilian nuclear energy technologies and radioactive materials through efficient and reliable licensing, oversight, and regulation for the benefit of society and the environment. The NRC is committed to reviewing all license applications in an effective and efficient manner and employing risk informed approaches to inform the scope of the NRC staff review.

Executive Order (E.O.) 14300, “Ordering the Reform of the Nuclear Regulatory Commission,” issued May 23, 2025, requires the NRC to reform and modernize its regulations to include a “deadline of no more than 18 months for final decision on an application to construct and operate a new reactor of any type, commencing with the first required step in the regulatory process.” The NRC will comply with the review timeline in the E.O.

The NRC staff conducted public meetings on December 12, 2024, and January 28, 2025, to receive comments, feedback, and ideas on how the NRC should implement the requirement in ADVANCE Act Section 207. In addition, the NRC staff conducted a meeting on March 4, 2025, to solicit feedback on its

approach for developing the draft RIS, “Combined License Review Performance and Reporting.” A summary of the public comments, feedback, and ideas received and considered in the development of the draft RIS may be found in ADAMS under Accession Nos. ML25033A001 (package), ML25041A145, and ML25066A073 (package), respectively.

III. Proposed Action

The NRC is requesting public comments on the draft RIS. All comments that are to receive consideration in the final RIS must be submitted electronically or in writing as indicated in the **ADDRESSES** section of this document. The NRC staff will make a final determination regarding issuance of the RIS after it considers any public comments received in response to this request.

IV. Executive Order 12866

The Office of Information and Regulatory Affairs determined that this draft RIS is not a significant regulatory action under E.O. 12866.
