BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 70

[EPA-R09-OAR-2025-0038; FRL-12574-01-R9]

Revisions to the Clean Air Act Operating Permit Program; California; San Diego County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing approval of revisions to the Clean Air Act (CAA or "Act") Operating Permit Program (title V) of the San Diego County Air Pollution Control District (SDCAPCD or "District") in California. Once approved, these revisions will update the District's public noticing requirements to conform to current federal requirements for title V programs. We are taking comments on these proposed revisions and are simultaneously publishing our final action approving these revisions in a direct final rule.

DATES: Written comments must be received on or before October 6, 2025.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R09-OAR-2025-0038 at <https://www.regulations.gov>. For comments submitted at *Regulations.gov*, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not

consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. If you need assistance in a language other than English or if you are a person with disabilities who needs a reasonable accommodation at no cost to you, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT:

Camille Cassar, EPA Region IX, 75 Hawthorne St., San Francisco, CA 94105; phone (415) 947-4164, email: cassar.camille@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document, "we," "us," and "our" refer to the EPA. This proposal addresses the following local rule: SDCAPCD Rule 1415, "Title V Operating Permits—Permit Process—Public Notification." In the Rules and Regulations section of this **Federal Register**, the EPA is approving the District's submission as a direct final rule without prior proposal because we view this as a noncontroversial action and anticipate no adverse comments. A detailed rationale for the action is set forth in the preamble to the direct final rule. If the EPA receives no adverse comments, the EPA contemplates no further action. If the EPA receives adverse comments, the EPA will withdraw the direct final rule and will address all public comments in a subsequent final rule based on this proposed rule. We do not plan to open a second comment period on this action, so anyone interested in commenting should do so at this time. Please note that if the EPA receives an adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, the EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule of the same title that is located in the Final Rules section of this **Federal Register**.

Table of Contents

- I. Title V Background
- II. What are the requirements for approval of revisions to Title V programs?
- III. What is the State's proposed Title V program revision?

I. Title V Background

The CAA Amendments of 1990 include title V, which requires states to develop an operating permits program that meets the Federal criteria codified in title 40 of the Code of Federal Regulations (CFR) part 70. The title V program requires certain sources of air pollution to obtain federal operating permits from their respective states. These federal operating permits improve enforcement and compliance by consolidating all applicable federal requirements into one federally enforceable document. Before a state can issue permits under 40 CFR part 70 (which are referred to as "title V permits"), the EPA must approve its programs as amendments to appendix A of 40 CFR part 70. States may submit revisions to their approved programs for EPA approval. See EPA's Technical Support Document (TSD) for a more detailed discussion of the history of the title V program approvals for SDCAPCD.

II. What are the requirements for approval of revisions to Title V programs?

Pursuant to 40 CFR 70.4(i), either the EPA or the state may initiate a title V program revision "when the relevant Federal or State statutes or regulations are modified or supplemented." It is the responsibility of the state to keep the EPA apprised of any proposed modifications to its basic statutory or regulatory authority or procedures. Additional details on the steps necessary to submit a title V program revision can be found in the TSD for this action.

III. What is the State's proposed Title V program revision?

Table 1 lists the rule submitted as part of the SDCAPCD's title V program revisions and the date that it was adopted by the District and submitted by the California Air Resources Board (CARB), which is the governor's designee for California rule submittals.

TABLE 1—SUBMITTED RULE

Rule No.	Rule title	Amended date	Submitted date ^b
1415	Title V Operating Permits—Permit Process—Public Notification	10/12/2023	1/19/2024

^b CARB transmitted the submittal to the EPA by a letter dated January 19, 2024.

The District submitted revisions to Rule 1415 (Title V Operating Permits—Permit Process—Public Notification) at sections (a), (c), (d), (g), and (j) to conform to current public noticing, application publication, and record retention requirements codified in 40 CFR 70.5(c), 70.7(h) and 40 CFR 70.6(a)(3)(ii)(B). Details regarding the revisions made including a change-copy of Rule 1415 can be found in the appropriate docket files.

Receipt of Pesticide Petitions Filed for Residues of Pesticide Chemicals in or on Various Commodities—June 2025

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of filing of petitions and request for comment.

SUMMARY: This document announces the Agency's receipt of and solicits public comment on initial filings of pesticide petitions requesting the establishment or modification of regulations for residues of pesticide chemicals in or on various commodities. The Agency is providing this notice in accordance with the Federal Food, Drug, and Cosmetic Act (FFDCA). EPA uses the month and year in the title to identify when the Agency compiled the petitions identified in this notice of filing. Unit II of this document identifies certain petitions received in 2023, 2024, and 2025 that are currently being evaluated by EPA, along with information about

each petition, including who submitted the petition and the requested action.

DATES: Comments must be received on or before October 6, 2025.

ADDRESSES: Submit your comments, identified by docket identification (ID) number and the pesticide petition (PP) of interest identified in Unit II. of this document, online at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Each application summary in Unit II. specifies a contact division. The appropriate division contacts are identified as follows:

- BPPD (Biopesticides and Pollution Prevention Division) (Mail Code 7511M); Shannon Borges; main telephone number: (202) 566-1400; email address: BPPDFRNotices@epa.gov.
- RD (Registration Division) (Mail Code 7505T); Charles Smith; main telephone number: (202) 566-1030; email address: RDFRNotices@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. Does this action apply to me?

This action provides information that is directed to the public in general.

B. What is the Agency's authority for taking this action?

EPA regulations for residues of pesticide chemicals in or on various food commodities are established under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a. FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), requires EPA to publish a notice of receipt of these petitions in the **Federal Register** and provide an opportunity for public comment on the requests.

C. What action is the Agency taking?

As specified in FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), EPA is

publishing notice of the receipt of pesticide petitions filed under FFDCA section 408 that request the establishment or modification of regulations for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the requests before responding to the petitioner. Pursuant to 40 CFR 180.7(f), a summary of the petition identified in this document, prepared by the petitioner, is included in a docket. EPA has determined that the pesticide petitions described in this document contain data or information prescribed in FFDCA section 408(d)(2), 21 U.S.C. 346a(d)(2), and 40 CFR 180.7(b); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting the pesticide petitions. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Based upon review of the data supporting these petitions and in accordance with its authority under FFDCA section 408(d)(4)(A)(i), EPA may establish a final tolerance or tolerance exemption that “may vary from that sought by the petitioner.” For example, EPA may determine that it is appropriate to vary the commodity name for consistency with EPA’s Food and Feed Commodity Vocabulary, which is located here <https://www.epa.gov/pesticide-tolerances/food-and-feed-commodity-vocabulary>, or vary the tolerance level based on available data, harmonization interests, or the trailing zeros policy. In addition, when evaluating a petition’s requests for a tolerance or exemption, EPA will consider how use of the pesticide on a crop for which a tolerance is requested may result in residues in or on commodities related to that requested commodity (e.g., whether use on sugar beets for which a tolerance was requested on sugar beet root also requires a tolerance on sugar beet tops or whether use on a cereal grain for which a grain tolerance was requested also requires a tolerance on related animal feed commodities derived from that cereal grain).
