Overview of This Information Collection

1. *Type of Information Collection:* Revision of a currently approved collection.

2. *Title of the Form/Collection:* Reporting and Recordkeeping for Digital Certificates

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* DEA Form 251. The applicable component within the Department of Justice is the Drug Enforcement Administration, Diversion Control Division.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:*

Affected public (Primary): Business or other for-profit.

Affected public (Other): None.

Abstract: DEA collects information about reporting and recordkeeping for digital certificates. The application for a digital certificate is required to ensure that the person applying for the certificate is either a DEA registrant or someone who has power of attorney from a DEA registrant to sign orders for Schedule I and II substances. The DEA Certification Authority uses the information to verify the person’s identity and eligibility to hold a DEA-issued digital certificate.

Under the proposed modifications of this collection, the collection will become online only and eliminate the need for paper forms. With the move to being online only, DEA is proposing to no longer have a notary requirement. Instead of the notary requirement, DEA is proposing to use www.login.gov as a part of the application. Last, the collection would only be one form (DEA Form 251) instead of four forms.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* DEA estimates that 86,262 registrants participate in this information collection. The time per response is 1 hour and 45 minutes for new applications and 15 minutes for renewals.

6. *An estimate of the total public burden (in hours) associated with the proposed collection:* DEA estimates that this collection takes 64,697 annual burden hours.

7. *An estimate of the total annual cost burden associated with the collection, if applicable:* \$0.
