### Overview of This Information Collection

1. *Type of Information Collection:* Revision of a previously approved collection.

2. *Title of the Form/Collection:* Explosives Transactions Involving Limited Permittees.

3. *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* ATF Form 5400.4 and 5400.30.

*Component:* Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Department of Justice.

4. *Affected public who will be asked or required to respond, as well as a brief*

*abstract:* Affected Public: Individuals or households, Private Sector-for or not for profit institutions.

*Abstract:* Specific requirements for licensees and permittees to distribute explosives materials in transactions involving limited permittees, and to report lost or stolen Intrastate Purchase of Explosives Coupons. This information collection is contained in 27 CFR 555.34, 555.105, and 555.125, and 555.126. Information Collection (IC) OMB 1140-0075 is being revised to streamline the collections involving explosives limited permittees. There previously were four collections (OMB control numbers 1140-0025, 1140-0075, 1140-0077, and 1140-0079), which have been combined, simplified, and updated to remove duplicative elements, and adjusted to reflect a regulatory change currently being finalized. These changes reduced the collective burden arising from these four ICRs. This ICR now includes three collection requirements: submitting an authorized persons list, completing the Form 5400.4, Limited Permittee Transaction Report (LPTR), and reporting lost or stolen ATF Form 5400.30s, Intrastate Purchase of Explosives Coupons (IPECs). Distributors and carriers no longer have to verify the identity of the person accepting explosives delivered by common carriers, and distributors can note the identification information they do collect directly on the LPTR, thereby reducing the burden. The LPTR has also been substantially revised to reflect the streamlined information collection requirements, decreasing the amount of time for record-keeping. In addition, the number of limited permittees has decreased significantly since the previous renewal periods for the original ICRs, from 100 respondents to 13, and the number of responses has also significantly decreased. The time burden for this combined ICR has therefore decreased, due both to streamlining the combined collections and to the decrease in respondents and responses, from 1 hour per respondent or 254 hours total per year, to 25 minutes per respondent or 9.75 hours total per year.

5. *Obligation to Respond:* To obtain or retain a benefit.

6. *Total Estimated Number of Respondents:* 13 respondents.

7. *Estimated Time per Respondent:* 0.75 hours.

8. *Frequency:* Twice annually.

9. *Total Estimated Annual Time Burden:* 9.75 hours

10. *Total Estimated Annual Other Costs Burden:* \$0.

*If additional information is required, contact:* Darwin Arceo, Department Clearance Officer, Enterprise Portfolio Management, Justice Management Division, United States Department of Justice, Two Constitution Square, 145 N Street NE, 4W-218 Washington, DC 20530.

*Abstract:* MCC is committed to providing public access to high-value data collected as part of the development, implementation, and evaluation of MCC-funded foreign assistance programs, while being equally committed to protecting the confidentiality of individuals and organizations from which the data is collected. To achieve these twin aims, MCC publishes de-identified public use files of microdata on its website through the MCC Evidence Platform. In addition, MCC makes restricted data files available in cases where the de-identification efforts for public use files would significantly impair the analytic potential of the data, or where the data contains highly sensitive information that cannot be shared as a public-use file. However, access to restricted data is only granted to users who meet eligibility criteria and agree to terms of access established by MCC, including agreeing to follow strict requirements for maintaining data confidentiality. The MCC Restricted Data Use Application collects information that is used by MCC and its data steward, the University of Michigan's Interagency Consortium for Political and Social Research (ICPSR), to evaluate whether respondents qualify for access to MCC's

restricted data. The application, which is submitted electronically, requires the provision of specific information by the respondent, such as (i) the name, contact information, and CV/Resume/Biosketch for each person that will access the restricted data, (ii) a research proposal describing the need for the data and how it will be used, (iii) evidence of Institutional Review Board approval or exemption of the research proposal, and (iv) a signed restricted data use agreement.

## NATIONAL CAPITAL PLANNING COMMISSION

### Notice of Public Comment Period for the Introduction Chapter Updates of the Comprehensive Plan for the National Capital: Federal Elements

**AGENCY:** National Capital Planning Commission.

**ACTION:** Notice of 30-day public comment period.

**SUMMARY:** The National Capital Planning Commission (NCPCC) has released a draft update to the Introduction Chapter of the Comprehensive Plan for the National Capital: Federal Elements for public review. The chapter establishes the planning framework for the Comprehensive Plan's Federal Elements to guide agency actions, including review of projects and long-range plans that affect federal buildings, installations, campuses, and master plans in the National Capital Region. The current Comprehensive Plan's Introduction Chapter was adopted in June 2024 and was updated in response to Executive Order (E.O.) 13985 (Advancing Racial Equity and Support for Underserved Communities Through the Federal Government). By way of E.O. 14148, E.O. 13985 was rescinded, and E.O. 14151 (Ending Radical and Wasteful Government DEI Programs and Preferencing) was signed. Together, these orders required federal agencies to undo or amend agency regulations and policies that were made in accordance with E.O. 13985 or which focused on a similar purpose, thereby necessitating revisions to the Introduction Chapter. The draft update reverts the Comprehensive Plan's Introduction
