

or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

- *NRC's Clearance Officer*: A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084 email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2025-0414, in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized as follows.

1. *The title of the information collection*: Nondiscrimination in Federally Assisted Programs or Activities Receiving Federal Financial Assistance from the Commission.
2. *OMB approval number*: 3150-0053.
3. *Type of submission*: Revision.
4. *The form number, if applicable*: NRC Forms 781 and 782.

5. *How often the collection is required or requested*: NRC Form 781, "SBCR Compliance Review Part A," is submitted upon initiation or modification of a program, during the pre-award and post-award stage,

periodic monitoring, and, if a complaint is being processed. NRC Form 782, "Complaint Form," is submitted on occasion, if any person believes himself or any specific class of individuals, have been subjected to discrimination prohibited by part 4 of title 10 of the *Code of Federal Regulations* (10 CFR), subpart A, "Regulations Implementing Title VI of the Civil Rights Act of 1964 and Title IV of the Energy Reorganization Act of 1974," on behalf of the primary funding recipient or any other recipient that received NRC Federal financial assistance through the primary funding recipient. Self-evaluations are performed throughout the duration of obligation based on 10 CFR 4.231, "Responsibility of applicants and recipients."

6. *Who will be required or asked to respond*: Recipients of Federal financial assistance provided by the NRC (including educational institutions, other nonprofit organizations receiving Federal assistance, and Agreement States).

7. *The estimated number of annual responses*: 502.

8. *The estimated number of annual respondents*: 200.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: 802. (102 hours for reporting, 650 hours for recordkeeping, and 50 hours for third-party disclosures.

10. *Abstract*: All recipients of Federal financial assistance from the NRC are subject to the provisions of 10 CFR part 4, "Nondiscrimination in Federally Assisted Programs or Activities Receiving Federal Financial Assistance from the Commission." Respondents must submit assurances of compliance with 10 CFR part 4 and a complete NRC Form 781, to demonstrate compliance with civil rights statutes and regulations, Executive Orders, White House education initiatives, and related provisions of the Energy Policy Act of 2005 for nondiscrimination with respect to race, color, national origin, sex, disability, or age. Respondents must also notify participants, beneficiaries, applicants, and employees of nondiscrimination practices and keep records of Federal financial assistance and of their own self-evaluations of policies and practices. In the event that discrimination is alleged in NRC-conducted and Federal financially assisted programs and activities, it may be reported using NRC Form 782.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.

2. Is the estimate of the burden of the information collection accurate? Please explain your answer.

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: September 5, 2025.

For the Nuclear Regulatory Commission.

David Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-461; NRC-2025-1039]

Constellation Energy Generation, LLC; Clinton Power Station, Unit 1; Exemption

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) staff has issued an exemption from the requirement in NRC regulations that would otherwise require the application for renewal of Facility Operating License No. NPF-62 for Clinton Power Station, Unit 1, to be referred to the Advisory Committee on Reactor Safeguards for a review and report, with any report being made part of the record of the application and made available to the public, except to the extent that security classification prevents disclosure.

DATES: The exemption was issued on August 29, 2025.

ADDRESSES: Please refer to Docket ID NRC-2025-1039 when contacting the NRC staff about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website*: Go to <https://www.regulations.gov> and search for Docket ID NRC-2025-1039. Address questions about Docket IDs in [Regulations.gov](https://www.regulations.gov) to Bridget Curran; telephone: 301-415-1003; email: Bridget.Curran@nrc.gov. For technical questions, contact the individual(s)

listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Public ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR*: The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

Vaughn Thomas, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-415-5897; email: Vaughn.Thomas@nrc.gov.

SUPPLEMENTARY INFORMATION: The text of the exemption is attached.

Dated: September 5, 2025.

For the Nuclear Regulatory Commission.

Vaughn Thomas,

Project Manager, License Renewal Projects Branch, Division of New and Renewed Licenses, Office of Nuclear Reactor Regulation.

Attachment—Exemption

NUCLEAR REGULATORY COMMISSION

Docket No. 50-461; Constellation Energy Generation, LLC; Clinton Power Station, Unit 1; Exemption

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an exemption from the requirement in Title 10 of the *Code of Federal Regulations* (10 CFR) Part 54.25, "Report of the Advisory Committee on Reactor Safeguards," that would otherwise require the application for renewal of Facility Operating License No. NPF-62 for Clinton Power Station (CPS), Unit 1, to be referred to the Advisory Committee on Reactor Safeguards (ACRS) for a review and report, with any report being made part of the record of the application and made available to the public, except to the extent that security classification prevents disclosure. The NRC, using the requirement in 10 CFR 54.15, "Specific exemptions," (invoking the process

in 10 CFR 50.12, Specific exemptions"), finds the criteria of 10 CFR 50.12 are met due to the special circumstance presented by Executive Order (E.O.) 14300 (90 FR 22587), "Ordering the Reform of the Nuclear Regulatory Commission," section 4(b) (stating that review by ACRS of permitting and licensing issues shall focus on issues that are truly novel or noteworthy).

I. Background

Constellation Energy Generation, LLC (CEG) is the holder of Facility Operating License No. NPF-62 for CPS, Unit No. 1. The license provides, among other things, that the licensee is subject to all rules, regulations, and orders of the Commission now or hereafter in effect. CPS, Unit 1 is a General Electric boiling water reactor with a Mark 3 containment licensed to operate at 3,473 megawatts thermal. CPS, Unit 1, is located near Clinton, Illinois.

On February 14, 2024, CEG submitted to the NRC an application for renewal of the CPS, Unit 1 Facility Operating License No. NPF-62, pursuant to 10 CFR part 54, "Requirements for Renewal of Operating Licenses for Nuclear Power Plants" requesting renewal for a period of 20 years beyond the current facility operating license expiration on April 17, 2027 (ML24045A026). A final decision on the application is expected on or about October 9, 2025.

Under 10 CFR 54.25, "[e]ach renewal application will be referred to the [ACRS] for a review and report. Any report will be made part of the record of the application and made available to the public, except to the extent that security classification prevents disclosure." The December 31, 1991 rulemaking that promulgated 10 CFR 54.25 (Nuclear Power Plant License Renewal, (56 FR 64943, 64966)) noted that review by the ACRS was desirable but such review was not required by statute.

On May 23, 2025, the President issued E.O. 14300 (90 FR 22587), "Ordering the Reform of the Nuclear Regulatory Commission," and section 4(b) of E.O. 14300 states that "[r]eview by ACRS of permitting and licensing issues shall focus on issues that are truly novel or noteworthy."

On August 29, 2025, the NRC staff issued a Safety Evaluation (SE) (ML25238A215) documenting the NRC staff's review of the application.

II. Action

In light of E.O. 14300, the status of the review of the license renewal application for CPS, Unit 1, and the fact that the NRC staff found no "truly novel or noteworthy" issues in the application that would benefit from ACRS review, the NRC staff determined that a staff-initiated exemption to 10 CFR 54.25 was warranted and should be granted. Pursuant to 10 CFR 54.15, exemptions from the requirements of 10 CFR part 54 may be granted by the Commission in accordance with 10 CFR 50.12. Per 10 CFR 50.12(a), "[t]he Commission may, upon application by any interested person or upon its own initiative, grant exemptions from the requirements of the regulations of this part," when certain conditions are met. Further, per

10 CFR 50.12(a)(2), the Commission will not consider granting an exemption unless special circumstances are present. Under 10 CFR 50.12(b)(vi), special circumstances are present whenever there is present any other material circumstance not considered when the regulation was adopted for which it would be in the public interest to grant an exemption, but if such condition is relied on exclusively for satisfying paragraph (a)(2), then the exemption may not be granted until the Executive Director for Operations has consulted with the Commission. The NRC staff has determined that those criteria are met and an exemption from 10 CFR 54.25 may be granted for the reasons explained below.

III. Discussion

As described in 10 CFR 1.13, the ACRS was established by the Atomic Energy Act of 1954 (AEA), as amended. Among other things, the ACRS reviews and reports on safety studies and applications for construction permits and facility operating licenses and reviews any generic issues or other matters referred to it by the Commission for advice.

Paragraph 10 CFR 54.25, as originally promulgated in 1991, requires that "[e]ach renewal application will be referred to the [ACRS] for a review and report. Any report will be made part of the record of the application and made available to the public, except to the extent that security classification prevents disclosure." The December 31, 1991 rulemaking notice explained (56 FR 64966) the background of the requirement thusly:

Section 182.b of the AEA states:

The ACRS shall review each application under section 103 or section 104b. for a construction permit or an operating license for a facility, any application under section 104c. for a construction permit or an operating license for a testing facility, any application under section 104a. or c. specifically referred to it by the Commission, and any application for an amendment to a construction permit or an amendment to an operating license under section 103 or 104a., b., or c. specifically referred to it by the Commission * * *

Section 182.b does not explicitly refer to applications for renewal of an operating license as requiring ACRS review. However, The Commission believes that review by the ACRS is desirable. Accordingly, § 54.25 of the final rule requires ACRS review of a license renewal application.

The Commission has not changed 10 CFR 54.25 since its initial issuance in 1991. Further, no subsequent amendments of the AEA have set forth a requirement for the ACRS to review an application for a renewed license.

10 CFR 54.15, states that "[e]xemptions from the requirements of this part may be granted by the Commission in accordance with 10 CFR 50.12." Pursuant to 10 CFR 50.12(a)(1), the Commission may, "upon application by any interested person or upon its own initiative, grant exemptions from the requirements of the regulations of this part, which are authorized by law, will not present an undue risk to the public health and safety,

and are consistent with the common defense and security.”

Exemptions Are Authorized by Law

For an exemption to be authorized by law the item to be exempted cannot be required by statute. The requirement in 10 CFR 54.25 is not required by the AEA, nor required by any other law. As noted by the Commission in 1991 (56 FR at 64,966), the AEA does not explicitly refer to applications for renewal of an operating license as requiring ACRS review. This remains true today. Accordingly, the NRC staff finds that the exemption is authorized by law.

Exemption Will Not Present an Undue Risk to the Public Health and Safety

The standards and criteria that must be met before the Commission issues a renewed license are not affected by an exemption to 10 CFR 54.25. After an exemption to 54.25, the regulation at 10 CFR 54.29 will continue to set forth the safety criteria that must be met before a renewed license may be issued by the Commission. The NRC staff, which has a robust process for reviewing applications for renewed licenses, has completed its detailed review of how the CPS, Unit 1, application addressed the standards of 10 CFR 54.29 (and other relevant regulations). The result of the safety review is documented in an August 29, 2025, SE report. The already-completed reviews by the NRC staff confirmed that the application did not contain anything “truly novel or noteworthy,” thereby assuring that an exemption from the 10 CFR 54.25 requirement to refer the application to ACRS will not present an undue risk to public health and safety.

Exemption Is Consistent With the Common Defense and Security

The NRC staff has determined that the exemption from ACRS review of the CPS license renewal application does not impact common defense and security in large part because the common defense and security are not within the scope of the license renewal review that is concerned with aging effects. When promulgating revisions to the license renewal rules (60 FR 22461, 22463–64) in 1995, the Commission re-affirmed its philosophy that the existing regulatory process is adequate to ensure that the licensing bases of all currently operating plants provides and maintains an acceptable level of safety so that operation will not be inimical to public health and safety or common defense and security. The exemption from ACRS review otherwise required by 10 CFR 54.25, does not alter any common defense or security matter or regulation. Thus, the exemption is consistent with common defense and security.

Special Circumstances Are Present

Pursuant to 10 CFR 50.12(a)(2), the Commission will not consider granting an exemption unless special circumstances are present. 10 CFR 50.12(a)(2)(vi) states that special circumstances are present when, “[t]here is present any other material circumstance not considered when the regulation was adopted for which it would be in the public interest to grant an exemption.

If such condition is relied on exclusively for satisfying paragraph (a)(2) of this section, the exemption may not be granted until the Executive Director for Operations has consulted with the Commission.”

The 2025 E.O. 14300 did not, of course, exist when 10 CFR 54.25 was promulgated in 1991. Thus E.O. 14300 was not, and could not, be considered when 10 CFR 54.25 was issued with a blanket requirement that renewal applications be referred to ACRS. Section 4(b) of E.O. 14300 states that the “[r]eview by ACRS of permitting and licensing issues shall focus on issues that are truly novel or noteworthy.” The NRC staff determined that there were no “truly novel or noteworthy” issues in the CPS, Unit 1, license renewal application. To make a determination that the CPS, Unit 1, application contained no novel or noteworthy issues, the NRC staff drew upon its demonstrated past experience with a total of 90 approved license renewal applications and 13 approved subsequent license renewal applications. When those past reviews identified novel or noteworthy issues (e.g., issues related to buried gray cast iron piping), the NRC staff took appropriate action. However, no such issues are present in the CPS, Unit 1, application. Accordingly, because the Commission did not specifically refer this application for ACRS review, there are no “truly novel or noteworthy” issues in the CPS, Unit 1, application. Furthermore, since E.O. 14300 was recently issued, the NRC staff finds that special circumstances are present pursuant to 10 CFR 50.12(a)(2). Thus, given that following E.O. 14300 is in the public interest, the E.O. represents the special circumstance under 10 CFR 50.12(a)(2)(vi) and an exemption from 54.25 is warranted. In fulfillment of 10 CFR 50.12(a)(2)(vi), the EDO consulted with the Commission.

Environmental Consideration

This exemption removes the requirement in 10 CFR 54.25 to refer the renewal application to the ACRS for a review and report, with any report being made part of the record of the application and made available to the public, except to the extent that security classification prevents disclosure. The NRC staff has determined that this exemption does not have an effect on the human environment and therefore, a categorical exclusion under 10 CFR 51.22 is appropriate.

Under 10 CFR 51.22(a), licensing, regulatory, and administrative actions eligible for categorical exclusion shall meet the following criterion, namely that “[t]he action belongs to a category of actions which the Commission, by rule or regulation, has declared to be a categorical exclusion, after first finding that the category of actions does not individually or cumulatively have a significant effect on the human environment.” Under 10 CFR 51.22(c)(25) categories of actions that are categorical exclusions include granting of an exemption from the requirements of any regulation of this 10 CFR Chapter I, provided that: (i) there is no significant hazards consideration; (ii) there is no significant change in the types or significant increase in the amounts of any

effluents that may be released offsite; (iii) there is no significant increase in individual or cumulative public or occupational radiation exposure; (iv) there is no significant construction impact; (v) there is no significant increase in the potential for or consequences from radiological accidents; and (vi) the requirements from which an exemption is sought involving an item listed in 10 CFR 51.22(c)(25)(vi)(A)–(I); 10 CFR 51.22(c)(25)(vi)(A), (B), and (I) are “recordkeeping requirements,” “reporting requirements,” or “other requirements of an administrative, managerial, or organizational nature,” respectively. As explained below, these criteria are satisfied.

An exemption involves no significant hazards consideration if, as provided in 10 CFR 50.92(c), operation of the facility in accordance with the proposed exemption would not: “(1) [i]nvolve a significant increase in the probability or consequences of an accident previously evaluated; or (2) [c]reate the possibility of a new or different kind of accident from any accident previously evaluated; or (3) [i]nvolve a significant reduction in a margin of safety.” This exemption has no bearing on the operation of the CPS and the NRC staff identified no “truly novel or noteworthy” issues for an ACRS review. Referring (or declining to refer) the application to the ACRS does not change any manner in which CPS would operate, and accordingly the factors above are met. The requirement in 10 CFR 54.25 for the application to be referred to the ACRS for review and report, with any report being made part of the record of the application, fit within 10 CFR 51.22(c)(25)(vi)(A), (B), and (I) in that they involve “recordkeeping requirements,” “reporting requirements,” and “other requirements of an administrative, managerial, or organizational nature.” Accordingly, an exemption from 10 CFR 54.25 meets the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(25). Pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the issuance of the exemption.

IV. Conclusions

Accordingly, the Commission has determined that, pursuant to 10 CFR 54.15 “Specific exemptions,” (stating that exemptions from the requirements of 10 CFR part 54 may be granted by the Commission in accordance with 10 CFR 50.12), an exemption from 10 CFR 54.25 requirement to send the CPS, Unit 1, license renewal application to the ACRS for review is granted. The standards of 10 CFR 50.12(a) are met in that the exemption from 10 CFR 54.25 is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security, and special circumstances are present, and the EDO has consulted with the Commission. Therefore, the renewal application is no longer required to be referred to the ACRS for a review and report.

The exemption is effective upon issuance.

Dated at Rockville, Maryland, this 29th day of August, 2025.

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* September 12, 2025.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <https://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202-789-6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. Public Proceeding(s)
- III. Summary Proceeding(s)

I. Introduction

Pursuant to 39 CFR 3041.405, the Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to Competitive negotiated service agreement(s). The request(s) may propose the addition of a negotiated service agreement from the Competitive product list or the modification of an existing product currently appearing on the Competitive product list.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any,

can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

Section II identifies the docket number(s) associated with each Postal Service request, if any, that will be reviewed in a public proceeding as defined by 39 CFR 3010.101(p), the title of each such request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each such request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 and 39 CFR 3000.114 (Public Representative). The Public Representative does not represent any individual person, entity or particular point of view, and, when Commission attorneys are appointed, no attorney-client relationship is established. Section II also establishes comment deadline(s) pertaining to each such request.

The Commission invites comments on whether the Postal Service's request(s) identified in Section II, if any, are consistent with the policies of title 39. Applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3041. Comment deadline(s) for each such request, if any, appear in Section II.

Section III identifies the docket number(s) associated with each Postal Service request, if any, to add a standardized distinct product to the Competitive product list or to amend a standardized distinct product, the title of each such request, the request's acceptance date, and the authority cited by the Postal Service for each request. Standardized distinct products are negotiated service agreements that are variations of one or more Competitive products, minimum rates, and classification criteria have undergone advance Commission review. See 39 CFR 3041.110(n); 39 CFR 3041.205(a). Such requests are reviewed in summary proceedings pursuant to 39 CFR 3041.325(c)(2) and 39 CFR 3041.505(f)(1). Pursuant to 39 CFR 3041.405(c)-(d), the Commission does not appoint a Public Representative or request public comment in proceedings to review such requests. The comment due date discussed above does not apply to Section III proceedings (Docket Nos. MC2025-1671 and K2025-1662;

¹ See Docket No. RM2018-3, Order Adopting Final Rules Relating to Non-Public Information, June 27, 2018, Attachment A at 19-22 (Order No. 4679).

MC2025-1672 and K2025-1663 and MC2025-1674 and K2025-1665).
