

increase compliance with and enforcement of export laws, and to provide paperless reports of export information. The AES also enables the U.S. Government to increase its ability to prevent the export of certain items by unauthorized parties to unauthorized destinations and end users through electronic filing.

In addition to the AES, CBP continues to develop the ability to receive advance export manifest data, which may improve the accuracy of transportation data elements in the EEI filing and reduce updates to shipment information. CBP has issued an NPRM for Rail Cargo and continues to work on air, truck, and ocean cargo. Operational guidance and implementation of each mode is still under development from CBP. The Census Bureau continues evaluating the collection of data from the electronic export rail and vessel manifest for filings received in the pilot program. The evaluation has proven that transportation data provided by the carrier is more accurate than transportation data estimated by the U.S. Principal Party in Interest and authorized agent. The Census Bureau's evaluation of the data quality from the electronic export rail manifest included the data elements: method of transportation, date of export, port of export, carrier identification and carrier name and foreign port of unloading.

Steel Mill Statistics

The Department of Commerce (DOC) has maintained authorization since 1999 to publish steel mill product import data prior to the standard monthly trade statistics publication. To effectively monitor steel imports, the International Trade Administration depends extensively on preliminary steel mill import statistics supplied by the Census Bureau. This early access enables industry stakeholders to detect emerging trends and potential trade pattern changes, facilitating timely responsive measures. Following the 2019 AES Program revisions, the Census Bureau no longer requires separate annual OMB approval for early release of preliminary steel mill import statistics, as this authorization is now incorporated within the current clearance.

The Foreign Trade Regulations (FTR), subpart F, establishes general requirements for submitting import entries to CBP through the ACE system under 19 CFR provisions, which serves as the data source for steel mill product import information.

Certain Carbon and Alloy Steel Cut-To-Length Plate From Belgium: Preliminary Results and Rescission, in Part, of Antidumping Duty Administrative Review; 2023-2024

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily finds that certain carbon and alloy steel cut-to-length plate (CTL plate) from Belgium was sold at less than normal value (NV) during the period of review (POR) May 1, 2023, through April 30, 2024. Additionally, Commerce is rescinding this review in part, with respect to certain companies. We invite interested parties to comment on these preliminary results of review.

DATES: Applicable September 11, 2025.

FOR FURTHER INFORMATION CONTACT: Jerry Xiao, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2273.

SUPPLEMENTARY INFORMATION:

Background

On May 25, 2017, Commerce published in the **Federal Register** the antidumping duty (AD) order on CTL plate from Belgium.¹ On May 2, 2024, Commerce published in the **Federal Register** a notice of opportunity to request an administrative review of the *Order* for the POR.² On July 5, 2024, based on timely requests for review in accordance with 19 CFR 351.221(c)(1)(i), we initiated an AD administrative review.³ This review covers seven producers and/or exporters of the subject merchandise.

On July 22, 2024, Commerce tolled certain deadlines in this administrative proceeding by seven days.⁴ On December 9, 2024, Commerce tolled the deadline for all administrative reviews by 90 days.⁵ On April 16, 2025, Commerce extended the preliminary results of this review by 120 days, until September 5, 2025.⁶ For a complete description of the events that followed the initiation of this review, *see the Preliminary Decision Memorandum*.⁷

For a full description of the methodology underlying our conclusions, *see the Preliminary Decision Memorandum*. A list of topics discussed in the Preliminary Decision Memorandum is included in the appendix to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>. In addition, a complete

Scope of the Order

The product covered by the *Order* is CTL plate from Belgium. For a full description of the scope of the *Order*, *see Preliminary Decision Memorandum*.

Rescission of Administrative Review, in Part

Pursuant to 19 CFR 351.213(d)(3), it is Commerce's practice to rescind an administrative review of an AD order when there are no suspended entries of subject merchandise during the POR.⁸ Normally, upon completion of an administrative review, the suspended entries are liquidated at the AD assessment rate calculated for the review period.⁹ Therefore, for an administrative review to be conducted, there must be a suspended entry that Commerce can instruct CBP to liquidate at the AD assessment rate calculated for the review period.¹⁰

On July 5, 2024, we placed on the record U.S. Customs and Border Protection (CBP) data for entries of CTL plate from Belgium during the POR, showing no suspended entries during the POR for certain companies and invited interested parties to comment.¹¹ No interested party submitted comments regarding the CBP data. As there were no suspended entries of subject merchandise for the following companies: (1) Ancofer Stahlhandel GmbH.; (2) Eastman Chemical Technology BV; (3) NLMK Dansteel A.S.; (4) NV Hengelhoeft Concrete Joints.; and (5) Steelforce Europe NV. On August 5, 2025, Commerce notified all interested parties of its intent to rescind the administrative review in part, with respect to these companies because there were no suspended entries of subject merchandise during the POR and invited interested parties to comment.¹² No interested party submitted comments in response to this notice. Accordingly, in the absence of suspended entries of subject
