

refuges, requests will be prioritized for bison restoration and conservation purposes.

We use Form 3–2555, “Bison Donations Request Form,” to request surplus bison. Respondents will generally be from Tribal governments and intertribal organizations, although we do expect to receive a small number of requests from States and private sector organizations (nonprofit and educational/research organizations). The request form provides details governing the protocol and collects the following information:

- Name of requesting Tribe, intertribal organization, State, or private sector organization.
- Documentation that the proposed project or program meets the definition of a conservation herd.
- Demonstration of the educational contribution of the donation to increasing public knowledge and appreciation of the wildlife values of bison (for educational and research organizations only).
- Total number (or percentage of total donation request) of bison and purpose of request:

- Establish a free-ranging conservation herd;
- Supplement or augment a free-ranging conservation herd;
- Establish a self-sustaining herd for non-conservation purposes;
- Supplement or augment a self-sustaining herd for non-conservation purposes;
- Public display, educational purposes, and/or research;
- Tribal spiritual or cultural purposes; or
- A description if “Other” purpose.

• Signature of requesting Tribe, intertribal organization, State, or private sector organization official.

In addition to the completion of Form 3–2555, recipients of donated bison must inform the Service of the destination State for donated bison no fewer than 30 days prior to a scheduled bison capture operation, to allow the Service time to meet interstate transport regulatory testing requirements.

Recipients of donated bison must also inform the Service of the physical destination address for donated bison no fewer than 10 days prior to scheduled bison loadout, to facilitate timely completion of required interstate veterinary permit applications and veterinary inspection certificates.

The public may request a copy of Form 3–2555 by sending a request to the Service Information Collection Clearance Officer (see **ADDRESSES**, above).

Title of Collection: U.S. Fish and Wildlife Service Bison Donations Request Program.

OMB Control Number: 1018–0190.

Form Number: 3–2555.

Type of Review: Extension without change of a currently approved collection.

Respondents/Affected Public: Private sector organizations and State/local/Tribal governments.

Respondent’s Obligation: Voluntary.

Total Estimated Number of Annual Respondents: 40.

Total Estimated Number of Annual Responses: 60.

Estimated Completion Time per Response: Varies from 30 minutes to 1 hour, depending on activity.

Total Estimated Number of Annual Burden Hours: 40.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour

Burden Cost: There is no cost associated with the Protocol.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Status Reviews for 122 Species in Hawaii, Idaho, Oregon, and Washington

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews for 122 species in Hawaii, Idaho, Oregon, and Washington under the Endangered Species Act of 1973. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any new information on these species that has become available since the last reviews.

DATES: To ensure consideration in our reviews, we are requesting submission

of new information no later than November 10, 2025. However, we will continue to accept new information about any species at any time.

ADDRESSES: *Submitting Information on Species:*

- *Any of the 119 species occurring in Hawaii:*

- *U.S. mail:* Field Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Pacific Islands Fish and Wildlife Office, 300 Ala Moana Blvd., Room 3–122, Honolulu, HI 96850; or

- *Email:* pifwo_admin@fws.gov.

- *Slickspot peppergrass and MacFarlane’s four o’clock:*

- *U.S. mail:* State Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Idaho Fish and Wildlife Office, 1387 S Vinnell Way, Suite 368, Boise, ID 83709; or

- *Email:* ifwo@fws.gov.

- *Umtanum desert buckwheat:*

- *U.S. mail:* State Supervisor, Attention: 5-Year Review, U.S. Fish and Wildlife Service, Washington Fish and Wildlife Office, 1009 College St. SE, Suite 215, Lacey, WA 98503; or

- *Email:* WFWO_LR@fws.gov.

FOR FURTHER INFORMATION CONTACT: For general information, please contact Grant Canterbury, Regional Recovery Biologist, at 503–231–6151. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

For information about the following specific species, contact the following people:

- *Any of the 119 species occurring in Hawaii:* Megan Laut, Recovery Program Manager, Pacific Islands Fish and Wildlife Office, 808–792–9400; pifwo_admin@fws.gov.

- *Slickspot peppergrass and MacFarlane’s four o’clock:* Shannon Brinkman, Recovery Coordinator, Idaho Fish and Wildlife Office, 208–918–2155; ifwo@fws.gov.

- *Umtanum desert buckwheat:* Rose Aghalag, Recovery Coordinator, Washington Fish and Wildlife Office, 564–200–2124; WFWO_LR@fws.gov.

SUPPLEMENTARY INFORMATION:

Why do we conduct 5-year status reviews?

Under the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531, *et seq.*), we maintain Lists of

Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the Act requires us to review the status of each listed species at least once every 5 years. For additional information about 5-year status reviews, refer to our factsheet at <https://www.fws.gov/project/five-year-status-reviews>.

What information do we consider in our review?

A 5-year status review considers all new information available at the time of the review. In conducting these reviews,

we consider the best scientific and commercial data that have become available since the listing determination or most recent status reviews, such as:

A. Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

B. Habitat conditions, including but not limited to amount, distribution, and suitability;

C. Conservation measures that have been implemented that benefit the species;

D. Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the Act); and

E. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year status review and will also be useful in evaluating the ongoing recovery programs for these species.

Which species are under review?

This notice announces our active review of 122 species, including 8 birds, 1 snail, 2 insects, 1 arachnid, 1 crustacean, and 109 plants, as listed in table 1.

Request for New Information

To ensure that a 5-year status review is complete and based on the best available scientific and commercial information, we request new information from all sources. See What Information Do We Consider in Our Review? for specific criteria. If you submit information, please support it with documentation such as maps, references, methods used to gather and analyze the data, and copies of any pertinent publications, reports, or letters by knowledgeable sources.

If you wish to provide information for any species listed in the table, please submit your comments and materials to the appropriate contact in ADDRESSES.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Completed and Active Reviews

A table including hyperlinks to the most recently completed 5-year status review for each listed species, as well as notices of 5-year status reviews that are currently in progress, is available at <https://ecos.fws.gov/ecp/report/species-five-year-review>.

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Sand Skink and Blue-Tailed Mole-Skink; Polk County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from CBD Land Investors, LLC (applicant), for an incidental take permit (ITP) under the Endangered Species Act (ESA). The applicant requests the ITP to take the federally listed sand skink and blue-tailed mole skink incidental to the construction of a residential development in Polk County, Florida. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and on the
