Synopsis

Phase 1: Temporary Major and Minor Modification Filing Freezes

Effective 11:59 p.m. ET, September 3, 2025, the Bureau is reinstating a freeze on all applications for major changes for Class A, LPTV, and TV translator stations. In addition, at 6:00 p.m. ET, October 15, 2025, the Bureau will institute a freeze on all minor change applications for Class A, LPTV, and TV translator stations and displacement applications for LPTV and TV translator stations. These freezes are necessary in order to provide a stable database for stations to prepare for the filing of major modification applications. Applicants that file a major or minor modification application during these temporary freezes will be dismissed without consideration and will need to re-file once the freezes are lifted.

Phase 2: Expanded Major Modification Filing Opportunity

Beginning at 12:01 a.m. ET, October 22, 2025, the Bureau will lift the major modification application filing freeze and accept, on a first-come, first-served basis, applications for all major changes to Class A, LPTV, and TV translator stations including those that propose relocations of no more than 121.0 km from the station's antenna reference coordinates. At 12:01 a.m. ET, October 22, 2025, the Bureau will also lift the temporary freeze on all minor modification and displacement applications. We are imposing a distance limit on major changes in order to ensure that existing stations are able
