**Abstract of Information Available**

Human remains representing, at least, one individual have been identified from the Fanning site (14DP1) in Doniphan County, KS (UBS 2024-08). No associated funerary objects are present. A human tooth was found within a donation by the Nebraska Historical Society to KSHS.

Human remains representing, at least, one individual have been identified from the Brenner Mounds/Trowbridge site (14WY1) in Wyandotte County, KS (UBS 1991-80). The 4,665 associated funerary objects are chipped and ground stone tools, animal bone and bone tools, pottery sherds, fossils, fired clay, axes, knives, a pipe stem fragment, obsidian, points, drills, and glass shards. The human remains and associated funerary

objects were removed from one of the three Brenner Mounds near the Trowbridge Village site.

To our knowledge, no known hazardous substances were used to treat any of the human remains or associated funerary objects.

**Cultural Affiliation**

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

**Determinations**

The KSHS has determined that:

- The human remains described in this notice represent the physical remains of two individuals of Native American ancestry.
- The 4,665 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary objects described in this notice and the Iowa Tribe of Kansas and Nebraska and Kaw Nation, Oklahoma.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after October 16, 2025. If competing requests for repatriation are received, the KSHS must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The KSHS is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.
