### Bureau of Industry and Security

#### 15 CFR Part 744

[Docket No. 250912-0152]

RIN 0694-AK26

#### Additions and Revisions to the Entity List

**AGENCY:** Bureau of Industry and Security, Department of Commerce.

**ACTION:** Final rule.

**SUMMARY:** In this rule, the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) by adding 32 entities to the Entity List. These entries are listed on the Entity List under the destination of China, People's Republic of (China) (23), India, (1), Iran (1), Singapore (1), Taiwan (1), Turkey (3), and the United Arab Emirates (UAE) (2). These entities have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States. This final

rule revises an entry by removing two addresses from one entity under the destination of Russia. Finally, this rule amends 27 existing entries on the Entity List to correct typographical errors under the following destinations: Belarus (3), China (11), Iran (1), Pakistan (1), Russia (9), and Turkey (2).

**DATES:** This rule is effective September 12, 2025.

#### FOR FURTHER INFORMATION CONTACT:

Chair, End-User Review Committee, Office of the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482-5991, Email: [ERC@bis.doc.gov](mailto:ERC@bis.doc.gov).

#### SUPPLEMENTARY INFORMATION:

#### Background

The Entity List (supplement no. 4 to part 744 of the EAR (15 CFR parts 730-774)) identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States, pursuant to § 744.11(b). The EAR imposes additional license requirements on, and limits the availability of, most license exceptions for exports, reexports, and transfers (in-country) when a listed entity is a party to the transaction. The license review policy for each listed entity is identified in the "License Review Policy" column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** document that added the entity to the Entity List. The Bureau of Industry and Security (BIS) places entities on the Entity List pursuant to part 744 (Control Policy: End-User and End-Use Based) and part 746 (Embargoes and Other Special Controls) of the EAR.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes decisions to add an entry to the Entity List by majority vote and makes decisions to remove or modify an entry by unanimous vote.

#### Additions to the Entity List

The ERC determined to add the Chinese Academy of Sciences, National Time Service Center, under the destination of China, to the Entity List.

This entity is being added for acquiring and attempting to acquire U.S.-origin items in support of advancing China's military and defense-related space-domain activities, as well as China's quantum technology capabilities; these actions have serious ramifications for U.S. national security, given the military applications of quantum technologies. This entity will be added with a license requirement for all items subject to the EAR and licenses will be reviewed under a presumption of denial.

The ERC determined to add Beijing Fudan Microelectronics Technology Co., Ltd.; Shanghai Fudan Microelectronics Co., Ltd.; Shenzhen Fudan Microelectronics Co., Ltd.; Shanghai Fukong Hualong Microsystem Technology Co., Ltd.; Shanghai Fuwei Xunjie Digital Technology Co., Ltd.; and Sino IC Technology Co., Ltd., under the destination of China, and Shanghai Fudan Microelectronics (HK) Co., Ltd. under the destinations of China, Singapore, and Taiwan, to the Entity List. These entities are added for acquiring and attempting to acquire U.S.-origin items in support of China's military modernization, for participating in China's advanced computing and integrated circuit manufacturing and distribution sectors, and directly supplying the military, government, and security apparatus of China. These entities are added with a license requirement for all items subject to the EAR. They are added with a license review policy of presumption of denial.

The ERC has further determined that Shanghai Fudan Microelectronics Co., Ltd. and Sino IC Technology Co., Ltd. will receive a footnote 4 designation. These entities are involved in the production of high-performance computing (HPC) chips, including for artificial intelligence and other dual-use applications. Additionally, Shanghai Fudan Microelectronics Co., Ltd. has supplied technology to Russian military end users. For purposes of the license requirements applicable to these entities, "items subject to the EAR" include foreign-produced items described in § 734.9(e)(2) of the EAR.

The ERC determined to add AR Sales Pvt Ltd., under the destination of India, to the Entity List. This addition is being made because the entity has diverted or attempted to divert U.S.-origin items to Russia without prior authorization from BIS. In addition, the entity has engaged in dilatory, evasive, or misleading behavior regarding the importation of U.S.-origin items that effectively prevented end-use checks (EUCs) from occurring or made the EUCs inaccurate. A license is required for all items subject to the EAR. License applications

will be reviewed under a presumption of denial.

The ERC determined to add Atempo Proje Taahhüt Ses ve Görüntü Sistemleri Anonim Şirketi İstanbul Şubesi (Atempo); EB Teknoloji Sistemleri Anonim Şirketi (EB Teknoloji); and Dentun Elektronik, all under the destination of Turkey, to the Entity List. These companies have diverted or attempted to divert controlled U.S.-origin items to Russia without prior authorization from BIS. Dentun Elektronik has exported U.S.-origin Common High Priority List (CHPL) electronics to Russia and repeatedly engaged in evasive and dilatory conduct that prevented a BIS EUC from occurring. Moreover, EB Teknoloji, in conjunction with Atempo, is engaged in concealing shipments of Tier 2 CHPL U.S.-origin goods to Russian entities. These items are primarily electronic components that have been retrieved from Russian weapons found on the battlefield or have been identified as essential items for Russia to manufacture its own military equipment. The ERC has determined that, due to their significant risk of involvement in the supply or diversion of items subject to the EAR to procurement networks for Russia's defense industry or intelligence services, two of these entities, Atempo and EB Teknoloji, qualify as Russian Procurement Entities under § 734.9(g) of the EAR and are receiving a footnote 3 designation. A footnote 3 designation subjects these entities to the Russia/Belarus-Military End User and Procurement FDP rule, detailed in § 734.9(g). These entities are added with a license requirement for all items subject to the EAR. These applications will be reviewed under a policy of denial.

The ERC determined to add one entity to the Entity List: Smart Mail Services under the destinations of Iran and the United Arab Emirates. This addition is being made because the U.S. government has identified this entity as a facilitator of the illicit transshipment network of Hossein Hatefi Ardakani. The Department of the Treasury's Office of Foreign Assets Control designated Ardakani on December 19, 2023, for having provided, or attempted to provide, financial, material, technological or other support for, or goods or services in support of, the Islamic Revolutionary Guard Corps Aerospace Force Self Sufficiency Jihad Organization. A license is required for all items subject to the EAR. License applications will be reviewed under a presumption of denial.

The ERC determined to add Hua Ke Supply Chain (HK) Limited; Hua Ke Logistics (HK) Limited; and Shenzhen Xinlikang Supply Chain Management Co., Limited, under the destination of China, to the Entity List. These entities are added for their involvement in the diversion of dual-use items in support of sanctioned entities, including the Iranian military. These entities will be added with a license requirement for all items subject to the EAR and licenses will be reviewed under a presumption of denial.

The ERC determined to add HAS General Trading LLC, under the destination of the UAE, to the Entity List for engaging in the export and attempted export of items on the Commerce Control List (CCL) from the U.S. to Iran and Russia through the UAE, in apparent violation of the Iranian Transactions and Sanctions Regulations (ITSR, 31 CFR part 560) and the EAR. The entity is added with a license requirement for all items subject to the EAR. License applications will be reviewed with a presumption of denial.

The ERC determined to add Aerospace Information Research Institute, Chinese Academy of Sciences, under the destination of China, to the Entity List. Specifically, this entity is being added for its connections to companies that support China's High Altitude Balloon program. This entity will be added with a license requirement for all items subject to the EAR and licenses will be reviewed under a presumption of denial. Licenses will be reviewed on a case-by-case basis for items for U.S. government supported use of U.S. land remote sensing satellite data, under § 740.11(b). This license requirement may be overcome by License Exception GOV under § 740.11(b).

The ERC determined to add GMC Semiconductor Technology (Wuxi) Co., Ltd.; and Jicun Semiconductor Technology (Shanghai) Co., Ltd., under the destination of China, to the Entity List. These additions are being made because of the entities' acquiring of U.S.-origin items for diversion to parties on the Entity List. Specifically, these entities acquired U.S. origin semiconductor manufacturing equipment for two Entity List parties, SMIC Northern Integrated Circuit Manufacturing (Beijing) Co., Ltd. and Semiconductor Manufacturing International (Beijing) Corporation, without the requisite license or authorization from BIS (see 85 FR 83420, Dec. 22, 2020). A license is required for all items subject to the EAR for these entities; license applications

will be reviewed under a presumption of denial.

The ERC determined to add Beijing Tianyi Huiyuan Biotechnology Co., Ltd.; Beijing Tsingke Biotech Co., Ltd.; and Sangon Biotech (Shanghai) Co., Ltd., under the destination of China, to the Entity List. These entities pose an unacceptable risk of using or diverting U.S. origin items for the People's Liberation Army (PLA) Academy of Military Medical Sciences (AMMS). These entities will be added with a license requirement for all items subject to the EAR and licenses will be reviewed under a presumption of denial.

The ERC determined to add Shanghai Suochen Information Technology Co., Ltd.; and Hong Kong DEMX Co., Ltd., under the destination of China, to the Entity List. These additions are being made because these entities develop computer-aided engineering software for key customers in the Chinese military-industrial complex, including those on the BIS Entity List. These entities are added with a license requirement for all items subject to the EAR and a license review policy of presumption of denial.

The ERC determined to add Changsha NetForward Electronic Technology Co., Ltd.; Changzhou NetForward Microelectronics Co., Ltd.; Chengdu NetForward Microelectronics Co., Ltd.; and Shenzhen NetForward Microelectronics Co., Ltd., all under the destination of China, to the Entity List. These additions are being made because they pose a risk of circumvention of export controls and diversion to entity-listed parties. These entities will be added with a license requirement for all items subject to the EAR and licenses will be reviewed under a presumption of denial.

For the reasons described above, this final rule adds the following 32 entities to the Entity List and includes, where appropriate, aliases:

Shipments of items removed from eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR) as a result of this regulatory action that were en route aboard a carrier to a port of export, reexport, or transfer (in-country), on September 12, 2025, pursuant to actual orders for export, reexport, or transfer (in-country) to or within a foreign destination, may proceed to that destination under the previous eligibility for a License Exception or export, reexport, or transfer (in-country) without a license (NLR), provided the export, reexport, or transfer (in-country) is completed no later than on October 14, 2025.

#### **Export Control Reform Act of 2018**

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (50 U.S.C. 4801–4852). ECRA provides the legal basis for BIS’s principal authorities and serves as the authority under which BIS issues this rule. In particular, Section 1753 of ECRA (50 U.S.C. 4812) authorizes the regulation of exports, reexports, and transfers (in-country) of items subject to U.S. jurisdiction. Further, Section 1754(a)(1)–(16) of ECRA (50 U.S.C. 4813(a)(1)–(16)) authorizes, inter alia, establishing and maintaining a list of foreign persons and end-uses that are determined to be a threat to the national

security and foreign policy of the United States pursuant to the policy set forth in Section 1752(2)(A), and restricting exports, reexports, and in-country transfers of any controlled items to any foreign person or end-use so listed; apprising the public of changes in policy, regulations, and procedures; and any other action necessary to carry out ECRA that is not otherwise prohibited by law. Pursuant to Section 1762(a) of ECRA (50 U.S.C. 4821(a)), these changes can be imposed in a final rule without prior notice and comment.

### Rulemaking Requirements

1. This rule has been determined to be not significant for purposes of Executive Order 12866. This final rule is not a regulatory action pursuant to E.O. 14192 because it is not a significant rule under E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to or be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves an information collection approved by OMB under control number 0694–0088, Simplified Network Application Processing System. BIS does not anticipate a change to the burden hours associated with this collection as a result of this rule. Information regarding the collection, including all supporting materials, can be accessed at: <https://www.reginfo.gov/public/do/PRAMain>.

3. This rule does not contain policies with federalism implications as that term is defined in Executive Order 13132.

4. Pursuant to section 1762 of the Export Control Reform Act of 2018, this action is exempt from the Administrative Procedure Act (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date.

5. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*), are not applicable. Accordingly, no regulatory flexibility analysis is required, and none has been prepared.

### List of Subjects in 15 CFR Part 744

Exports, Reporting and recordkeeping requirements, Terrorism.

Accordingly, part 744 of the Export Administration Regulations (15 CFR parts 730–774) is amended as follows:

### PART 744—CONTROL POLICY: END-USER AND END-USE BASED
