

SUPPLEMENTARY INFORMATION: In the **Federal Register** of July 25, 2025, FDA and USDA published a notice requesting data and information to help develop a uniform definition of ultra-processed foods for human food products in the U.S. food supply (90 FR 35305). A uniform UPF definition, developed as part of a joint effort by federal agencies, would allow for consistency in research and policy to pave the way for addressing health concerns associated with the consumption of UPFs. The notice requested comments by September 23, 2025.

We have received requests to extend the comment period for the notice. Pointing to the complexity of the questions, the importance of the issue, and other factors, the requests assert that additional time would allow stakeholders to provide FDA and USDA detailed responses. We have considered the requests and are extending the comment period for the notice by 30 days, until October 23, 2025. We believe that the extension will allow adequate time for interested persons to submit comments.

Grace R. Graham,

Deputy Commissioner for Policy, Legislation, and International Affairs, Food and Drug Administration.

Patrick A. Penn,

Deputy Under Secretary for Food, Nutrition, and Consumer Services, U.S. Department of Agriculture.
