

• Puget Sound Steelhead (*O. mykiss*): threatened, naturally and artificially propagated.

Background

The term “take” is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. The ESA prohibits the take of endangered salmonids and, pursuant to ESA section 4(d), ESA regulations can be extended to prohibit the take of threatened salmonids. However, NMFS may make exceptions to the take prohibitions for hatchery programs that are approved by NMFS under the limits on the prohibitions outlined in 50 CFR 223.203(b). The operators, WDFW collaborating with tribal co-manager Jamestown S’Klallam Tribe, have submitted an HGMP to NMFS pursuant to NMFS’ Limit 6 of the 4(d) Rule of the ESA for hatchery activities in the Dungeness River basin, Washington. The PEPD is NMFS’ initial determination for how the HGMP addresses the criteria in 50 CFR 223.203(b)(5).

The hatchery program under review is designed to contribute to the reintroduction and recovery of Hood Canal summer-run chum salmon in the Dungeness River basin. This hatchery program is intended to contribute to fulfilling federal trust responsibilities toward Tribes with rights guaranteed through treaties, as affirmed in *United States v. Washington* (1974), by contributing to the recovery of ESA-listed salmon. Included in the HGMP is research and monitoring activities to study the effect of the program on the recovery of Hood Canal summer-run chum salmon, Puget Sound Chinook salmon, and Puget Sound steelhead.

Classification

Under section 4 of the ESA, the Secretary of Commerce is required to adopt such regulations as deemed necessary and advisable for the conservation of species listed as threatened. The ESA salmon and steelhead 4(d) Rule (50 CFR 223.203(b)) specifies categories of activities that contribute to the conservation of listed salmonids and sets out the criteria for such activities. The rule further provides that the prohibitions of paragraph (a) of the rule do not apply to actions undertaken in compliance with a plan developed jointly by a state and a tribe and determined by NMFS to be in accordance with the salmon and steelhead 4(d) Rule (65 FR 42422, July 10, 2000).

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council (Council) will hold public meetings of the Council and its Executive Committee.

DATES: The meetings will be held Tuesday, October 7 through Thursday, October 9, 2025. For agenda details, see **SUPPLEMENTARY INFORMATION.**

ADDRESSES: This meeting will be an in-person meeting with a virtual option. Council members, other meeting participants, and members of the public will have the option to participate in person at The Notary Hotel Philadelphia (21 North Juniper Street, Philadelphia, PA 19107) or virtually via Webex webinar. Webinar connection instructions and briefing materials will be available at: <https://www.mafmc.org/briefing/october-2025>.

Council address: Mid-Atlantic Fishery Management Council, 800 N State St., Suite 201, Dover, DE 19901; telephone: (302) 674–2331; www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526–5255. The Council’s website, www.mafmc.org, also has details on the meeting location, proposed agenda, webinar listen-in access, and briefing materials.

SUPPLEMENTARY INFORMATION: The following items are on the agenda, although agenda items may be addressed out of order (changes will be noted on the Council’s website when possible.)

Tuesday, October 7th

Executive Committee (Closed Session)

Review 2025 Ricks E Savage Award nominations

Executive Committee (Open Session)

Review draft deliverables of 2026 Implementation Plan

———LUNCH———

Recreational Tilefish Permitting and Reporting Framework Meeting #1

Review current reporting requirements and recommendations from the 2024 program evaluation

Provide guidance on preliminary draft alternatives

Merine Recreational Information Program (MRIP)

Review recent program actions, including Fishing Effort Survey (FES) improvements

Mackerel Rebuilding and 2026–2027 Specifications Framework, Including River Herring and Shad Cap: Meeting #1

Review draft alternatives

Adopt range of alternatives for further development and analysis

Wednesday, October 8th

Essential Fish Habitat (EFH) Amendment

Review and approve public hearing document

Gear Marking/On-Demand Gear Framework

Update from Plan Development Team/ Fishery Management Action Team (PDT/FMAT)

Consider final action

———LUNCH———

Joint MAFMC–NEFMC Spiny Dogfish Framework (Including Accountability Measures Modifications and 2026–2027 Specifications) Meeting #2: Final Action

Review joint Committee recommendations

Review recommendations from the Scientific and Statistical Committee (SSC), Monitoring Committee, Advisory Panel, and staff

Select preferred alternatives and take final action

Joint NEFMC–MAFMC Monkfish Specifications Framework: Final Action

Review New England Fishery Management Council (NEFMC) actions

Review joint Committee recommendations

Review recommendations from the NEFMC SSC, Plan Development Team (PDT), and Advisory Panel

Select preferred alternatives and take final action

New England Fishery Management Council (NEFMC) Omnibus Management Flexibility Amendment: Monkfish Provisions

Review the monkfish sections of the Omnibus and NEFMC's preferred alternatives

Select preferred monkfish alternatives and take final action

Habitat Activities Update—Greater Regional Fisheries Office (GARFO) Habitat and Ecosystem Services Division

Presentation on activities of interest in the region

Atlantic Coast Regional Fisheries Compensation Program

Updates on development of a regional offshore wind fisheries compensation program

Thursday, October 9th

Business Session

Committee Reports (SSC); Executive Director's Report; Organization Reports; and Liaison Reports

Other Business and General Public Comment

Although non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during these meetings. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c).

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to Shelley Spedden, (302) 526-5251, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 17, 2025.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Geophysical Surveys Related to Oil and Gas Activities in the Gulf of America (Formerly Gulf of Mexico)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of letter of authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended, its implementing regulations, and NMFS' MMPA regulations for taking marine mammals incidental to geophysical surveys related to oil and gas activities in the Gulf of America, originally published as "Taking Marine Mammals Incidental to Geophysical Surveys Related to Oil and Gas Activities in the Gulf of Mexico," notification is hereby given that a Letter of Authorization (LOA) has been issued to Anadarko Petroleum Corporation (Anadarko) for the take of marine mammals incidental to geophysical survey activity in the Gulf of America (GOA).

DATES: The LOA is effective from September 16, 2025 through April 19, 2026.

ADDRESSES: The LOA, LOA request, and supporting documentation are available online at: <https://www.fisheries.noaa.gov/action/incidental-take-authorization-oil-and-gas-industry-geophysical-survey-activity-gulf-mexico>. In case of problems accessing these documents, please call the contact listed below (see **FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT: Jenna Harlacher, Office of Protected Resources, NMFS, (301) 427-8401.

SUPPLEMENTARY INFORMATION:

Background

Section 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to

harassment, a notice of a proposed authorization is provided to the public for review.

An authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth. NMFS has defined "negligible impact" in 50 CFR 216.103 as an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.

Except with respect to certain activities not pertinent here, the MMPA defines "harassment" as: any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

On January 19, 2021, we issued a final rule with regulations to govern the unintentional taking of marine mammals incidental to geophysical survey activities conducted by oil and gas industry operators, and those persons authorized to conduct activities on their behalf (collectively "industry operators"), in U.S. waters of the Gulf of America (GOA)¹ over the course of 5 years (86 FR 5322, January 19, 2021). The rule was based on our findings that the total taking from the specified activities over the 5-year period will have a negligible impact on the affected species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of those species or stocks for subsistence uses, and became effective on April 19, 2021.

The regulations at 50 CFR 217.180 *et seq.* allow for the issuance of LOAs to industry operators for the incidental take of marine mammals during geophysical survey activities and

¹ Pursuant to Executive Order 14172, "Restoring Names That Honor American Greatness," and Department of the Interior Secretarial Order 3423, "The Gulf of America," the body of water formerly known as the Gulf of Mexico is now called the Gulf of America. Accordingly, NMFS amended the incidental take regulations to reflect the change. See 90 FR 38001 (August 7, 2025).
