II. Background, Purpose, and Legal Basis

On February 4, 2025, an organization notified the Coast Guard that it will be installing aerial transverse wirelines over the Ohio River from October 6, 2025, until October 24, 2025, from 8 a.m. to 6 p.m. each day with periods of time to allow traffic to transit. Hazards from the wire crossing include overhead danger and possible falling debris. The Captain of the Port MSU Pittsburgh (COTP) has determined that these potential hazards associated with the wire crossing would be a safety concern for anyone within the proposed safety zone from Mile Marker 2 to 3.

The purpose of this rulemaking is to ensure the safety of vessels and the navigable waters from Mile marker 2 to 3 during the scheduled event wire installation. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70034.

III. Discussion of Proposed Rule

The COTP is proposing to establish a safety zone from 8 a.m. to 6 p.m. each day from October 6, 2025, through October 24, 2025. The safety zone would cover all navigable waters from Mile Marker 2 to 3 on the Ohio River located near Pittsburgh, PA. The duration of the zone is intended to ensure the safety of vessels and these navigable waters before, during, and after the scheduled wire crossing. No vessel or person would be permitted to enter the safety zone while wire installation operations are in progress. Safety boats will be present on-scene to provide notice of the times when wire installation operations are in progress. These safety boats will also provide notice of breaks in the wire installation when it is safe to transit through the safety zone area. The regulatory text we are proposing appears at the end of this document.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders.

A. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This safety zone impacts only a one mile stretch of the Ohio River starting October 6, 2025, through October 24, 2025. The safety zone will be enforced only when wire installation operations are occurring over the Ohio River, which is anticipated to take place from 8 a.m. to 6 p.m. each day. During this time, vessel traffic will be permitted to transit through the area during breaks in the installation of wires over the Ohio River. Moreover, the Coast Guard will issue Local Notice to Mariners (LNMs), Broadcast Notices to Mariners (BNMs), and/or Marine Safety Information Bulletins (MSIBs), via VHF–FM marine channel 13 or 16 about the zone and the rule allows vessels to seek permission from the COTP to transit the zone.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the proposed rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

B. Collection of Information

This proposed rule would not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

C. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132 (Federalism), if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this proposed rule does not have tribal implications under Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments) because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this proposed rule has implications for federalism or Indian tribes, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

D. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the potential effects of this proposed rule elsewhere in this preamble.

E. Environment

We have analyzed this proposed rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on

the human environment. This proposed rule involves a safety zone that impacts only a one mile stretch of the Ohio River during daylight hours from October 6, 2025, through October 8, 2025.

Normally such actions are categorically excluded from further review under paragraph L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A preliminary Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the **ADDRESSES** section of this preamble. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

V. Public Participation and Request for Comments

We view public participation as essential to effective rulemaking and will consider all comments and material received during the comment period. Your comment can help shape the outcome of this rulemaking. If you submit a comment, please include the docket number for this rulemaking, indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation.

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the Table of TV Allotments (table) of the Federal Communications Commission's (Commission) rules by substituting channel *33 for *8 at Hutchinson, Kansas in response to a Petition for Rulemaking filed by Kansas Public Telecommunications Service, Inc. (Kansas Public or Licensee), the licensee of noncommercial educational

PBS member television station KPTS(TV) (KPTS or Station) channel *8, Hutchinson, Kansas (Hutchinson). In support of its channel substitution request, the Petitioner asserts that allowing the Station to move from a VHF to a UHF channel would serve the public interest by improving signal reception for viewers. The staff engineering analysis finds that the proposal is in compliance with the Commission's principal community coverage and technical requirements. The proposed channel change is predicted to result in service to more viewers, both through better signal quality and an expanded coverage area.

DATES: Comments must be filed on or before October 22, 2025 and reply comments on or before November 6, 2025.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 45 L Street NE, Washington, DC 20554.
