Semiannual Regulatory Agenda, Spring 2025

AGENCY: Office of the Secretary, USDA.
ACTION: Semiannual Regulatory Agenda.

SUMMARY: This agenda provides summary descriptions of significant and not significant regulations being developed in agencies of the U.S. Department of Agriculture (USDA) in conformance with Executive Orders (E.O.) 12866, “Regulatory Planning and

Review,” 13563, “Improving Regulation and Regulatory Review,” 14192, “Unleashing Prosperity Through Deregulation,” and 14219, “Ensuring Lawful Governance and Implementing the President’s “Department of Government Efficiency” Deregulatory Initiative.” The agenda also describes regulations affecting small entities as required by section 602 of the Regulatory Flexibility Act, Public Law 96–354. This agenda also identifies regulatory actions that are being reviewed in compliance with section 610(c) of the Regulatory Flexibility Act. We invite public comments on those actions as well as any regulation consistent with Executive Order 13563.

USDA has attempted to list all regulations and regulatory reviews pending at the time of publication except for minor and routine or repetitive actions, but some may have been inadvertently missed. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the date shown.

USDA’s complete regulatory agenda is available online at www.reginfo.gov. Because publication in the **Federal Register** is mandated for the regulatory flexibility agendas required by the Regulatory Flexibility Act (5 U.S.C. 602), USDA’s printed agenda entries include only:

(1) Rules that are likely to have a significant economic impact on a substantial number of small entities; and

(2) Rules identified for periodic review under section 610 of the Regulatory Flexibility Act.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action. For general comments or inquiries about the agenda, please contact Mr. Michael Poe, Office of the General Counsel, U.S. Department of Agriculture, Washington, DC 20250, (202) 769–8247.

July 11, 2025.
Michael Poe,
Legislative and Regulatory Staff.

AGRICULTURAL MARKETING SERVICE—PROPOSED RULE STAGE

Sequence No.	Title	Regulation Identifier No.
1	Rescinding National Organic Program; Market Development for Mushrooms and Pet Food (AMS–NOP–22–0063).	0581–AE13
2	National List of Allowed and Prohibited Substances: Recommendations From the NOSB Fall 2021, Fall 2022 and Fall 2024 Meetings (Crops and Livestock) (AMS–NOP–22–0029).	0581–AE25
3	Olive Oil Promotion, Research, and Information Order	0581–AE33

AGRICULTURAL MARKETING SERVICE—LONG-TERM ACTIONS

Sequence No.	Title	Regulation Identifier No.
4	Inert Ingredients in Pesticides for Organic Production (AMS–NOP–21–0008)	0581–AE02
5	National List of Allowed and Prohibited Substances: Recommendations From the NOSB 2021 and 2022 Meetings (Crops—Nitrogen Fertilizers) (AMS–NOP–21–0096).	0581–AE16

AGRICULTURAL MARKETING SERVICE—COMPLETED ACTIONS

Sequence No.	Title	Regulation Identifier No.
6	Natural Grass Sod Promotion, Research, and Information Order (AMS–LP–21–0028)	0581–AE07
7	Fees for Official Inspection and Weighing Services Under the United States Grain Standards Act (AMS–FGIS–24–0010).	0581–AE28
8	Formula for Adjusting Fees Associated With Official Inspection and Weighing Services Under the United States Grain Standards Act (AMS–FGIS–24–0027).	0581–AE31
9	Section 8e Import Inspection Fee Structure (AMS–SC–23–0009)	0581–AE32

FARM SERVICE AGENCY—PRERULE STAGE

Sequence No.	Title	Regulation Identifier No.
10	Agricultural Foreign Investment Disclosure Act	0560–AI70

ANIMAL AND PLANT HEALTH INSPECTION SERVICE—FINAL RULE STAGE

Sequence No.	Title	Regulation Identifier No.
11	Revise Conditions for Payment of Indemnity and Compensation for HPAI	0579-AE79

ANIMAL AND PLANT HEALTH INSPECTION SERVICE—COMPLETED ACTIONS

Sequence No.	Title	Regulation Identifier No.
12	Agricultural Bioterrorism Protection Act of 2002; Biennial Review and Republication of the Select Agent and Toxin List.	0579-AE52

FOOD AND NUTRITION SERVICE—PROPOSED RULE STAGE

Sequence No.	Title	Regulation Identifier No.
13	Strengthening Integrity and Reducing Retailer Fraud in the Supplemental Nutrition Assistance Program (SNAP).	0584-AE71
14	Updated Staple Food Stocking Standards for Retailers in the Supplemental Nutrition Assistance Program	0584-AF12

FOOD AND NUTRITION SERVICE—FINAL RULE STAGE

Sequence No.	Title	Regulation Identifier No.
15	Special Supplemental Nutrition Program for Women, Infants and Children (WIC): WIC Online Ordering and Transactions and Food Delivery Revisions to Meet the Needs of a Modern, Data-Driven Program.	0584-AE85

OFFICE OF THE SECRETARY—LONG-TERM ACTIONS

Sequence No.	Title	Regulation Identifier No.
16	Technical Guidelines for Agriculture Crops Used as Low-carbon Biofuel Feedstocks	0503-AA82

Agricultural Marketing Service (AMS)	

1. RESCINDING NATIONAL ORGANIC PROGRAM; MARKET DEVELOPMENT FOR MUSHROOMS AND PET FOOD (AMS-NOP-22-0063) [0581-AE13]

Legal Authority: 7 U.S.C. 6501
 Abstract: This action would rescind the rule and regulations issued on December 23, 2024, titled, “National Organic Program; Market Development for Mushrooms and Pet Food.” Amendments made to the USDA organic regulations were intended to clarify production and handling requirements for a) organic pet food standards and b) organic mushrooms.

 RIN: 0581-AE13

2. NATIONAL LIST OF ALLOWED AND PROHIBITED SUBSTANCES: RECOMMENDATIONS FROM THE NOSB FALL 2021, FALL 2022 AND FALL 2024 MEETINGS (CROPS AND LIVESTOCK) (AMS-NOP-22-0029) [0581-AE25]

Legal Authority: 7 U.S.C. 6501 to 6524
 Abstract: The National List identifies the synthetic substances that may be used in organic crop and livestock production as well as the nonsynthetic (natural) substances that may not be used. It also identifies the nonorganic substances that may be used in or on processed organic products. Amendments to the National List included in this proposed rule are based on recommendations from the National Organic Standards Board (NOSB).

 RIN: 0581-AE25

3. OLIVE OIL PROMOTION, RESEARCH, AND INFORMATION ORDER [0581-AE33]

Legal Authority: 7 U.S.C. 7411 to 7425
 Abstract: The proposed Olive Oil Promotion, Research, and Information Order (Order) would establish an effective and coordinated program of research, promotion, and information for the olive oil industry. Currently, no organization in the olive oil industry has the resources or funds to develop and disseminate the information and marketing promotions needed to increase awareness and to counter inaccurate or misleading information about olive oil among U.S. consumers, health and culinary professionals, and the media. Under the proposed Order, domestic first handlers and importers who handle or import over 5,000 gallons annually of olive oil would pay \$0.08 per gallon. It is estimated the program would collect more than \$8 million annually in assessments to carry out the program administered by the Cooperative for Olive Oil Promotion.

4. INERT INGREDIENTS IN PESTICIDES FOR ORGANIC PRODUCTION (AMS-NOP-21-0008) [0581-AE02]

Legal Authority: 7 U.S.C. 6501 to 6524
 Abstract: Based on comments received from the September 2022 Advance Notice of Proposed

Rulemaking and recommendations from the National Organic Standards Board (NOSB) in Fall 2024, this action would propose to replace outdated references in USDA’s organic regulations to U.S. Environmental Protection Agency (EPA) policy on inert ingredients in pesticides. Inerts, also identified as “other ingredients” on pesticide labels, are any substances other than the active ingredient that are intentionally added to pesticide products. References to outdated EPA policy appear in the USDA organic regulations in the National List of Allowed and Prohibited Substances (National List) and identify the inert ingredients allowed in pesticides for organic production. This action has been moved to Long-term Actions because it is not an Administration priority.

5. NATIONAL LIST OF ALLOWED AND PROHIBITED SUBSTANCES: RECOMMENDATIONS FROM THE NOSB 2021 AND 2022 MEETINGS (CROPS—NITROGEN FERTILIZERS) (AMS-NOP-21-0096) [0581-AE16]

Legal Authority: 7 U.S.C. 6501 to 6524
 Abstract: The National List identifies the synthetic substances that may be used in organic crop and livestock production as well as the nonsynthetic (natural) substances that may not be used. It also identifies the nonorganic substances that may be used in or on processed organic products. Amendments to the National List included in this proposed rule are based on recommendations from the National Organic Standards Board (NOSB). The proposed rule seeks comment on the status of the following substances used in organic crop production: sodium nitrate, ammonia, and nitrogen fertilizers that have carbon-to-nitrogen ratio lower than three-to-one (3:1).

7. FEES FOR OFFICIAL INSPECTION AND WEIGHING SERVICES UNDER THE UNITED STATES GRAIN STANDARDS ACT (AMS-FGIS-24-0010) [0581-AE28]

Legal Authority: 7 U.S.C. 71 to 87k
 Abstract: This action revised FY2024 fees for grain inspection and weighing services provided by the Agricultural Marketing Service’s (AMS) Federal Grain Inspection Service (FGIS). This action also implemented a revised formula to adjust inspection and weighing fees, annually, which will limit large swings in fees and ensure a sufficient reserve balance going forward. The new formula is similar to the standardized formula used in other user-fee AMS grading programs. The

formula specified rates be based on the actual cost and workload data of the previous fiscal year(s) or accounting period(s) used by the program. Based on the analysis and using the formula, FGIS determined the fees necessary to sustain program services. This increases predictability and provides information for planning purposes for the grain industry.

8. FORMULA FOR ADJUSTING FEES ASSOCIATED WITH OFFICIAL INSPECTION AND WEIGHING SERVICES UNDER THE UNITED STATES GRAIN STANDARDS ACT (AMS-FGIS-24-0027) [0581-AE31]

Legal Authority: 7 U.S.C. 71 to 87k
 Abstract: This action established a standardized formula to annually adjust fees for grain inspection and weighing services provided by the Agricultural Marketing Service's (AMS) Federal Grain Inspection Service (FGIS). The use of a formula will limit large swings in fees and ensure a sufficient reserve balance going forward. The new formula is similar to the standardized formula used in other user-fee AMS grading programs. The formula specifies that rates be based on the actual cost and workload data of the previous fiscal year(s) or accounting period(s) used by the program. Based on the analysis and using the formula, FGIS will determine the fees necessary to sustain program services. This will increase predictability and provide information for planning purposes for the grain industry.

9. • SECTION 8E IMPORT INSPECTION FEE STRUCTURE (AMS-SC-23-0009) [0581-AE32]

Legal Authority: 7 U.S.C. 1621 to 1627
 Abstract: The Agricultural Marketing Service (AMS) revised the regulations governing the inspection and certification for fresh fruits, vegetables, and other products by amending certain fees charged for Section 8e import inspections from a per-carlot basis to a per-pound basis, reducing the fee for each additional subplot by 50 percent, and establishing a new fee calculation for lots less than a carlot. These revisions were necessary to recover, as nearly as practicable, the costs of performing inspection services on imported commodities in accordance with the Agricultural Marketing Agreement Act of 1937.

12. AGRICULTURAL BIOTERRORISM PROTECTION ACT OF 2002; BIENNIAL REVIEW AND REPUBLICATION OF THE SELECT AGENT AND TOXIN LIST [0579-AE52]

Legal Authority: 7 U.S.C. 8401
 Abstract: In accordance with the Agricultural Bioterrorism Protection Act of 2002, we are amending and republishing the list of select agents and toxins that have the potential to pose a severe threat to animal or plant health, or to animal or plant products. The Act requires the biennial review and republication of the list of select agents and toxins and the revision of the list as necessary. This action implements findings of the biennial review of the lists.

13. STRENGTHENING INTEGRITY AND REDUCING RETAILER FRAUD IN THE SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM (SNAP) [0584-AE71]

Legal Authority: Pub. L. 113-79; Pub. L. 115-334

Abstract: This proposed rule would implement statutory provisions of the Food, Conservation, and Energy Act of 2008 (the 2008 Farm Bill), the Agriculture Improvement Act of 2018 (the 2018 Farm Bill), and other language intended to deter retailer fraud, abuse, and non-compliance in the Supplemental Nutrition Assistance Program (SNAP). Stakeholders are SNAP retailers and communities in which SNAP retailers provide SNAP participants access to food, other Programs that require SNAP

authorization or where reciprocal actions impact participation, and SNAP participants.

14. • UPDATED STAPLE FOOD STOCKING STANDARDS FOR RETAILERS IN THE SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM [0584-AF12]

Legal Authority: Pub. L. 113-79; 7 U.S.C. 2011 to 2036

Abstract: The Agricultural Act of 2014 amended the Food and Nutrition Act of 2008 to increase the requirement that certain Supplemental Nutrition Assistance Program (SNAP) authorized retail food stores have available on a continuous basis at least three varieties of items in each of food staple food categories, to a mandatory minimum of seven varieties. This proposed rule would provide some retailers participating in SNAP as authorized food stores with more flexibility in meeting the enhanced SNAP eligibility requirements while also simplifying the criteria.

15. SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS AND CHILDREN (WIC): WIC ONLINE ORDERING AND TRANSACTIONS AND FOOD DELIVERY REVISIONS TO MEET THE NEEDS OF A MODERN, DATA-DRIVEN PROGRAM [0584-AE85]

Legal Authority: Pub. L. 111-296

Abstract: This “final rule with comment” addresses key regulatory barriers to online ordering in the WIC Program by making changes to the provisions that prevent online transactions and types of online capable stores from participating in the Program. This rule will also allow FNS to modernize WIC vendor regulations that do not reflect current technology and facilitate the Program’s transition to Electronic Benefit Transfer (EBT). The final rule is responsive to prior proposed rule public comments from WIC state, public and private industry stakeholders to ensure that the final rule reflects their substantive feedback as online shopping and FNS’ modernization efforts are made permanent.

16. TECHNICAL GUIDELINES FOR AGRICULTURE CROPS USED AS LOW-CARBON BIOFUEL FEEDSTOCKS [0503-AA82]

Legal Authority: 16 U.S.C. 3845 and 3846

Abstract: USDA previously issued an Interim Final Rule (IFR) before the start of this Administration to establish new regulations that will set requirements for the quantification, reporting, and verification of low-carbon, domestic agricultural biofuel feedstocks. The rule may create additional opportunities to produce low-carbon agricultural feedstocks sourcing biofuels, and may provide added-value market

opportunities for farmers producing biofuel feedstock crops. The next steps for this action are currently undetermined.
