SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: United States Naval Academy Sponsor Program; OMB Control Number 0703–0054.

Needs and Uses: USNA Plebe Sponsor Program is a unique program offered through the Naval Academy that pairs midshipmen with faculty, staff, and local community area families to provide local support and a “home away from home” for midshipmen that is mutually beneficial to both the midshipman and the sponsor. This information collection is needed to determine the eligibility and overall compatibility between sponsor applicants and fourth-class midshipmen at the USNA. In their first year, midshipmen desiring to participate in the program are assigned a sponsor from the local community area. An analysis of the information collected is performed by the Sponsor Program Officer in Charge to best match sponsor with a midshipman. Without this information collection, the sponsor program would not be able to determine if a sponsor family was “safe” to place a midshipman with nor appropriately match the interests of the midshipman with those of the sponsor family.

Texas Eastern Transmission, LP; Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Donaldson Compressor Station Abandonment Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental document that will discuss the environmental impacts of the Donaldson Compressor Station Abandonment Project involving abandonment of facilities by Texas Eastern Transmission, LP (Texas Eastern), in Hot Spring County, Arkansas. The Commission will use this environmental document in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies regarding the project. As part of the National Environmental Policy Act (NEPA) review process, the Commission takes into account concerns the public may have about proposals and the environmental impacts that could result from its action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. This gathering of public input is referred to as “scoping.” The main goal of the scoping process is to focus the analysis in the environmental document on the important environmental issues. Additional information about the Commission’s NEPA process is described below in the *NEPA Process and Environmental Document* section of this notice.

By this notice, the Commission requests public comments on the scope of issues to address in the environmental document. Comments may be submitted in written form. Further details on how to submit comments are provided in the *Public Participation* section of this notice.
