

For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

**Abstract:** The New Source Performance Standards (NSPS) for Incinerators (40 CFR part 60, subpart E) were proposed on July 25, 1977, and amended on May 10, 2006. These regulations apply to existing incinerators that charge more than 45 metric tons per day (50 tons per day) of solid waste, and that commenced either construction or modification after August 17, 1971. Solid waste is defined as refuse, more than 50 percent of which is municipal type waste consisting of a mixture of paper, wood, yard wastes, food wastes, plastics, leather, rubber, and other combustibles, and noncombustible materials such as glass and rock. New incinerators will be subject to either 40 CFR part 60, subpart Eb, or 40 CFR part 60, subpart AAAA. Additionally, incinerators that are covered by either 40 CFR part 60, subparts Cb, Eb, AAAA, or BBBB; or by an EPA-approved State section 111(d)/129 plan implementing subpart Cb or BBB; or by 40 CFR part 62, subpart FFF or JJJ, not subject to the above standards. This information is being collected to assure compliance with 40 CFR part 60, subpart E.

**Form Numbers:** None.

**Respondents/affected entities:** Existing incinerators that charge more than 45 metric tons per day.

**Respondent's obligation to respond:** Mandatory (40 CFR part 60, subpart E).

**Estimated number of respondents:** 47 (total).

**Frequency of response:** Initially and occasionally.

**Total estimated burden:** 4,860 hours (per year). Burden is defined at 5 CFR 1320.3(b).

**Total estimated cost:** \$697,000 (per year), includes \$187,000 annualized capital or operation & maintenance costs.

**Changes in the estimates:** There is an adjustment increase in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The adjustment increase in burden from the most recently approved ICR is due to a correction in the number of existing sources based on a review of sources listed in the EPA's ECHO database. There is an increase in O&M costs which is due to adjusting to 2024 \$ using the CEPCI CE Index. This ICR additionally corrects response count from the most recently approved ICR in the table Total Annual Responses. There

is no change in burden due to this correction.

### Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Risk Management Program Requirements and Petitions To Modify the List of Regulated Substances Under Section 112(r) of the Clean Air Act (Renewal)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Risk Management Program Requirements and Petitions to Modify the List of Regulated Substances the Clean Air Act (EPA ICR Number 1656.19, OMB Control Number 2050-0144) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). This is a proposed extension of the ICR, which is currently approved through September 30, 2025. Public comments were previously requested via the **Federal Register** on April 17, 2025 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

**DATES:** Comments must be submitted on or before October 27, 2025.

**ADDRESSES:** Submit your comments, referencing Docket ID Number EPA-HQ-OEM-2015-0725, to EPA online using [www.regulations.gov](http://www.regulations.gov) (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within

30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

#### FOR FURTHER INFORMATION CONTACT:

William Noggle, Office of Emergency Management, Mail Code 5104A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 566-1306; email address: [noggle.william@epa.gov](mailto:noggle.william@epa.gov).

**SUPPLEMENTARY INFORMATION:** This is a proposed extension of the ICR, which is currently approved through September 30, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on April 17, 2025 during a 60-day comment period (90 FR 16126). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

**Abstract:** Information collection for on-site documentation of Risk Management Plans (RMPs) is authorized by Clean Air Act (CAA) sections 112(r)(7)(B)(i) and (ii), which state, "The Administrator shall promulgate reasonable regulations and appropriate guidance to provide . . . for the prevention and detection of accidental releases of regulated substances . . ." and, "The regulations . . . shall require the owner or operator . . . to prepare and implement a risk management plan to detect and prevent or minimize accidental releases . . ." Information collection for submitting an RMP is authorized under CAA section 112(r)(7)(B)(iii), which states in relevant part, "The, owner or operator of each stationary source . . . shall register a risk management plan . . . with the Administrator before the effective date of the regulations . . . in such form and manner as the Administrator shall, by rule, require . . . and shall be available to the public under section 114(c)." Information collection for on-site

documentation and submittal of RMPs also is authorized by CAA section 114(a)(1). State and local authorities use the information in RMPs to modify and enhance their community response plans. The agencies implementing the Risk Management Program use RMPs to evaluate compliance with the Chemical Accident Provisions in 40 CFR part 68 and to identify sources for inspection that may pose significant risks to the community. Citizens may use the information to assess chemical hazards in their communities.

*Form Numbers:* None.

*Respondents/affected entities:*

Stationary sources that manufacture, react, mix, store, or use substances in processes that require equipment designed, constructed, installed, operated, or maintained in specific ways to prevent accidental releases and ensure safe operations.

*Respondent's obligation to respond:* Mandatory under CAA section 112(r)(7)(B)(iii).

*Estimated number of respondents:* 14,513 (total).

*Frequency of response:* Sources are required to register and submit an RMP once every five years unless there are significant changes in the information provided.

*Total estimated burden:* 667,639 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$52,611,420 (per year), which includes \$36,792 annual operation & maintenance costs.

*Changes in the estimates:* There is decrease of 36,336 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. Two primary reasons account for this decrease in burden. First, the burden varies from one ICR renewal to the next due to different resubmission deadlines based on the sources' RMP re-submission deadlines and other regulatory deadlines. Therefore, the burden changes each year depending on how many sources must submit their RMP and comply with certain prevention program requirements. Second, the number of sources subject to the regulations fluctuates regularly and is slightly lower than in the previous ICR (12,074 vs. 12,341 sources) due to the net change in new sources minus deregistered sources, as well as a lower number of new facilities anticipated to become subject to the RMP requirements during the three-year clearance period.

**Abstract:** The New Source Performance Standards (NSPS) for Stationary Gas Turbines (40 CFR part 60, subpart GG) were promulgated on September 10, 1979; and last-amended on February 27, 2014. These regulations apply to both existing facilities and new facilities that have stationary gas turbines with a heat input at peak load equal or greater than 10.7 gigajoules per hour (based on the lower heating value of the fuel fired). There are no new facilities under this subpart, as any facility which commenced either construction, or modification, or reconstruction after February 18, 2005 is subject to the NSPS for Stationary Combustion Turbines (40 CFR part 60, subpart KKKK). This information is being collected to assure compliance with 40 CFR part 60, subpart GG.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.
