OFFICE OF MANAGEMENT AND BUDGET

Designation of Database to the Do Not Pay Working System

AGENCY: Office of Management and Budget.

ACTION: Notice of designation.

The Payment Integrity Information Act of 2019 (PIIA) authorizes the Office of Management and Budget (OMB) to designate databases for inclusion in the U.S. Department of the Treasury (Treasury) Do Not Pay Working System (Do Not Pay). PIIA requires OMB to provide public notice and an opportunity for comment prior to designating databases. In fulfillment of this requirement, OMB published a Notice of Proposed Designation on June 24, 2025, for the U.S. Department of Veterans Affairs (VA) Benefits Enterprise Platform (BEP) database for use in the Do Not Pay Working System with the Public Assistance Reporting Information System (PARIS). OMB received two comments during the 15-day comment period for this notice. One of the comments addressed the substance of the proposal; the other did not. The comment addressing the substance of the proposal included concerns about the level of transparency of related privacy and data stewardship practices.

Considering privacy risks is part of the database designation process, and OMB provided information about these considerations in the notice of proposed designation. In addition to discussing the privacy risk assessment conducted by Fiscal Service, the section of the notice on "Privacy restrictions and risks associated with specific data" provided information about the data involved; the roles of each involved entity; notice and opportunity to respond if a State Public Assistance Agency intends to reduce, suspend, terminate, or deny benefits as a result of information provided by Fiscal Service; and efforts for data

minimization. The section of the notice under the heading “Do Not Pay Working System Privacy, Security, and Legal Implications” discusses privacy-related measures that Treasury reports apply to Do Not Pay, such as rules of behavior, dedicated resources for a privacy program, internal controls, a data usage governance process, security-related risk mitigation measures, and identity management safeguards. Finally, the section of the notice under the heading “Statutory or other limitations on the use and sharing of specific data” addresses the Privacy Act of 1974, a matching agreement, and a memorandum of understanding, which impose certain limitations on the use and sharing of the data. Additional information about Treasury’s privacy and civil liberties impact assessment for Do Not Pay is available on Treasury’s website, on the Do Not Pay Privacy Program web page.

Given the information summarized above, OMB determined that the designation should proceed. Effective immediately, OMB designates the BEP database for use in Do Not Pay with PARIS. Through this final designation, BEP will only be available for use with PARIS and by State Public Assistance Agencies; it will not be available for use by other Do Not Pay users.

SUPPLEMENTARY INFORMATION:

Public Comment Procedures

We are publishing notice of records schedules in which agencies propose to dispose of records they no longer need to conduct agency business. We invite public comments on these records schedules, as required by 44 U.S.C. 3303a(a), and list the schedules at the end of this notice by agency and subdivision requesting disposition authority.

In addition, this notice lists the organizational unit(s) accumulating the records or states that the schedule has agency-wide applicability. It also provides the control number assigned to each schedule, which you will need if you submit comments on that schedule. We have uploaded the records

schedules and accompanying appraisal memoranda to the [regulations.gov](https://www.regulations.gov) docket for this notice as “other” documents. Each records schedule contains a full description of the records at the file unit level as well as their proposed disposition. The appraisal memorandum for the schedule includes information about the records.

We will post comments, including any personal information and attachments, to the public docket unchanged. Because comments are public, you are responsible for ensuring that you do not include any confidential or other information that you or a third party may not wish to be publicly posted. If you want to submit a comment with confidential information or cannot otherwise use the [regulations.gov](https://www.regulations.gov) portal, you may contact request.schedule@nara.gov for instructions on submitting your comment.

We will consider all comments submitted by the posted deadline and consult as needed with the Federal agency seeking the disposition authority. After considering comments, we may or may not make changes to the proposed records schedule. The schedule is then sent for final approval by the Archivist of the United States. After the schedule is approved, we will post on [regulations.gov](https://www.regulations.gov) a “Consolidated Reply” summarizing the comments, responding to them, and noting any changes we made to the proposed schedule. You may elect at [regulations.gov](https://www.regulations.gov) to receive updates on the docket, including an alert when we post the Consolidated Reply, whether or not you submit a comment. If you have a question, you can submit it as a comment, and can also submit any concerns or comments you would have to a possible response to the question. We will address these items in consolidated replies along with any other comments submitted on that schedule.

We will post schedules on our website in the Records Control Schedule (RCS) Repository, at <https://www.archives.gov/records-mgmt/rcs>, after the Archivist approves them. The RCS contains all schedules approved since 1973.

Background

Each year, Federal agencies create billions of records. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA’s approval. Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer
