The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

WCNOC is the holder of Renewed Facility Operating License No. NPF–42 for Wolf Creek Generating Station, Unit 1 (Wolf Creek). The license provides, among other things, that Wolf Creek is subject to all rules, regulations, and orders of the NRC now or hereafter in effect. The Wolf Creek license (NPF–42, Docket No. 50–482) is for a power reactor under part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), “Domestic Licensing of Production and Utilization Facilities.”

The NRC received a request for approval of a partial site release from WCNOC, by letter dated August 26, 2025 (ADAMS Accession No. ML25245A104). WCNOC requests NRC approval to remove and release from its 10 CFR part 50 license, 4.46 acres of

land for the Stringtown Cemetery Board in accordance with 10 CFR 50.83(b). As described in 10 CFR 50.83(c), the NRC will determine whether the licensee has adequately evaluated the effect of releasing the properties per the requirements of 10 CFR 50.83(a)(1); determine whether the licensee’s classification of any released areas as “non-impacted” is adequately justified; and if the NRC determines that the licensee’s submittal is adequate, the NRC will inform the licensee in writing that the release is approved.

III. Request for Comment and Public Meeting

The NRC will conduct a public meeting to answer questions and gather comments regarding WCNOC’s request for approval of the partial site release. The meeting will be held on Wednesday, October 15, 2025, from 7 p.m. until 8 p.m. CT, at New Strawn Fire Station, 301 W Lake Road, New Strawn, KS. Comments can be provided orally or in writing. The meeting is specifically tailored for the public to discuss relevant issues with the NRC and other stakeholders, to make comments, and ask questions throughout the meeting. Questions or concerns that cannot be resolved at the meeting will be assigned to a designated NRC staff person for action, but such comments will not otherwise constitute part of the decisional record.

Please contact Samson Lee no later than October 5, 2025, by phone at 301–415–3168 or by email at Samson.Lee@nrc.gov, if accommodations or special equipment are needed for you to attend or to provide comments, so that the NRC staff can determine whether the request can be accommodated.

For information regarding the meeting, Stakeholders should monitor the NRC’s Public Meeting Schedule website for information at <https://www.nrc.gov/public-involve/public-meetings/index.cfm>. The agenda will be posted no later than 10 days prior to the meeting.

Dated: September 24, 2025.

For the Nuclear Regulatory Commission.

Senior Project Manager, Plant Licensing Branch IV, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.
