

unmodified faunal bone, and unmodified shell. The cultural items have been at Sonoma State University since 2006.

A total of 515 lots of unassociated funerary objects were removed from CA-MRN-150 in Novato, California in Marin County. These cultural items were removed from the site during a PG&E project to remove an abandoned segment of pipeline that laid within the northern boundary of the site. Recovery of the cultural items were collected to evaluate the site's eligibility for both California Register of Historical Resources and National Register of Historical Places. The items include flaked stone tools, debitage, ground stone tools, historic material, unmodified faunal bone, and unmodified shell. The cultural items have been at Sonoma State University since 2013.

A total of one lot of sacred objects was removed from the Russian River Marin Water Project in Marin County California. No additional information was located on why the cultural items were removed from the site. The lot of cultural items are flaked stone and have been at Sonoma State University since 1973.

A total of two lots of sacred objects were removed from the Point Reyes Beach Site located in Marin County California. No additional information was located on why the items were removed from the site. The cultural items are flaked stone and have been at Sonoma State University since 1976.

A total of one lot of sacred objects was removed from CA-MRN-372, near Bolinas, California in Marin County. No additional information was located on why the cultural items were removed from the site. The lot of cultural items are flaked stone and have been at Sonoma State University since 1984.

A total of 400 lots of unassociated funerary objects were removed from CA-MRN-124, near Santa Venetia, California in Marin County. All documentation for this collection was not located during inventory verification, so no additional information was available on why the cultural items were removed from the site. The cultural items include modified faunal bone, modified shell, charcoal, clay, flaked stone lithics, debitage, unmodified faunal bone, ground stone tools, gravel, historic material, modified flaked stone tools, organic/seeds, petrified wood, projectile points, unmodified shell, and soil. The cultural items have been at Sonoma State University since 1970.

A total of three lots of sacred objects were removed from CA-MRN-532 and

CA-MRN-534H, near San Rafael, California in Marin County. No additional information was available on why the items were removed from the site. The cultural items are unmodified faunal bone and unmodified shell and have been at Sonoma State University since 1986.

A total of 77 lots of sacred objects were removed from CA-MRN-601, near Novato, California in Marin County. No additional information was available on why the items were removed from the site. The lots of items are flaked stone debitage, unmodified faunal bone, and historic material and have been at Sonoma State University since 1992.

In the case of missing cultural items, any additional items when located will also be repatriated from the collections discussed above. Based on records concerning the cultural items and the institution in which they are housed, there is no evidence of the items being treated with hazardous substances.

Determinations

The Sonoma State University has determined that:

- The 1,746 unassociated funerary objects described in this notice are reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization. The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- The 100 lots of sacred objects described in this notice are specific ceremonial objects needed by a traditional Native American religious leader for present-day adherents to practice traditional Native American religion, according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization.

- There is a connection between the cultural items described in this notice and the Federated Indians of Graton Rancheria, California.

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice

under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after October 29, 2025. If competing requests for repatriation are received, the Sonoma State University must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. The Sonoma State University is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3004 and the implementing regulations, 43 CFR 10.9.

Dated: September 18, 2025.

Melanie O'Brien,

Manager, National NAGPRA Program.

BILLING CODE 4312-52-P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Coal Mine Dust Sampling Devices

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before October 29, 2025.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Michael Howell by telephone at 202–693–6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION:

A Continuous Personal Dust Monitors (CPDM) determines the concentration of respirable dust in coal mines. A CPDM must be designed and constructed for coal miners to wear and operate without impeding their ability to perform their work safely and effectively, and must be durable to perform reliably in normal working conditions of coal mines. Paperwork requirements imposed on applicants are related to the application process and CPDM testing procedures. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 3, 2025 (90 FR 29577).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

Agency: DOL–MSHA.

Title of Collection: Coal Mine Dust Sampling Devices.

OMB Control Number: 1219–0147.

Affected Public: Private Sector.

Number of Respondents: 1.

Number of Responses: 1.

Annual Burden Hours: 41 hours.

Total Estimated Annual Other Costs Burden: \$301,810.

(Authority: 44 U.S.C. 3507(a)(1)(D))
