Basis of Bearing: GIS.

The use of a right-of-way, interagency agreement, or cooperative agreement would not adequately constrain non-discretionary uses which could impede DAF's construction, operating, and maintenance of the radar systems.

The DAF will satisfy water requirements by constructing two on-site groundwater wells, adjacent to each water supply building. A third well is required for backup.

The DAF identified, visited, and surveyed 16 potential sites in the region and found there are no suitable alternative sites based on the DAF's seven siting criteria areas (Mission, Schedule, Acquisition, Electromagnetic environment, Environmental impacts, Construction, and Supportability).

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the withdrawal application may present their views in writing to the BLM Oregon/Washington State Director at the address listed above in the **ADDRESSES** section.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives of officials of organizations or businesses, will be made available for public inspection in their entirety.

This withdrawal application will be processed in accordance with the

regulations set forth in 43 CFR part 2300.

Notice of Inventory Completion: California Department of Transportation, Oakland, CA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the California Department of Transportation (Caltrans) has completed an inventory of associated funerary objects and has determined that there is a cultural affiliation between the associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the associated funerary objects in this notice may occur on or after October 29, 2025.

ADDRESSES: Send written requests for repatriation of the associated funerary objects in this notice to Lindsay Busse and Althea Asaro, PQS Principal Investigators—Prehistoric Archaeology, California Department of Transportation, District 4, 111 Grand Avenue, Oakland, CA 94612, email lindsay.busse@dot.ca.gov and Althea.Asaro@dot.ca.gov.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of Caltrans, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

The 1,830 associated funerary objects are catalog entries representing lithics, soil samples, clay, charcoal, faunal remains, shell and beads; of the 1,830 associated funerary object catalogs, 83 catalog numbers are missing and

Caltrans and Sonoma State University (SSU) and San Francisco State University (SFSU) continue to look for them. These collections are primarily the result of archaeological investigations along Highway 101 in Novato in Marin County for Caltrans improvement projects between 1966 and 2005 at archaeological site CA–MRN–192 (Acc. #47–0 & 2005–3). There were known/documented potentially hazardous substances in the SFSU facility where cultural items were previously housed, which may have contaminated the housing (bags/boxes). This is currently remediated with personal protective equipment (PPE), but through consultation, the housing may be replaced before the transfer of custody.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the associated funerary objects described in this notice.

Determinations

Caltrans has determined that:

- The 1,830 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between associated funerary objects described in this notice and the Federated Indians of Graton Rancheria, California.

Requests for Repatriation

Written requests for repatriation of the associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the associated funerary objects described in this notice to a requestor may occur on or after October 29, 2025. If competing requests for repatriation are received, Caltrans must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the associated funerary objects are considered a single request and not competing requests.

Caltrans is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: September 18, 2025.
