FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1142; FR ID 314680]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information

collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before December 1, 2025. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1142.

Title: Electronic Tariff filing System (ETFS), WC Docket No. 10-141.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 1,307 respondents; 1,307 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion and annual reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 152, 154(i), 201-205, and 226(h)(1)(A) of the Communications Act of 1934, as amended.

Total Annual Burden: 1,307 hours.

Total Annual Cost: \$407,360.

Needs and Uses: Incumbent local exchange carriers (LECs) file their tariffs and associated documents electronically, using ETFS. ETFS has improved the usefulness of tariff filings for both filers and the public and made the tariff filing process more open, transparent, and efficient. On June 30, 2011, the Commission released a Report and Order, WC Docket No. 10-141, FCC 11-92, determining that the benefits of using ETFS for incumbent LEC tariff filings would also be obtained if all tariff filers filed electronically. Such action benefits the public and carriers by creating a central system providing online access to all carrier tariffs and related documents filed with the

Commission. As such, competitive LECs (and other nondominant carriers) must now file tariffs and associated documents electronically.

Federal Communications Commission.

Secretary, Office of the Secretary.

Sunshine Act; Open Commission Meeting Tuesday, September 30, 2025

September 23, 2025.

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Tuesday, September 30, 2025, which is scheduled to commence at 10:30 a.m. in the Commission Meeting Room of the

Federal Communications Commission, 45 L Street NE, Washington, DC.

While attendance at the Open Meeting is available to the public, the FCC headquarters building is not open access and all guests must check in with and be screened by FCC security at the main entrance on L Street. Attendees at the Open Meeting will not be required to have an appointment but must otherwise comply with protocols outlined at: www.fcc.gov/visit. Open Meetings are streamed live at: www.fcc.gov/live and on the FCC's YouTube channel.

Item No.	Bureau	Subject
1	Wireline Competition	<i>Title:</i> Accelerating Wireline Infrastructure Buildout (WC Docket No. 25-253). <i>Summary:</i> The Commission will consider a Notice of Inquiry that would examine whether state and local statutes, regulations, and legal requirements have an unlawful prohibitive effect on the provision of wireline telecommunications services, particularly through the imposition of excessive delays and fees that impede infrastructure deployments and disincentivize investments in them.
2	Wireless Telecommunications	<i>Title:</i> Freeing Wireless Infrastructure from Unlawful Regulatory Burdens (WT Docket No. 25-276). <i>Summary:</i> The Commission will consider a Notice of Proposed Rulemaking that advances its Build America Agenda by seeking comment on reforms that would free towers and other wireless infrastructure from unlawful regulatory burdens imposed at the state and local level.
3	Wireless Telecommunications	<i>Title:</i> Phone Jamming Solutions in Non-Federal Correctional Facilities (GN Docket No. 13-111). <i>Summary:</i> The Commission will consider a Third Further Notice of Proposed Rulemaking seeking comment on removing regulatory barriers to deployment and viability of existing and developing technologies that combat contraband wireless device use in correctional facilities.
4	Media	<i>Title:</i> Modernizing Broadcast Ownership Rules (MB Docket No. 22-459). <i>Summary:</i> The Commission will consider a Notice of Proposed Rulemaking that would advance the Commission's quadrennial regulatory review of its broadcast ownership rules and seek public comment on whether, given the current state of the media marketplace, it should retain, modify, or eliminate any of these rules.
5	Wireline Competition	<i>Title:</i> Deleting Obsolete and Duplicative Wireline Rules (GN Docket No. 25-133). <i>Summary:</i> The Commission will consider as part of the In re: Delete, Delete, Delete proceeding a Direct Final Rule that would move to delete nearly 400 primarily wireline-related rules and requirements that govern obsolete technology, are duplicative, and are no longer used in practice. These rules pertain to a wide variety of now-defunct topics including regulatory reporting requirements, distinctions between wireline carriers that are no longer applied, technology that has been eclipsed, and dates pertaining to pricing, universal service, pilot programs, and equipment requirements that have long ago passed.
6	Wireline Competition	<i>Title:</i> Modernizing the E-Rate Program for Schools and Libraries (WC Docket No. 13-184). <i>Summary:</i> The Commission will consider a Declaratory Ruling that would align E-Rate eligibility with section 254 of the Communications Act of 1934, as amended, and clarify that the provision of Wi-Fi, or other similar access point technologies, including the equipment needed to provide such service, on school buses is ineligible for E-Rate funding.
7	Wireline Competition	<i>Title:</i> Addressing the Homework Gap through the E-Rate Program (WC Docket No. 21-31). <i>Summary:</i> The Commission will consider an Order on Reconsideration that grants a petition for reconsideration and finds that section 254 of the Communications Act of 1934, as amended, does not permit the funding of off-premises use of Wi-Fi hotspots and Internet services and makes them ineligible for E-Rate support.
