c. The APX–123A Identification Friend-or-Foe (IFF) digital transponder set provides pertinent platform information in response to an IFF interrogator. The digital transponder provides cooperative Mark XII IFF capability using full diversity selection, as well as Mode Select capability. In addition, transponder operation provides interface capability with the aircraft's Traffic Collision and Avoidance System (TCAS). The transponder receives pulsed radio frequency interrogation signals in any of six modes (1, 2, 3/A, S, and 5), decodes the signals, and transmits a pulse coded reply. The Mark XII IFF operation includes Selective Identification Feature (SIF) Modes 1, 2, 3/A, and C, as well as secure cryptographic Mode 5 operational capability, available upon approval via the Communications Security (COMSEC) approval process.

d. The AN/ARC–231 (RT–1808A) VHF/UHF/LOS SATCOM radio is a software-definable radio for military aircraft that provides two-way, multi-mode voice and data communications in the 30 to 512 MHz frequency range. It covers both line-of-sight VHF and UHF bands with AM, FM, and SATCOM capabilities.

e. The AN/ARC–201D VHF frequency modulation Single Channel Ground and Airborne Radio System (SINCGARS) is a reliable, field-proven voice and data communication system used with the UH–60. A country-unique non-COMSEC export variant of this radio will be provided.

f. The AN/ARC–220 high frequency (HF) airborne communication system provides rotary-wing aircraft with advanced voice and data capabilities for short-and long-distance communications. The system is software programmable with a frequency range of 2–29.9999 MHz in 100-Hz steps and provides for embedded automatic link establishment (ALE), serial tone data modem, text messaging, global positioning system (GPS) position reporting, and electronic countermeasure functions.

g. The VRC–100 HF communication system is the ground station version of the AN/ARC–220 for use in aviation operation centers. It provides advanced voice and data capabilities for short-and long-distance communications. The system is software programmable with a frequency range of 2–29.9999 MHz in 100-Hz steps and provides embedded automatic link establishment (ALE), serial tone data modem, text messaging, GPS position reporting, and electronic countermeasure functions. The system is purchased with all required mounts, amplifiers, antennas, power supplies, and accessories.

h. The KY–100M is a self-contained terminal including COMSEC that provides for secure voice and data communications in air and ground tactical environments. It provides half-duplex, narrowband, and wideband communications. Flexible interfaces ensure compatibility with a wide range of voice, data, radio, and satellite equipment. The KY can support Type 1 cryptography.

i. The AN/PYQ–10 Simple Key Loader (SKL) is a ruggedized, portable, hand-held fill device for securely receiving, storing, and transferring data between compatible cryptographic and communications equipment. The AN/PYQ–10(C) SKL contains an embedded KOV–21 COMSEC card that performs cryptographic functions.

j. The KIV–77 IFF crypto applique provides cryptographic and time-of-day services for a Combined Interrogator/Transponder (CIT) or individual interrogator or transponder Mark XIIA (Mode 4 and Mode 5) IFF system deployed to identify cooperative, friendly systems.

k. The Embedded GPS/Inertial Navigation System (INS) (EGI) provides GPS and INS capabilities to the aircraft. The EGI will include Selective Availability Anti-Spoofing Module (SAASM) security for GPS precision positioning service, if required.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Government of Brazil can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Brazil.

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 24-42, concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Taipei Economic and Cultural Representative Office in the United States (TECRO) for defense articles and services estimated to cost $220 million. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

James A. Hursch
Director

Enclosures:
1. Transmittal
2. Policy Justification

Transmittal No. 24–42

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Taipei Economic and Cultural Representative Office in the United States (TECRO)

(ii) *Total Estimated Value:*

Major Defense Equipment *	$ 0
Other	$220 million
TOTAL	$220 million

Funding Source: National Funds

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):
None

Non-MDE:
Standard spare and repair parts, components, consumables, and accessories for F–16 aircraft; United States (U.S.) Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support.

(iv) *Military Department:* Air Force (TW–D–KDW)

(v) *Prior Related Cases, if any:* TW–D–KDV

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* None

(viii) *Date Report Delivered to Congress:* June 5, 2024

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office in the United States—F–16 Standard Spare and Repair Parts

The Taipei Economic and Cultural Representative Office in the United States (TECRO) has requested to buy standard spare and repair parts, components, consumables, and accessories for F–16 aircraft; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is $220 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96–8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's ability to meet current and future threats by maintaining the operational readiness of the recipient's fleet of F–16 aircraft. The recipient will

have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

This equipment will be transferred from U.S. Air Force stock. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the recipient.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
