

applicant's plan to implement the project.

Financial Viability and Examination Reports—Exam and supervisory information may be used during the analysis of the application. NCUA may assess a credit union's recent examinations or audit reports if a reviewer deems it necessary. Factors that will be considered include, but are not limited to: enforcement actions, any ongoing supervisory concerns, supervisory or oversight risks, declining financial position, and compliance risk. Exams may be used to determine the applicant's financial health and its ability to successfully manage a CDRLF grant.

Review and Selection Process

NCUA will determine the grant award amount as applicable for each application in accordance with the regulations at 12 CFR 705.7 and the evaluation process further explained in the 2025 CDRLF Grant Round Application Guidelines.

The agency will award funds to applications as noted above until the funds available are exhausted. Final award decisions are made by the Director of the Office of Credit Union Resources and Expansion (CURE) or their designee.

Risk Review

NCUA will perform a risk assessment as required by 2 CFR 200.206.

Award Notices

NCUA will notify all applicants of its funding decision by email to the contacts designated in the application after completion of its review. Eligible pre-award costs are allowed; additional detail regarding those costs will be provided in the 2025 CDRLF Grant Round Application Guidelines. The Notice of Federal Award notifies the grant applicant that their application was selected for award. The notice of Federal award is signed by the grants officer, or equivalent, and is the official document that obligates program funds. This notice will be provided through electronic means to the point of contact designated in the application. The Authorized Credit Union Official must review, electronically certify, and submit the Grant Agreement to accept the CDRLF award by the provided deadline in the notice of Federal Award. Failure to do so may result in the withdrawal of the grant award from the awardee. In addition, NCUA will announce the successful applications through a press release that includes a list of the awardees. Applicants that are approved for funding will also receive

instructions on how to proceed with the post-award activities including submission of payment request and performance reports.

Post-Award Requirements and Administration

Important: The Terms and Conditions, including administrative and national policy requirements, are in the 2025 Grant Application Round Guidelines.

Reporting

Awardees must follow annual reporting requirements stated in 12 CFR 705.9(b) and submit performance reports as detailed in the 2025 CDRLF Grant Round Application Guidelines.

All post-award activities are to be completed online using CyberGrants, NCUA's grant management system.

Other Information

In addition to funding available under this NOFO, NCUA provides funding to LIDs through the CDRLF Revolving Loan and Urgent Need Grant initiatives. More information can be found in the Grants and Loans section of the agency's website.

By the National Credit Union Administration Board.

Melane Conyers-Ausbrooks,
Secretary of the Board.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register**, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting

“Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314, or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Comments: Comments regarding (a) whether the proposed collection of information is necessary for the proper performance of the functions of the NSF, including whether the information shall have practical utility; (b) the accuracy of the NSF's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information on respondents; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to the points of contact in the **FOR FURTHER INFORMATION CONTACT** section.

Copies of the submission may be obtained by calling 703-292-7556. NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number, and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION: NSF may not conduct or sponsor a collection of information unless (a) the collection of information displays a currently valid OMB control number and (b) the agency informs potential respondents that they are not required to respond unless the information collection displays a currently valid OMB control number.

Title of Collection: NCSES Generic Clearance for Improvement Projects.

OMB Control Number: 3145-0174.

Type of Request: Intent to seek approval to reinstate, with revisions, an information collection for three years.

Abstract. Established within the National Science Foundation by the America COMPETES Reauthorization Act of 2010 § 505, codified in the National Science Foundation Act of

1950, as amended, the National Center for Science and Engineering Statistics (NCSES)—one of 13 principal federal statistical agencies—serves as a central Federal clearinghouse for the collection, interpretation, analysis, and dissemination of objective data on science, engineering, technology, research and development for use by practitioners, researchers, policymakers, and the public. NCSES conducts about a dozen nationally-representative surveys to obtain the data for these purposes. The Generic Clearance will be used to ensure that the highest quality data are obtained from these surveys. State of the art methodology will be used to develop, evaluate, and test questionnaires and survey concepts as well as to research and improve survey and statistical methodologies. This may include field or pilot tests of questions for future large-scale surveys, as needed.

The Generic Clearance will also be used to test and evaluate data dissemination tools and methods in an effort to improve access for data users.

Use of the Information. The purpose of these studies is to use the latest and most appropriate methodology to improve NCSES surveys, evaluate new data acquisition and collection efforts, and evaluate data dissemination tools and mechanisms. Methodological findings may be presented externally in technical papers at conferences, published in the proceedings of conferences, or in journals. Improved NCSES surveys, data collections, data procurement, and data dissemination will help policymakers in decisions on research and development funding, graduate education, and the scientific and engineering workforce, as well as contributing to reduced survey costs.

Expected Respondents. The respondents will be from industry,

academia, nonprofit organizations, the public, and State, local, and Federal governments. Respondents will be either individuals or institutions, depending on the topic under investigation. NCSES expects to use both qualitative and quantitative procedures, in various modes (e.g., in-person, telephone, web). Up to 20,400 respondents will be contacted across all projects. No respondent will be contacted more than twice in one year under this generic clearance. Every effort will be made to use technology to limit the burden on respondents from small entities.

Estimate of Burden. NCSES estimates that a total reporting and recordkeeping burden of 12,200 hours will result from activities to improve its survey collections and data dissemination tools. The calculation is shown in the following table:

| Collection type | Respondents | Total burden (hours) | Annualized burden (hours) |
|---|---------------|----------------------|---------------------------|
| R&D Enterprise Surveys | 800 | 1,050 | 350 |
| Science and Engineering Workforce Surveys | 6,300 | 1,725 | 575 |
| STEM Education Surveys | 800 | 1,000 | 334 |
| Data Dissemination Tools and Methods | 2,500 | 425 | 142 |
| Other surveys and projects not specified | 10,000 | 8,000 | 2,667 |
| Total | 20,400 | 12,200 | 4,067 |

Dated: September 29, 2025.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Center for Science and Engineering Statistics, National Science Foundation.

ACTION: Notice.

SUMMARY: The National Center for Science and Engineering Statistics (NCSES) within the National Science Foundation (NSF) is seeking approval to renew the SAP Portal information collection as a Common Form, OMB control number 3145-0271, to permit other federal agency users to streamline the information collection in coordination with OMB. This is the second notice for public comment. The first notice was published in the **Federal Register** and NCSES did not receive any comments. NCSES is forwarding the proposed SAP Portal information

collection as a Common Form to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission may be found at: <http://www.reginfo.gov/public/do/PRAMain>.

DATES: Written comments on this notice must be received by October 31, 2025 to be assured of consideration. Comments received after that date will be considered to the extent practicable. Send comments to the address below.

Comments: Comments are invited on (a) whether the collection of information is necessary for the proper performance of the functions of the federal statistical agencies, including whether the information has practical utility; (b) the accuracy of the NSF's estimate of the burden of the proposed collection of information; (c) ways to enhance the existing SAP Portal to improve the user experience; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725 17th Street NW, Room 10235, Washington, DC 20503, and Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314, or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Copies of the submission may be obtained by calling 703-292-7556.

SUPPLEMENTARY INFORMATION: The Foundations for Evidence-Based Policymaking Act of 2018 mandates that OMB establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. While the adoption of the SAP is required for statistical agencies and units designated under CIPSEA, it is recognized that other agencies and organizational units within the Executive branch may benefit from the adoption of the SAP to accept applications for access to confidential
