Endangered Species; Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received applications for permits to conduct scientific research to promote conservation or other activities intended to enhance the propagation or survival of endangered and threatened species under the Endangered Species Act (ESA). We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive written data or comments on the applications by October 31, 2025.

ADDRESSES:

Reviewing Documents: Submit requests for copies of applications and other information submitted with the applications to permitsr4es@fws.gov (see **FOR FURTHER INFORMATION CONTACT**). All requests and comments should specify the applicant's name and application number (e.g., Mary Smith, ESPER0001234).

Submitting Comments: If you wish to comment, you may submit comments by one of the following methods:

- **Email (preferred method):**

permitsr4es@fws.gov. Please include your name and return address in your email message. If you do not receive a confirmation from the U.S. Fish and Wildlife Service that we have received your email message, contact us directly at the telephone number listed in **FOR FURTHER INFORMATION CONTACT**.

- **U.S. mail:** U.S. Fish and Wildlife

Service Regional Office, Ecological Services, 1875 Century Boulevard, Atlanta, GA 30345 (Attn: Kaye London, R4 Recovery Permit Coordinator).

FOR FURTHER INFORMATION CONTACT:

Kaye London via telephone at 404-679-7097 or via email at permitsr4es@fws.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), invite review and comment from the public and local, State, Tribal, and Federal agencies on applications we have received for permits to conduct certain activities with endangered and threatened species under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and our regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17. Documents and other information submitted with the applications are available for review,

subject to the requirements of the Privacy Act of 1974, as amended (5 U.S.C. 552a), and the Freedom of Information Act (5 U.S.C. 552).

Background

With some exceptions, the ESA prohibits take of listed species unless a Federal permit is issued that authorizes such take. The definition of "take" in the ESA includes hunting, shooting, harming, wounding, or killing, and also such activities as pursuing, harassing, trapping, capturing, or collecting, or attempting to engage in any such conduct.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to take endangered or threatened species while engaging in activities that are conducted for scientific purposes that promote recovery of species or for enhancement of propagation or survival of species. These activities often include the capture and collection of species, which would result in prohibited take if a permit were not issued. Our regulations implementing section 10(a)(1)(A) of the ESA for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies, and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies. Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild.

Public Availability of Comments

Written comments that we receive will become part of the administrative record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Next Steps

After the comment period closes, we will make decisions regarding permit issuance. If we issue any of the requested permits, we will publish a subsequent notice in the **Federal Register**. The notice announcing the permit issuance may be located by searching <https://www.regulations.gov> for the application number listed above in this document. Enter the search exactly as the application number appears above, with spaces and hyphens as necessary. For example, to find information about the potential issuance of Permit No. PER 1234567-0, go to <https://www.regulations.gov> and enter "PER 1234567-0" in the Search field.

An interested party opposed to our issuance of a recovery permit may object by following the requirements in 50 CFR 17.22(d). The Service will notify the interested party of the Service's decision on the permit application under that section.

Authority

We publish this notice under section 10(c) of the Endangered Species Act of

1973, as amended (16 U.S.C. 1531 *et seq.*).

Christopher Cooley,

Deputy Assistant Regional Director,
Ecological Services, USFWS Southeast Region.

Receipt of Three Incidental Take Permit Applications for Participation in the General Conservation Plan for the Alabama beach mouse; Categorical Exclusion; Baldwin County, AL

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of three separate incidental take permit (ITP) applications under the Endangered Species Act (ESA): New Era Development, LLC; Daniel Kruse; and Tamyara Gryner (applicant/applicants), under the approved general conservation plan (GCP) and final environmental impact statement (FEIS) for the Alabama beach mouse (ABM; *Peromyscus polionotus ammobates*). A GCP is a mechanism that meets the definition of a conservation plan in section 10(a)(1)(B) of the ESA and enables the programmatic permitting and conservation process to address a defined suite of proposed activities over a defined planning area. Each of the applicants request an ITP to take the federally listed ABM incidental to construction in Baldwin County, Alabama. We request public comment on these applications, which include the applicants' proposed habitat conservation plan (HCP) and on the

Service's preliminary determination that each of the proposed permitting actions qualifies under the terms of the ABM GCP. We certify that the applications received are statutorily complete and include the necessary information to enroll in the GCP.

DATES: We must receive your written comments on or before October 31, 2025.

ADDRESSES:

Obtaining Documents: The documents this notice announces, as well as any comments and other materials that we receive, will be available for public inspection online in Docket No. FWS-R4-ES-2025-0770 at <https://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by one of the following methods:

- *Online:* <https://www.regulations.gov>

Follow the instructions for submitting comments on Docket No. FWS-R4-ES-2025-0770.
