Proposed Settlement Agreement, Clean Air Act Petition for Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement agreement; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (“CAA” or “the Act”), notice is given of a proposed settlement agreement to address two petitions for review filed by the Mojave Desert Air Quality Management District (“MDAQMD” or “the District”) in the U.S. Court of Appeals for the Ninth Circuit: *Mojave Desert Air Quality Management District v. EPA*, No. 25–659 (9th Cir.), and *Mojave Desert Air Quality Management District v. EPA*, No. 25–1684 (9th Cir.). MDAQMD filed case number 25–659 on January 31, 2025, and case number 25–1684 on March 13, 2025. Both petitions pertain to Nonattainment New Source Review permitting requirements that apply in the Mojave Desert area under the CAA. The EPA is providing notice of this proposed settlement agreement, which would resolve both of MDAQMD's

petitions for review as specified in the proposed agreement.

DATES: Written comments on the proposed settlement agreement must be received by November 3, 2025.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–OGC–2025–1708, online at <https://www.regulations.gov> (EPA’s preferred method). Follow the online instructions for submitting comments.

II. Additional Information About the Proposed Settlement Agreement

On January 31, 2025, MDAQMD filed a petition for review in the Ninth Circuit Court of Appeals of the EPA’s final action titled, “Federal Implementation Plan for Nonattainment New Source Review Program; Mojave Desert Air Quality Management District, California,” published at 89 FR 106332 (December 30, 2024).¹ On March 13, 2025, MDAQMD filed a second petition for review in the Ninth Circuit Court of Appeals asking the Court to “vacate the Offset Sanctions” that applied in the Mojave Desert nonattainment area starting January 31, 2025 as a result of a separate final action taken by the EPA on June 30, 2023, also pertaining to Nonattainment New Source Review requirements.²

Under the terms of the proposed settlement agreement, the MDAQMD agrees to file a pleading for dismissal with prejudice of both petitions if: (1) the EPA takes final action to conditionally approve the MDAQMD rules submitted to the EPA on August 7, 2024;³ (2) the EPA takes final action to fully approve a revision to MDAQMD Rule 1304(C)(2)(d), as described in the settlement agreement; and (3) no petition for review of either of these final actions is filed within sixty days of their respective publications in the **Federal Register**.⁴

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed settlement agreement from persons who were not named as parties to the litigation in question. The EPA or the Department of Justice may withdraw or withhold consent to the proposed settlement agreement if the comments disclose facts or considerations that indicate that the agreement is inappropriate, improper, inadequate, or inconsistent with the requirements of

⁴ The proposed settlement agreement states that if a petition for review is filed within sixty days of publication in the **Federal Register**, other than by the MDAQMD, the MDAQMD “may choose to delay requesting the dismissal with prejudice of case numbers 25–659 and 25–1684 until after the petition(s) for review of the final rule(s) is/are resolved.”

the Act. Unless the EPA or the Department of Justice determines that the settlement agreement should be withdrawn or withheld, the terms of the agreement will be affirmed.

Revision of Approved State Primacy Program for the Navajo Nation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of approval.

SUMMARY: Notice is hereby given that the Navajo Nation revised its approved State primacy program under the federal Safe Drinking Water Act (SDWA) by adopting regulations that effectuate the federal Public Notification Rule (PNR). The Environmental Protection Agency (EPA) has determined that Navajo Nation's revision request meets the applicable SDWA program revision requirements and the regulations adopted by Navajo Nation are no less stringent than the corresponding federal regulations. Therefore, EPA approves this revision to Navajo Nation's approved State primacy program. However, this determination on Navajo Nation's request for approval of a program revision shall take effect in accordance with the procedures described below in the **SUPPLEMENTARY INFORMATION** section of this document after the opportunity to request a public hearing.

DATES: A request for a public hearing must be received or postmarked before November 3, 2025.

ADDRESSES: Documents relating to this determination that were submitted by Navajo Nation as part of its program

revision request are available for public inspection online at <https://www.navajoepa.org>, or available upon request by emailing ybarney@navajonnsn.gov. Should you have difficulty accessing the website, please contact Yolanda Barney, Navajo Nation PWSS Program, via email at ybarney@navajonnsn.gov.

FOR FURTHER INFORMATION CONTACT: Jake Jenzen, EPA Region 9, Drinking Water Section; via telephone number: (415) 972-3570 or via email address: jenzen.jacob@epa.gov.

SUPPLEMENTARY INFORMATION:

Background

EPA approved Navajo Nation's initial application for primary enforcement authority ("primacy") of drinking water systems on November 6, 2000 (65 FR 66541). Since initial primacy approval, EPA has approved various revisions to Navajo Nation's primacy program. For the revision covered by this action, EPA promulgated/revised the PNR at 40 CFR part 141, subpart Q on May 4, 2000 (67 FR 25982). EPA has determined that Navajo Nation has adopted into state law PNR requirements that are comparable to and no less stringent than the federal requirements. EPA has also determined that the State's program revision request meets all of the regulatory requirements for approval, as set forth in 40 CFR 142.12, including a side-by-side comparison of the Federal requirements demonstrating the corresponding State authorities, additional materials to support special primacy requirements of 40 CFR 142.16, a review of the requirements contained in 40 CFR 142.10 necessary for States to attain and retain primary enforcement responsibility, and a statement by the Navajo Nation Attorney General certifying that Navajo Nation's laws and regulations to carry out the program revision were duly adopted and are enforceable. The Attorney General's statement also affirms that there are no environmental audit privilege and immunity laws that would impact Navajo Nation's ability to implement or enforce the Navajo Nation laws and regulations pertaining to the program revision. Therefore, EPA approves this revision of Navajo Nation's approved State primacy program. The Technical Support Document, which provides EPA's analysis of Navajo Nation's program revision request, is available by submitting a request to the following email address: R9dw-program@epa.gov. Please note "Technical Support Document" in the subject line of the email.
