Title: Bank Secrecy Act/Money Laundering Risk Assessment.

OMB Control No.: 1557–0231.

Type of Review: Regular.

Affected Public: Businesses or other for-profit.

Description: The MLR System enhances the ability of examiners and bank management to identify and evaluate Bank Secrecy Act/Money Laundering and Office of Foreign Asset Control (OFAC) sanctions risks associated with banks’ products, services, customers, and locations. As new products and services are introduced, existing products and services change, and banks expand through mergers and acquisitions, banks’ evaluation of money laundering and terrorist financing risks should evolve as well. Consequently, the MLR risk assessment is an important tool for the OCC’s Bank Secrecy Act/Anti-Money Laundering and OFAC supervision activities because it allows the agency to better identify those institutions, and areas within institutions, that pose heightened risk and allocate examination resources accordingly. This risk assessment is critical for protecting U.S. financial institutions of all sizes from potential abuse from money laundering and terrorist financing. An appropriate risk assessment allows applicable control to be effectively implemented for the lines of business, products, or entities that would elevate Bank Secrecy Act/Money Laundering and OFAC compliance risks.

The OCC will collect MLR information for community banks and trust banks supervised by the OCC. The OCC’s annual Risk Summary Form (RSF) is fully automated making data entry quick and efficient and providing an electronic record for all parties. For 2025, the RSF will include three significant changes to the products, services, and customers (PSCs) collected:

1. The addition of one new PSC: bank-fintech partnerships.
2. The deletion of one existing PSC: payable through accounts.
3. The consolidation of fourteen existing PSCs into the following seven: Payable Upon Proper Identification (PUPID) wire transfers (domestic and international), foreign/international remote deposit capture, prepaid card program managers and providers, reloadable prepaid cards and card
