

FAR Council for public comment in 2026. As a part of its review, DOT will consider revising and removing content where needed, adding agency-level statutory requirements, as required, and revising subpart and section numbering in each TAR part to align with new FAR parts. To implement this initiative and to comply with Executive Order 14275 of April 15, 2025, “Restoring Common Sense to Federal Procurement,” and OMB Memorandum M–25–26, “Overhauling the Federal Acquisition Regulation,” May 2, 2025, DOT is conducting a concurrent rigorous review of the TAR to streamline and update coverage, where appropriate or to remove content to internal agency procedures. DOT anticipates there may be substantive revisions to the TAR, revisions to current Code of Federal Regulations (CFR) solicitation provisions and contract clauses under Title 48, CFR chapter 12 (the TAR), part 1252. This may include potential reductions in information collection requirements and burden under this approved OMB control number. This review and update will be worked by OSPE in conjunction with the Office of Information Technology after appropriate benchmarking and analysis of statutory and other requirements.

DOT requires an extension of the current information collection requirements currently in the TAR at 48 CFR chapter 12 until this analysis is completed, and a proposed TAR rule is developed and published in the **Federal Register** for public comment, anticipated later in 2026.

The summary below describes the ICRs that DOT will submit for OMB clearance as the PRA requires:
