Abstract: The New Source Performance Standards (NSPS) for Stationary Combustion Turbines (40 CFR part 60, subpart KKKK) were proposed on February 18, 2005, and promulgated on July 6, 2006. These regulations apply to new stationary combustion turbines with a heat input at peak load equal to or greater than 10.7 gigajoules (10 MMBtu) per hour, based on the higher heating value of the fuel. New facilities include those that commenced construction, modification or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subpart KKKK.

In general, all NSPS standards require initial notifications, performance tests,

and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities:

Stationary combustion turbines.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart KKKK).

Estimated number of respondents: 1,030 (total).

Frequency of response: Initially, semiannually, annually.

Total estimated burden: 106,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$14,500,000 (per year). There are no capital or operation & maintenance costs.

Changes in the Estimates: The increase in burden from the most recently approved ICR is due to an increase in the number of new or modified sources. This ICR updates the number of affected sources subject to the regulation based on an assumption that the industry continues to grow at a similar rate as the previous renewal and based on current estimates and Agency consultations. There are no capital or operation and maintenance costs associated with this regulation.

Director, Information Engagement Division.
