SUPPLEMENTARY INFORMATION: The Office of Personnel Management, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. chapter 35), provides the public with an opportunity to comment on proposed, revised, and continuing collections of information. It also helps the public understand the Agency's information collection requirements and provide the requested data in the desired format. This information collection was previously published in the **Federal Register** on June 25, 2025, 90 FR 27058, and closed August 25, 2025. One (1) comment was received. The commenter recommended not delaying the implementation of the national healthcare system after experiencing denial of a claim for medical services. OPM has determined this comment is outside the scope of the ICR.

OPM is soliciting comments on behalf of OMB for the proposed information collection request (ICR) that is described below. The Office of Management and Budget is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Abstract

OPM uses the CAHPS results as part of the FEHB Plan Performance Assessment (PPA). The PPA enables a consistent, objective evaluation of carrier performance and also provides more transparency for enrollees. This assessment uses a discrete set of quantifiable measures to examine key aspects of performance in the areas of clinical quality, customer service and resource use. Six CAHPS measures are part of this discrete set of quantifiable measures.

Taken together with more traditional assessments of contract administration, these measures help ensure that enrollees receive high quality affordable healthcare and a positive customer experience. The PPA is linked to carrier profit and adjustment factors. FEHB contracts include language to incorporate the PPA as a determinant of the Service Charge or Performance Adjustment.
