

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after December 17, 2025. If competing requests for repatriation are received, the TDEC–DOA must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The TDEC–DOA is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

**Authority:** Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: September 18, 2025.

#### National Register of Historic Places; Notification of Pending Nominations and Related Actions

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** The National Park Service is soliciting electronic comments on the significance of properties nominated before September 13, 2025, for listing or related actions in the National Register of Historic Places.

**DATES:** Comments should be submitted electronically by December 2, 2025.

**ADDRESSES:** Comments are encouraged to be submitted electronically to [National\\_Register\\_Submissions@nps.gov](mailto:National_Register_Submissions@nps.gov) with the subject line “Public Comment on <property or proposed district name, (County) State>.” If you have no access to email, you may send them via U.S. Postal Service and all other carriers to the National Register of Historic Places, National Park Service, 1849 C Street NW, MS 2013, Washington, DC 20240.

**FOR FURTHER INFORMATION CONTACT:** Sherry A. Frear, Chief, National Register of Historic Places/National Historic Landmarks Program, 1849 C Street NW, MS 2013, Washington, DC 20240, [sherry.frear@nps.gov](mailto:sherry.frear@nps.gov), 202–913–3763.

**SUPPLEMENTARY INFORMATION:** The properties listed in this notice are being considered for listing or related actions in the National Register of Historic Places. Nominations for their consideration were received by the National Park Service before September 13, 2025. Pursuant to Section 60.13 of 36 CFR part 60, comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Nominations submitted by State or Tribal Historic Preservation Officers.

**Key:** State, County, Property Name, Multiple Name (if applicable), Address/Boundary, City, Vicinity, Reference Number.

#### Notice of Inventory Completion: U.S. Army Corps of Engineers, San Francisco District, San Francisco, CA

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the U.S. Army Corps of Engineers, San Francisco District has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

**DATES:** Repatriation of the human remains and associated funerary objects in this notice may occur on or after December 17, 2025.

**ADDRESSES:** Send written requests for repatriation of the human remains and associated funerary objects in this notice to Dr. Stephanie Bergman Sahinoglu, Cultural Resources Lead, U.S. Army Corps of Engineers, San Francisco District, 450 Golden Gate Avenue, 4th Floor, San Francisco, CA 94102, email [stephanie.m.bergman@usace.army.mil](mailto:stephanie.m.bergman@usace.army.mil).

**SUPPLEMENTARY INFORMATION:** This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the U.S. Army Corps of Engineers, San Francisco District, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

#### Abstract of Information Available

Human remains representing, at least, one individual were removed from CA-SON-544 (Serene Flat Site) in Sonoma County, California in 1979. The 1,655 associated funerary objects are: 155 pieces plus nine lots of chertdebitage, 14 chert flakes, 19 chert pieces, three chert projectile points, five chert tools, 14 column samples, 421 fragments plus seven lots faunal remains (16 fragments have not yet been located), two pieces of groundstone, 405 pieces plus four lots of lithicdebitage, four pieces of mixed metal and glass, two metal nails, 485 pieces plus 14 lots of obsidiandebitage, 13 obsidian flakes (eight obsidian flakes have not yet been located), two obsidian pieces, one obsidian projectile point, one piece of polished bone, eight projectile points, 50 pieces plus two lots of quartz, 11 pieces of shell, and two individual samples plus two lots of soil samples. Site CA-SON-544 is a multi-component site dating from the Dry Creek Phase (500 B.C.—A.D. 1500) through the Smith Phase (A.D. 1300—historic contact).

A total of 326 associated funerary objects were removed from CA-SON-547 (Broken Bridge Site) in Sonoma County, California in 1979. The 326 associated funerary objects are: two botanic samples, two samples plus nine lots of charcoal samples, three pieces of chert, three chert cores, 113 pieces of chertdebitage, six individual flakes plus seven lots of chert flakes, four chert projectile points, 12 chert tools, 39 fragments plus three lots of faunal remains, two pieces of groundstone, one lithic core, 24 pieces of lithicdebitage, 12 individual plus two lots of lithic flake tools, 10 lithic tools, four pieces of metal, five pieces of obsidiandebitage, 11 individual plus seven lots of obsidian flakes, 10 obsidian pieces, four obsidian projectile points, one obsidian tool, one piece of ochre, one lot of quartz cores and flakes, three pieces of quartzdebitage, 22 individual plus one lot of quartz flakes, one lot of rock, and one piece of shell. Site CA-SON-547 was a well-developed midden site and

dates from the Skaggs Phase (3000–500 B.C.) through the Smith Phase (A.D. 1300—historic contact).

A total of 74 associated funerary objects were removed from site CA-SON-553 (Double Black-Dirt Delta Site) in Sonoma County, California in 1979. The 74 associated funerary objects include: two charcoal samples, two pieces of chert, 32 pieces of chertdebitage, one chert flake, two chert tools, 27 faunal remains, one piece of obsidian, six pieces of obsidiandebitage, and one obsidian projectile point. Site CA-SON-553 was a midden site and dates to the Smith Phase (A.D. 1300—historic contact).

Human remains representing, at least, one individual were removed from CA-SON-568 (Smiley Site) in Sonoma County, California in 1979. The 3,834 associated funerary objects are: six botanical samples, five charcoal samples (one sample has not yet been located), one lot of clam shell disc beads, 228 faunal remains, 36 glass and ceramic beads (these beads have not yet been located), 3,554 glass beads (these beads have not yet been located), and four pieces of obsidiandebitage. Site CA-SON-568 was described as containing housepits and middens and dates to the Smith Phase (A.D. 1300—historic contact).

Human remains representing, at least, one individual were removed from CA-SON-572 (Banded Rock Pool Site) in Sonoma County, California in 1979. The 1,207 associated funerary objects are: 20 charcoal samples, three pieces of chert, one chert biface, five chert cores (one core has not yet been located), 764 pieces plus 27 lots of chertdebitage (109 pieces have not yet been located), six chert flakes, two lots of chert shatter, five chert tools, 42 fragments plus 19 lots of faunal remains, six pieces of groundstone, three lithic cores, eight pieces plus 12 lots of lithicdebitage, one lithic flake, three lithic tools, five pieces of obsidian, 219 pieces plus 17 lots of obsidiandebitage (15 pieces have not yet been located), 22 obsidian flakes, one obsidian projectile point, three obsidian tools (one tool has not yet been located), eight pieces of ochre, two individual plus two lots of soil samples, and one cooking stone. Site CA-SON-572 was a midden site dating from the Skaggs Phase (2500–500 B.C.) through the Smith Phase (A.D. 1300—historic contact).

Human remains representing, at least, one individual were removed from CA-SON-576 (Sheep Shearing Site) in Sonoma County, California in 1981. The 354 associated funerary objects are: three botanic samples, 19 individual samples plus two lots of charcoal, three

chert cores, 147 pieces plus 16 lots of chertdebitage, one chert flake, 53 fragments plus 18 lots of faunal remains, one lot of flotation samples, five pieces of obsidian, 57 pieces plus 15 lots of obsidiandebitage, one obsidian projectile point, three obsidian tools, one piece of quartzdebitage, one rock, and four individual plus four lots of soil samples. Site CA-SON-576 dates from the Dry Creek Phase (500 B.C.—A.D. 1500) through Smith Phase (A.D. 1300—historic contact).

Human remains representing, at least, two individuals were removed from CA-SON-593I (Treganza Sites 3 and 4) in Sonoma County, California in 1980 and 1981. The 203 associated funerary objects are: two individual and seven lots of charcoal samples, 19 pieces plus four lots of chertdebitage, three chert flakes, one chert tool, 111 fragments plus 10 lots of faunal remains, one piece of groundstone, nine pieces plus five lots of obsidiandebitage, 12 obsidian flakes, two obsidian projectile points, one obsidian tool, one piece of ochre, two quartz tools, and 11 fragments plus two lots of shell. Site CA-SON-593I has been described as a large village site and dates to the Smith Phase (A.D. 1300—historic contact).

A total of 218 associated funerary objects were removed from site CA-SON-597 (Treganza 7 Site) in Sonoma County, California in 1975. The 218 associated funerary objects include: one .22 caliber bullet, four charcoal samples, three chert and obsidian flakes, 78 pieces plus nine lots of chertdebitage, one chert flake, 37 faunal remains, seven lots of flotation samples, 71 pieces plus four lots of obsidiandebitage, one obsidian flake, one obsidian projectile point, and one quartz flake. Site CA-SON-597 has been dated to the Smith Phase (A.D. 1300—historic contact).

#### Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the human remains and associated funerary objects described in this notice.

#### Determinations

The U.S. Army Corps of Engineers, San Francisco District has determined that:

- The human remains described in this notice represent the physical remains of six individuals of Native American ancestry.
- The 7,871 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of

death or later as part of the death rite or ceremony.

- There is a connection between the human remains and associated funerary objects described in this notice and the Cloverdale Rancheria of Pomo Indians of California; Dry Creek Rancheria Band of Pomo Indians, California; and the Kashia Band of Pomo Indians of the Stewarts Point Rancheria, California.

### Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after December 17, 2025. If competing requests for repatriation are received, the U.S. Army Corps of Engineers, San Francisco District must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The U.S. Army Corps of Engineers, San Francisco District is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.

**Authority:** Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: September 25, 2025.

### Notice of Intended Repatriation: Sonoma State University, Rohnert Park, CA

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Sonoma State University intends to repatriate certain cultural items that meet the definition of unassociated funerary objects and that have a cultural affiliation with the Indian Tribes or Native Hawaiian organizations in this notice.

**DATES:** Repatriation of the cultural items in this notice may occur on or after December 17, 2025.

**ADDRESSES:** Send additional, written requests for repatriation of the cultural items in this notice to Elise-Alexandria Green, Sonoma State University, 1801 East Cotati Avenue, Rohnert Park, CA 94928, email [greeneli@sonoma.edu](mailto:greeneli@sonoma.edu).

**SUPPLEMENTARY INFORMATION:** This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Sonoma State University, and additional information on the determinations in this notice, including the results of consultation, can be found in the summary or related records. The National Park Service is not responsible for the determinations in this notice.

### Abstract of Information Available

A total of 207 cultural items have been requested for repatriation.

A total of three unassociated funerary objects were taken from CA-SON-350. This site is located just north of Duncans Point in Sonoma County, California. These cultural items were collected during an archaeological survey. The cultural items are obsidian tools. The cultural items have been housed at Sonoma State University since 1978 under Accession Number 78-03.

A total of two unassociated funerary objects were taken from CA-SON-1186 during a cultural resource survey. This site is located just north of the Russian River in Forestville, California. The cultural items are modified obsidian and a chert flake. The cultural items

have been housed at Sonoma State University since 1979 under Accession Number 79-03.

A total of nine unassociated funerary objects were taken from CA-SON-1328 during a property survey. This site is located west of the Atascadero Creek in Forestville, California. The cultural items are modified obsidian and obsidian flakes. The cultural items have been housed at Sonoma State University since 1981 under Accession Number 81-01.

A total of 81 unassociated funerary objects were taken from CA-SON-1512H, CA-SON-1513, and CA-SON-1514. These sites are located just south of Jenner, California in Sonoma County, near the Russian River. The cultural items were taken during a cultural resource survey performed by the Anthropological Studies Center for the Department of Parks and Recreation. The cultural items include groundstone tools, chert flakes, historic material, obsidian flakes, quartzite, and obsidian projectile points. The cultural items have been housed at Sonoma State University since 1989 under Accession Number 89-02.

A total of 112 unassociated funerary objects were taken from CA-SON-1534. This site is located near Forestville, California in Sonoma County. The cultural items were taken during an investigation of the area due to the Sonoma County Department of Public Works planning to build a wastewater storage reservoir in an area that encompasses the site. Obsidian hydration dating suggests that the site was occupied from 3000 years ago to 150 years ago as of 1989. The cultural items include modified obsidian, modified chert, debitage, groundstone tools, clay, faunal bone, and historic material. The cultural items have been housed at Sonoma State University since 1986 under Accession Number 86-01.

Based on records concerning the sacred objects, objects of cultural patrimony, and the institution in which they are housed, there is no evidence of the cultural items being treated with hazardous substances.

### Determinations

The Sonoma State University has determined that:

- The 207 unassociated funerary objects described in this notice are reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a
