Abstract of Information Available

A total of 33 cultural items from CA-SON-547, CA-SON-556, CA-SON-568, CA-SON-571, CA-SON-593, CA-SON-597, CA-SON-608, and Preston Lake have been requested for repatriation. The 33 unassociated funerary objects are soil and charcoal samples. All of these samples were likely removed as part of

the U.S. Army Corps of Engineers (USACE) Warm Springs Dam project, but whether all were removed from USACE-controlled property is unclear. Ultimately, because the matter of control is unclear, this notice is being submitted cooperatively by the USACE San Francisco District and University of California, Riverside.

Determinations

The U.S. Army Corps of Engineers, San Francisco District and the University of California, Riverside has determined that:

- The 33 unassociated funerary objects described in this notice are reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization. The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- There is a connection between the cultural items described in this notice and the Cloverdale Rancheria of Pomo Indians of California; Dry Creek Rancheria Band of Pomo Indians, California; and the Kashia Band of Pomo Indians of the Stewarts Point Rancheria, California.

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after December 17, 2025. If competing requests for repatriation are received, the U.S. Army Corps of Engineers, San Francisco District and the University of California, Riverside must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not

competing requests. The U.S. Army Corps of Engineers, San Francisco District and the University of California, Riverside is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.
