

logistics support services; and other related elements of logistics and program support. The estimated total cost is \$774.1 million.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

Israel will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Israel will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be General Dynamics Ordnance and Tactical Systems, located in St. Petersburg, FL, and Northrop Grumman Defense Systems, located in Falls Church, VA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–10

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

a. The 120mm M1147 High Explosive Multi-Purpose with Tracer (HEMP–T)

cartridge is a line-of-sight, full-bore, multi-purpose munition for the Abrams tank. It uses the Abrams Ammunition Data Link (ADL) hardware modification fielded on the M1A2SEPV2 platform to program the multi-mode fuze that provides three modes of operation: point detonate (PD), point detonate delay (DLY), and airburst. On PD/DLY mode, the high explosive payload is used to defeat bunkers, light armor, and breach obstacles and double reinforced concrete walls. On airburst mode, the M1147 provides the capability to defeat Anti-Tank Guided Missile (ATGM) teams.

b. The 120mm M830A1 High Explosive Multi-Purpose Anti-Tank (MPAT) with Tracer cartridge is a line-of-sight, full-bore, multi-purpose munition for the Abrams tank. It requires the gunner to manually select the fuze mode to either point detonate against buildings, bunkers, and light armor vehicles or similar target sets, or proximity for anti-helicopter self-defense capabilities.

c. The highest level of classification of defense articles, components, and services included in this potential sale is Controlled Unclassified Information.

d. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

e. A determination has been made that Israel will provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S.

foreign policy and national security objectives outlined in the Policy Justification.

f. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Israel.

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 24-0H. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 13-68 of December 18, 2013.

Sincerely,

James A. Hursch
Director

Transmittal No. 24-0H

**REPORT OF ENHANCEMENT OR
UPGRADE OF SENSITIVITY OF
TECHNOLOGY OR CAPABILITY (SEC.
36(b)(5)(C)), (AECA)**

(i) *Purchaser:* Government of Norway
(ii) *Sec. 36(b)(1), AECA Transmittal*
No.: 13-68

Date: December 18, 2013

Implementing Agency: Air Force

(iii) *Description:* On December 18, 2013, Congress was notified by congressional certification transmittal number 13-68 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of C-130J technical, engineering and software support; software updates and patches; familiarization training for the Portable Flight Planning System (PFPS) and the Joint Mission Planning System (JMPS); spare and repair parts; U.S. Government and contractor technical support services; and other related elements of logistics and program support. The estimated total cost was \$107 million. There was no Major Defense Equipment (MDE) associated with this sale.

On July 6, 2018, Congress was notified by congressional certification transmittal number 18-0D of the extension of non-MDE support provided to Norway's C-130J aircraft sustainment program, including additional distribution support for unclassified and classified software. Extending the sustainment case resulted in an increase in non-MDE cost of \$123 million. The total case value increased to \$230 million. The total MDE value remained \$0.

This transmittal notifies inclusion of the following additional non-MDE items: Joint Mission Planning Systems; spare parts, consumables, and accessories; minor modifications and maintenance support; precision navigation; support equipment; contractor-provided technical order data; U.S. Government and contractor technical and logistics support services; and other related elements of logistics and program support. The estimated total value of the new non-MDE items is \$586.6 million. This addition will result in an increase in the estimated total case value to \$816.6 million. The total MDE value will remain \$0.

(iv) *Significance:* The proposed sale will support Norway's ability to continue effective maintenance of its current C-130J fleet.

(v) *Justification:* This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is an important force for political stability and economic progress in Europe.

(vi) *Date Report Delivered to Congress:* June 21, 2024
