

training; transportation; quality assurance team support; U.S. Government and contractor technical assistance, engineering, and logistics support services; systems integration and checkout; field office support; participation in the International Engineering Services Program and Field Surveillance Programs; launcher modification kits; MSE conversion kits; and other related elements of logistics and program support. The estimated total cost is \$5.0 billion.

This proposed sale will support the foreign policy and national security of the United States by improving the security of a NATO Ally that is an important force for political and economic stability in Europe.

The proposed sale will improve Germany's capability to meet current and future threats and increase the defensive capabilities of its military. It will support Germany's goal of improving national and territorial defense as well as interoperability with U.S. and NATO forces. Germany will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin, located in Dallas, TX. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Germany.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–70

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) *Sensitivity of Technology:*

1. The PATRIOT Advanced Capability (PAC) 3 Missile Segment Enhancement missile is a small, highly agile, kinetic kill interceptor for defense against tactical ballistic missiles, cruise missiles, and air-breathing threats. The MSE variant of the PAC–3 missile represents the next generation in hit-to-kill interceptors and provides expanded battlespace against evolving threats. The PAC–3 MSE improves upon the original PAC–3 capability with a higher performance solid rocket motor, modified lethality enhancer, more responsive control surfaces, upgraded guidance software, and insensitive munitions improvements.

2. The highest level of classification of defense articles, components, and services included in this potential sale is CONFIDENTIAL.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Government of Germany can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government.

This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Germany.

WASHINGTON, DC 20301-2800

SEP 24 2024

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 24-0K. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 16-62 of December 7, 2016.

Sincerely,

Michael F. Miller
Director

Transmittal No. 24-0K

Report of Enhancement or Upgrade of Sensitivity of Technology or Capability (Sec. 36(b)(5)(C), AECA)

(i) *Purchaser:* Government of Qatar
(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 16-62

Date: December 7, 2016
Implementing Agency: Air Force
Funding Source: National Funds
(iii) *Description:* On December 7, 2016, Congress was notified by congressional certification transmittal number 16-62 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of continued logistics support for eight (8) C-17 aircraft which included contract labor for sustainment engineering, on-site COMSEC support, Quality Assurance, support equipment repair, supply chain management, spares replenishment, maintenance, back shop support, and centralized maintenance support/associated services. Required upgrades included fixed installation satellite antenna, Mode 5+ installation sustainment, Automaniac Dependent Surveillance-Broadcast Out, and two

special operations loading ramps. The estimated cost total was \$700 million. There was no Major Defense Equipment (MDE) associated with this sale.

This transmittal reports the addition of the following non-MDE items: Cartridge Actuated Devices/Propellant Actuated Devices (CAD/PAD); KIV-77 MODE 4 Identification Friend or Foe (IFF) cryptographic Appliques; Computer Program Identification Numbers (CPINs); Precision Measurement Equipment Laboratory (PMEL) Calibration; Joint Mission Planning System (JMPS) with unique planning components; major modifications and maintenance support; aircraft or engine support equipment; spare and repair parts, consumables and accessories, and repair and return support; classified and unclassified software delivery and support; maps, classified and unclassified publications, and technical documentation; personnel training and training equipment; clothing, textiles, and individual equipment; U.S. Government and contractor engineering, technical, and logistics support services; studies and

surveys; and other related elements of logistics and program support. There is no additional MDE being added and the total net cost of MDE remains \$0. The estimated total value of the new non-MDE items is \$816 million. The estimated total case value will increase to \$1.516 billion.

(iv) *Significance:* The inclusion of this non-MDE represents an increase in capability over what was previously notified.

(v) *Justification:* This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a friendly country that continues to be an important force for political stability and economic progress in the Middle East.

(vi) *Date Report Delivered to Congress:* September 24, 2024
