

under the congressional notification threshold. The original FMS case, valued at \$0.41 million (\$0.37 million in MDE), included four hundred (400) M933A1 120mm HE mortar cartridges with M783 fuzes. This notification is for a combined total of fifty thousand four hundred (50,400) M933A1 120mm HE mortar cartridges with M783 fuzes. Also included are publications; technical documentation; U.S. Government and contractor engineering, technical, and logistics support services; studies and surveys; and other related elements of logistics and program support. The estimated total cost is \$61.1 million.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale will improve Israel's capability to meet current and future threats by improving the ability of the Israeli Ground Forces to defend its borders, vital infrastructure, and population centers. It will also increase its interoperability with U.S. forces and conveys U.S. commitment to Israel's security and armed forces modernization. Israel will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be General Dynamics Ordnance and Tactical Systems Inc., located in Quebec, Canada. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any

additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–39

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The M933A1 is a standard Army 120mm mortar high explosive projectile, capable of being fired from NATO-standard 120mm mortars in use around the world today. These projectiles have steel bodies which are filled with explosives, typically TNT.

2. The M783 is a standard Army 120mm mortar fuze. Fuzes cause the projectile to detonate at the target and are attached to the projectile by the mortar crew just before loading and firing. The M783 is a multi-function fuze, which can be set to point detonate or delay.

3. The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that Israel can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is

necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been authorized for release and export to Israel.

POLICY JUSTIFICATION

Israel—M1148A1P2 Family of Medium Tactical Vehicles

The Government of Israel has requested to buy additional modified M1148A1P2 Family of Medium Tactical Vehicles (FMTV) Load Handling System (LHS) 8-ton cargo trucks that will be added to a previously-implemented Foreign Military Sales (FMS) case whose value was under the congressional notification threshold. The original FMS case, valued at \$62.4 million (\$0 in Major Defense Equipment (MDE)), included modified M1148A1P2 FMTV LHS 8-ton cargo trucks and support. This notification is for the

combined total of modified M1148A1P2 FMTV LHS 8-ton cargo trucks. Also included are armor b-kits; corrosion protection; special tools and test equipment; integration and test support; spare and repair parts; software delivery and support; publications and technical documentation; personnel training and training equipment; U.S. Government and contractor engineering, technical, and logistics support services; storage; and other related elements of logistics and program support. The estimated total cost is \$583.1 million.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale will improve Israel's capability to meet current and future threats, strengthen its homeland defense, and serve as a deterrent to regional threats. Israel will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be the Oshkosh Corporation, located in Oshkosh, WI. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
