**REPORT OF ENHANCEMENT OR
UPGRADE OF SENSITIVITY OF
TECHNOLOGY OR CAPABILITY (SEC.
36(b)(5)(C)), (AECA)**

(i) *Purchaser:* Government of Norway
(ii) *Sec. 36(b)(1), AECA Transmittal*
No.: 13-68

Date: December 18, 2013

Implementing Agency: Air Force

(iii) *Description:* On December 18, 2013, Congress was notified by congressional certification transmittal number 13-68 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of C-130J technical, engineering and software support; software updates and patches; familiarization training for the Portable Flight Planning System (PFPS) and the Joint Mission Planning System (JMPS); spare and repair parts; U.S. Government and contractor technical support services; and other related elements of logistics and program support. The estimated total cost was \$107 million. There was no Major Defense Equipment (MDE) associated with this sale.

On July 6, 2018, Congress was notified by congressional certification transmittal number 18-0D of the extension of non-MDE support provided to Norway's C-130J aircraft sustainment program, including additional distribution support for unclassified and classified software. Extending the sustainment case resulted in an increase in non-MDE cost of \$123 million. The total case value increased to \$230 million. The total MDE value remained \$0.

This transmittal notifies inclusion of the following additional non-MDE items: Joint Mission Planning Systems; spare parts, consumables, and accessories; minor modifications and maintenance support; precision navigation; support equipment; contractor-provided technical order data; U.S. Government and contractor technical and logistics support services; and other related elements of logistics and program support. The estimated total value of the new non-MDE items is \$586.6 million. This addition will result in an increase in the estimated total case value to \$816.6 million. The total MDE value will remain \$0.

(iv) *Significance:* The proposed sale will support Norway's ability to continue effective maintenance of its current C-130J fleet.

(v) *Justification:* This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is an important force for political stability and economic progress in Europe.

(vi) *Date Report Delivered to Congress:* June 21, 2024

POLICY JUSTIFICATION

The Netherlands—PATRIOT M903 Launching Stations New Buy and Upgrades

The Government of the Netherlands has requested to buy two (2) new production PATRIOT M903 launching stations (LS) and equipment and services to upgrade existing M901 LS to the M903 LS configuration. The following non-MDE is also included: LS modification kits; PATRIOT Advanced Capability-3 (PAC-3) Missile Segment Enhancement (MSE) launcher conversion kits; LS heater controllers; shorting plug kits; PATRIOT automated logistics system kits; concurrent spare parts; U.S. Government and contractor engineering, technical, logistics, and fielding support services; and other related elements of logistics and program support. The estimated total cost is \$224 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve the Netherlands' missile defense capability to meet current and future enemy threats. The Netherlands will use the enhanced capability to strengthen its homeland defense, deter regional threats, and provide direct support to coalition and security cooperation efforts. The Netherlands will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors are Lockheed-Martin Missiles and Fire Control, located in Grand Prairie, TX, and RTX Corporation, located in Arlington, VA. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor(s).

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24–55

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. PATRIOT missiles are both transported on and launched from launching stations (LS). All new LSs are M903 configuration, which is capable of launching the entire family of PATRIOT missiles.

2. The highest level of classification of defense articles, components, and services included in this potential sale is CONFIDENTIAL.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Government of the Netherlands can provide substantially the same

degree of protection for the technology being released as the U.S. Government. This potential sale is necessary in furtherance of the U.S. foreign policy and national security objectives as outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of the Netherlands.
