This notice allows for an additional 30 days for public comments. **Abstract:** The New Source Performance Standards (NSPS) for the regulations published at 40 CFR part 60, subpart OOOO were proposed on August 23, 2011, promulgated on August 16, 2012, and most recently amended on March 8, 2024. These regulations apply to oil and natural gas facilities that commence construction, modification or reconstruction after August 23, 2011, and on or before September 19, 2015, that are involved in the extraction and production of oil and natural gas, as well as the processing, transmission, and distribution of natural gas. Facilities that commenced construction, modification, or reconstruction after September 18, 2015 and on or before December 6, 2022 are subject to 40 CFR 60, Subpart OOOOa. Facilities that commence construction, modification, or reconstruction after December 6, 2022 are subject to 40 CFR 60, Subpart OOOOb. This information is being collected to assure compliance with 40 CFR part 60, subpart OOOO.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

**Form Numbers:** None.

**Respondents/affected entities:** Oil and natural gas facilities.

**Respondent's obligation to respond:** Mandatory (40 CFR part 60, subpart OOOO).

**Estimated number of respondents:** 417 (total).

**Frequency of response:** Semiannually, annually.

**Total estimated burden:** 54,300 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$11,000,000 (per year), which includes \$3,590,000 annualized capital or operation & maintenance costs.

**Changes in the Estimates:** The change in burden from the most recently approved ICR is due to adjustments. The adjustment decrease in burden from the most recently approved ICR is due to a decrease in the number of existing

sources and a growth rate of zero new sources. The decrease in the number of respondents also resulted in a decrease in labor costs, which was offset slightly by the use of updated labor rates. This ICR uses labor rates from the most recent Bureau of Labor Statistics report (December 2023) to calculate respondent burden costs. There is an increase in Capital O&M costs, which is due to the use of updated labor rates and an update from 2012\$ to 2023\$ using the Chemical Engineering Plant Cost Index (CEPCI).

#### I. Purpose of this Notice

Pursuant to 40 CFR 155.58(c), this notice announces the availability of EPA's interim registration review decision for the pesticide shown in Table 1. The interim registration review decision is supported by rationales included in the docket established for each chemical.

TABLE 1—INTERIM AND FINAL REGISTRATION REVIEW DECISION BEING ISSUED

Sedaxane ..... Case No. 7065 .....	EPA-HQ-OPP-2022-0448 .....	Samantha Carter, <a href="mailto:carter.samantha@epa.gov">carter.samantha@epa.gov</a> , (202) 566-1179.

## II. Background

EPA is conducting its registration review of sedaxane pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). As part of the registration review process, the Agency has completed an interim registration review decision for sedaxane.

Prior to completing the interim registration review decision for sedaxane, EPA posted and invited the public to submit any comments or new information on the proposed interim registration review decision and the amended proposed interim registration review decision (please see the sedaxane registration review docket at [Regulations.gov](https://www.regulations.gov)), consistent with 40 CFR 155.58(a). EPA considered and responded to comments or information received during the public comment periods in the interim registration review decision.

For additional background on the registration review program, see: <https://www.epa.gov/pesticide-reevaluation>.
