

POLICY JUSTIFICATION**Taipei Economic and Cultural Representative Office in the United States—ALTIUS 600M-V Unmanned Aerial Vehicles**

The Taipei Economic and Cultural Representative Office in the United States (TECRO) has requested to buy the following non-MDE: ALTIUS 600M-V systems, comprised of an Unmanned Aerial Vehicle (UAV) loitering munition with extensible warhead and electro-optical/infrared (E.O./IR) camera; ALTIUS 600 inert training UAVs; Pneumatic Integrated Launch Systems (PILS); PILS transport trailers; ground control systems; associated support, including spares; battery chargers; operator and maintenance training; operator, maintenance, and training manuals; technical manuals; logistics and fielding support; testing; technical assistance CONUS and OCONUS, including for engineering services; program management; site surveys; facility, logistics and maintenance evaluations; quality assurance and de-processing team support; field service representative support; transportation; and other related elements of logistics and program support. The estimated total cost is \$300 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's ability to meet current and future threats. The recipient will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Anduril, located in Atlanta, GA. There

are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require assignment of 5 U.S. Government and 12 contractor representatives for a duration of up to two years to support equipment fielding/training and program management.

There will be no adverse impact on U.S. defense readiness because of this proposed sale.

Transmittal No. 24-56

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

vii. *Sensitivity of Technology:*

1. The ALTIUS 600M-V system is composed of an Unmanned Aerial Vehicle (UAV), Pneumatic Integrated Launch System (PILS), payload, and associated support. Each UAV is integrated with a command-and-control radio and assured positioning, navigation, and timing modules. The ALTIUS 600M-V system is designed for expeditionary deployment by air, mobile, ground, or maritime forces. It leverages autonomy to allow a single operator to control multiple UAVs simultaneously. The PILS is a reusable launcher holding up to one UAV at a time per canister. The UAV's payload is an electro-optical/infrared (E.O./IR) camera and extensible warhead, which provides a loitering munition capability. The ALTIUS 600M-V can operate up to 18,000 feet above ground level with an endurance of approximately 90 minutes, a range of up to 160km, and a dash speed of 185km/hour, dependent on payload.

2. The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might

reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the recipient can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the recipient.

Transmittal No. 24-62

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Belgium

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$ 78 million
Other	\$ 37 million

TOTAL \$115 million

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):

One hundred ninety-six (196) Guided Bomb Unit (GBU)-53/B Small Diameter Bombs-Increment II (SDB-II) All-Up-Rounds (AURs)

Non-MDE:

Also included are SDB-II Weapons Load Crew Trainers (WLCT); training aids and devices; spare and repair parts, consumables, accessories, and repair and return support; unclassified software

delivery and support; unclassified publications and technical documentation; major modifications and maintenance support; training and training equipment; munitions support and support equipment; transportation support; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support.

(iv) *Military Department:* Air Force (BE-D-YCA)

(v) *Prior Related Cases, if any:* None
 (vi) *Sales Commission, Fee, etc., Paid Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* July 25, 2024

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Belgium—Small Diameter Bomb-Increment II

The Government of Belgium has requested to buy one hundred ninety-six (196) Guided Bomb Unit (GBU)-53/B Small Diameter Bombs-Increment II (SDB-II) All-Up-Rounds (AURs). Also included are SDB-II Weapons Load Crew Trainers (WLCT); training aids and devices; spare and repair parts, consumables, accessories, and repair and return support; unclassified software delivery and support; unclassified publications and technical documentation; major modifications and maintenance support; training and training equipment; munitions support and support equipment; transportation support; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$115 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Belgium's capability to meet current and future threats by maintaining its F-35 fleet in combat-ready status and providing a credible deterrent to regional threats. Belgium will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Arlington, VA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Belgium.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24-62

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(vii) Sensitivity of Technology:

1. The GBU-53/B Small Diameter Bomb-Increment II (SDB-II) is a 250-pound class precision-guided, semiautonomous, conventional, air-to-ground munition used to defeat moving targets from standoff range. The SDB-II has deployable wings and fins and uses Global Positioning System/Inertial Navigation System (GPS/INS) guidance

enabled by Selective Availability Anti-Spoofing Module (SAASM) or M-Code, network-enabled datalink (Link-16 and ultra-high frequency), and a multi-mode seeker (millimeter wave radar, imaging infrared, semi-active laser) to autonomously search, acquire, track, and defeat a variety of moving or stationary targets, at standoff range or close in, in a variety of attack modes, in clear or adverse weather. The SDB-II employs a multi-effects warhead (blast, fragmentation, and shaped-charge) for maximum lethality against armored and soft targets. The SDB-II weapon system consists of the tactical All-Up-Round (AUR) weapon, a 4-place common carriage system, and Mission Planning System Munitions Application Program (MAP).

The SDB-II Weapon Load Crew Trainer (WLCT) is a mass mockup of the tactical AUR used for load crew and maintenance training. It does not contain energetics, a live fuze, any sensitive components, or hazardous material. It is not flight certified.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Belgium can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S.

foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Belgium.
