SUPPLEMENTARY INFORMATION:

Agenda

The Scallop Advisory Panel (AP) will meet to discuss Framework 40 (FW40):

Review specifications alternatives in FW40 and select final preferred alternatives. FW40 will set specifications including the overfishing limit acceptable biological catch/annual catch limit, days-at-sea, access area allocations for Limited Access vessels, quota and access area trip allocation to the Limited Access General Category (LAGC) Individual Fishing Quota component, Total Allowable Landings for the Northern Gulf of Maine management area, a target-Total Allowable Catch for LAGC incidental catch and set-asides for the observer and research programs for fishing year 2026, and default specifications for fishing year 2027. They also plan to review the draft Long-Term Strategic Plan. The AP will develop recommendations for possible 2026 scallop work priorities. Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
