Loup River Public Power District; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed Loup River Public Power District's application for a non-capacity amendment of license for the Loup River Hydroelectric Project No. 1256 and have prepared an Environmental Assessment (EA) for the project.¹ The licensee proposes to amend Articles 404 and 405 and one of the terms and conditions of the U.S. Fish and Wildlife Service's (FWS) Biological Opinion (BO), referred to as RPM1–TC1a, to provide for flows in the power canal during low flow events as well as greater operating flexibility under Article 405. The Loup River Project is located on the Loup and Platte Rivers, in Nance and Platte counties, Nebraska. The project does not occupy federal lands.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed non-capacity amendment (proposed action), alternatives to the proposed action, and concludes that the proposed action, with staff-recommended measures, would not constitute a major federal

action that would significantly affect the quality of the human environment.

Take notice that on November 12, 2025, Trans-Foreland Pipeline Company, LLC (Trans-Foreland) requested that the Commission grant an extension of time, until December 17, 2028, to construct and place into service its Kenai LNG Cool Down Project (Project) located in Nikiski, Kenai Peninsula Borough, Alaska as authorized in the Order Granting Authorization Under Section 3 of the Natural Gas Act (Order).¹ The Order required Trans-Foreland to complete construction of the Project and make it available for service within two years of the date of the Order, or by December 17, 2022. On August 16, 2022, the Commission granted Trans-Foreland an extension of time, until December 17, 2025, to complete construction of its Project and make it available for service.

Subsequently, Trans-Foreland is in the process of amending the Project to address the forecasted natural gas needs of southcentral Alaska as detailed in Docket No. PF25–9–000.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Trans-Foreland's request for an extension of time may do so.
