## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

The Department of Agriculture will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). Comments are invited on: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments must be received by December 22, 2025 to be assured of consideration. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice at [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Individuals are not required to respond to a collection of information unless it displays a valid OMB control number.

### National Agricultural Statistics Service (NASS)

*Title:* Fruit, Nuts, and Specialty Crops—Substantive Change.

*OMB Control Number:* 0535–0039.

*Summary of Collection:* The National Agricultural Statistics Service (NASS) is responsible for preparing and issuing current official state and national estimates of crop and livestock production. Estimates for fruit, tree nuts, and specialty crops are a key component of this mission and support the NASS strategic goal of covering all agricultural cash receipts. Data are collected voluntarily from growers, processors, and handlers through surveys authorized under 7 U.S.C. 2204(a). Individually identifiable data are protected under Section 1770 of the Food Security Act of 1985 (7 U.S.C. 2276) and Title III of Public Law 115–435 (CIPSEA), which require strict confidentiality for non-aggregated respondent data.

NASS is submitting a substantive change request to revise the currently approved information collection for the Fruit, Nut, and Specialty Crops Surveys. This change reflects a programmatic adjustment to the Florida citrus data collection strategy. Specifically, NASS proposes to discontinue the Florida Citrus Processors Inquiry and instead include Florida in the Quarterly Citrus Survey. This change will align Florida's citrus data collection with the methodology used in other citrus-producing states, streamline internal operations, and improve consistency across states. Florida will adopt the California version of the Quarterly Citrus Survey questionnaire. No changes are being made to the core survey instruments beyond the inclusion of Florida in the sampling frame and associated scheduling adjustments.

*Need and Use of the Information:* The data collected are used to estimate crop acreage, yield, production, utilization, price, and value in states with significant commercial production. These estimates are essential for stakeholders—including farmers, processors, exporters, shipping companies, and market order administrators—to make informed production and marketing decisions.

*Description of Respondents:* Farms; Business or other for-profit.

*Number of Respondents:* 56,215.

## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by December 22, 2025 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

### Food and Nutrition Service

**Title:** FNS Generic Clearance for the FNS Fast Track Clearance for the Collection of Routine Customer Feedback.

**OMB Control Number:** 0584–0611.

**Summary of Collection:** Under the Government Service Delivery Improvement Act (GSDIA), along with the OMB Circular A–11, Section 280 Implementation, agencies are obligated to continually improve the services they provide the public and to collect qualitative and quantitative data from the public to do so. The Food and Nutrition Service (FNS) seeks to obtain OMB approval for the extension of a generic clearance to collect qualitative feedback on our delivery of services. By qualitative feedback we mean information that provides useful insights on perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study.

**Need and Use of the Information:** This feedback will continue to: (1) provide insights into customer or stakeholder perceptions, experiences and expectations, (2) provide an early warning of issues with service and, (3) focus attention on areas where communication, training or changes in operations might improve delivery of products or services. This collection allows for ongoing, collaborative, and actionable communications between the Agency and its customers and stakeholders. It also allows feedback to contribute directly to the improvement of program management.

The solicitation of feedback targets areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses are assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will not be available.

**Description of Respondents:** Individuals and Households, Businesses and Organizations, State, Local and/or Tribal Government.

**Number of Respondents:** 42,500.

**Frequency of Responses:** Reporting: Annually, On Occasion.

**Total Burden Hours:** 85,000.

### National Agricultural Statistics Service (NASS)

**Title:** Cooperator Funded Chemical Use Surveys—Substantive Change.

**OMB Control Number:** 0535–0273.

**Summary of Collection:** The National Agricultural Statistics Service (NASS) is authorized under 7 U.S.C. 2204 to collect and preserve agricultural information, including through the collection of statistics. NASS's mission

is to provide timely, accurate, and useful statistics on agricultural production, economics, and environmental practices. To fulfill this mission, NASS conducts a variety of surveys that track changes in agricultural practices over time.

NASS is submitting a substantive change request to revise the currently approved information collection for the Cooperator Funded Chemical Use Surveys. This revision pertains specifically to the 2026 Minnesota Pesticide and Fertilizer Survey. While the overall purpose and scope of the survey remain unchanged, several questionnaire items have been reworded, clarified, or replaced to improve data quality and respondent comprehension. These updates are designed to enhance the accuracy and usability of the data without increasing respondent burden. The revised questionnaire will be used for phone enumeration beginning in February 2026, as requested by the sponsoring agency.

**Need and Use of the Information:** The proposed changes will simplify survey questions for respondents and better align the data collected with future analytical needs. The information supports agricultural policy development, environmental monitoring, and resource management.

**Description of Respondents:** Farms and Ranches.

**Number of Respondents:** 24,200.

**Frequency of Responses:** Reporting: Once per year.

**Total Burden Hours:** 11,571.
