

Wheeled Vehicles (HMMWV) with Next Generation SECM (NG SECM); eight (8) M1152 HMMWVs with Command and Control Communications Shelters; and thirty-six (36) Defense Advanced GPS Receivers (DAGR). The following non-MDE items will also be included: Low Cost Reduced Range Practice Rocket (LCRRPR) pods; AN/PRC-117G radios; AN/PRC-158 radios; AN/PRC-160 radios; Common Fire Control Systems (CFCS); International Field Artillery Tactical Data Systems (IFATDS); software; training; resupply vehicles; technical assistance; and other related elements of program and logistic support. The estimated total program cost is \$390 million.

This proposed sale will support the foreign policy and national security of the United States (U.S.) by improving the security of a NATO Ally that continues to be an important force for political stability and economic progress in Europe.

The proposed sale will improve Croatia's capability to deter current and future threats and support coalition operations as well as promote interoperability with the U.S. and other NATO forces. Croatia will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, located in Grand Prairie, TX. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require the assignment of four U.S. Government and four contractor representatives to travel to Croatia for program management reviews to support the program. Travel is expected to occur approximately twice per year as needed to support equipment fielding and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 24-95

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The M142 High Mobility Artillery Rocket System (HIMARS) is a C-130 transportable wheeled launcher mounted on a 5-ton Family of Medium Tactical Vehicles truck chassis. HIMARS is the modern Army-fielded version of the Multiple Launch Rocket System (MLRS) M270 launcher and can fire all the MLRS Family of Munitions (FOM) including Guided Multiple Launch Rocket System (GMLRS) variants and the Army Tactical Missile System (ATACMS). Utilizing the MLRS FOM, the HIMARS can engage targets between 15 and 300 kilometers with Global Positioning System (GPS)-aided precision accuracy.

2. The GMLRS M31A2 Unitary is the Army's primary munition for units fielding the M142 HIMARS and M270A1 Multiple Launcher Rocket System (MLRS) launchers. The M31 Unitary is a solid propellant artillery rocket that uses Global Positioning System/Precise Positioning Service (GPS/PPS)-aided inertial guidance provided by Selective Availability Anti-Spoofing Module (SAASM) or M-Code. It accurately and quickly delivers a single high-explosive blast fragmentation warhead to targets at ranges from 15-70 kilometers. The rockets are fired from a launch pod container that also serves as the storage and transportation container for the rockets. Each rocket pod holds six (6) total rockets.

3. The M30A2 GMLRS Alternative Warhead shares a greater than ninety percent commonality with the M31A1 Unitary. The primary difference between the GMLRS-U and GMLRS-AW is the replacement of the Unitary's high explosive warhead with a 200-pound fragmentation warhead of pre-formed tungsten penetrators which are optimized for effectiveness against large area and imprecisely located targets. The munitions otherwise share a common motor, GPS/PPS-aided inertial guidance and control system, fusing mechanism, multi-option height of burst capability, and effective range of 15-70 kilometers.

4. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

5. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might

reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

6. A determination has been made that Croatia can provide the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

7. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Croatia.

September 13, 2024

The Honorable Mike Johnson  
Speaker of the House  
U.S. House of Representatives  
H-209, The Capitol  
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 24-91, concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Government of Japan for defense articles and services estimated to cost \$4.1 billion. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

  
Michael F. Miller  
Director

Transmittal No. 24-91

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Japan

(ii) *Total Estimated Value:*

Major Defense Equipment * ..	\$3.4 billion
Other .....	\$0.7 billion
<b>TOTAL .....</b>	<b>\$4.1 billion</b>

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

*Major Defense Equipment (MDE):*

- Up to nine (9) KC-46A aircraft
- Up to eighteen (18) PW4062 turbofan engines
- Up to sixteen (16) AN/ALR-69A radar warning receivers
- Up to thirty-three (33) Large Aircraft Infrared Countermeasure (LAIRCM) Guardian Laser Turret Assemblies (GLTAs)
- Up to eighteen (18) LAIRCM system

processor replacements

*Non-Major Defense Equipment:*

The following non-MDE items will also be included: missile warning sensors; Cartridge Actuated Devices and Propellant Actuated Devices (CAD/PADs); control interface units; User Data Module (UDM) cards; electronic warfare database support; KIV-77 crypto modules; KY-100 crypto terminals; AN/PYQ-10 Simple Key Loaders (SKL); AN/APX-119 Identification Friend or Foe (IFF) transponders; communications equipment; Computer Program Identification Numbers (CPINS); integration and test support and equipment; aircraft components, parts, and accessories; support and support equipment; spare parts, consumables and accessories, and repair and return support; training aids, devices, and spare parts; minor modifications and maintenance support;

instruments and lab equipment; classified and unclassified software delivery and support; facilities and construction support; unclassified publications and technical documentation; personnel training and training equipment; jet fuel; transportation and airlift support; warranties; studies and surveys; United States (U.S.) Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support.

- (iv) *Military Department:* Air Force (JA-D-SAP)
- (v) *Prior Related Cases; if any:* JA-D-SAJ
- (vi) *Sales Commission; Fee; etc.; Paid; Offered; or Agreed to be Paid:* None known at this time
- (vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress*: September 13, 2024

\* as defined in Section 47(6) of the Arms Export Control Act.

**POLICY JUSTIFICATION**

*Japan—KC-46A Aerial Refueling Aircraft*

The Government of Japan has requested to buy up to nine (9) KC-46A aircraft; up to eighteen (18) PW4062 turbofan engines; up to sixteen (16) AN/ALR-69A radar warning receivers (RWRs); up to thirty-three (33) Large Aircraft Infrared Countermeasure (LAIRCM) Guardian Laser Turret Assemblies (GLTAs); and up to eighteen (18) LAIRCM system processor replacements. The following non-MDE items will also be included: missile warning sensors; Cartridge Actuated Devices and Propellant Actuated Devices (CAD/PADs); control interface units; User Data Module (UDM) cards; electronic warfare database support; KIV-77 crypto modules; KY-100 crypto terminals; AN/PYQ-10 Simple Key Loaders (SKL); AN/APX-119 Identification Friend or Foe (IFF) transponders; communications equipment; Computer Program Identification Numbers (CPINS); integration and test support and equipment; aircraft components, parts, and accessories; support and support equipment; spare parts, consumables and accessories, and repair and return support; training aids, devices, and spare parts; minor modifications and maintenance support; instruments and lab equipment; classified and unclassified software delivery and

support; facilities and construction support; unclassified publications and technical documentation; personnel training and training equipment; jet fuel; transportation and airlift support; warranties; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$4.1 billion.

This proposed sale will support the foreign policy goals and national security objectives of the

U.S. by improving the security of a major ally that is a force for political stability and economic progress in the Indo-Pacific region.

The proposed sale will improve Japan's aerial refueling capability and passenger transport operations, which will contribute to enhanced deterrence of current and future threats in the region. Japan already has KC-46A aircraft tankers in its inventory and will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Boeing Corporation, located in Everett, WA; Pratt & Whitney Military Engines, located in East Hartford, CT; RTX Corporation, located in Goleta, CA; and Northrop Grumman Corporation, located in Rolling Meadows, IL. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any

additional U.S. Government or contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
